Overview of Memorial Restrictions by Area

Below is a general overview of memorial restrictions at Fairview Cemetery. In most full-sized gravesites where upright monuments are permitted, one upright monument may be installed at the head of the grave, along with an additional marker at the foot. This is a general guideline; additional restrictions or limitations may apply to specific gravesites.

Designated Area	Flush	Plaque	Slant	Upright	At Foot
Single Urn Plots Only	YES	NO	NO	NO	NO
Free Ground (Full Burial)	YES	NO	NO	NO	YES
Veteran (Full Burial), Sec. 18	VA Issued Upright Stones Only				
Veteran / & Spouse (Cremation)	YES	YES	NO	NO	NO
Veteran & Spouse, Sec. 18A	YES	YES	NO	NO	NO
*Flush Marker Graves	YES	NO	NO	NO	YES
Monument Graves	YES	NO	YES	YES	YES

*In most areas of the cemetery, graves originally purchased with flush-marker rights may be upgraded to permit an upright monument. Please call to confirm.

All memorials require a cemetery-installed foundation (flush markers set 5" below grade; monuments 1" below grade unless otherwise specified). Fairview Cemetery does not accept delivery of, or install memorials, except those issued by the U.S. Department of Veterans Affairs. Memorials placed on existing foundations incur no fee unless additional work is required. Foundation issues must be addressed by the monument setter; the cemetery will correct issues when warranted but is not responsible for damage due to improper installation (e.g., markers set above grade). Unapproved memorials are subject to removal without notice.
