Dojo Islands

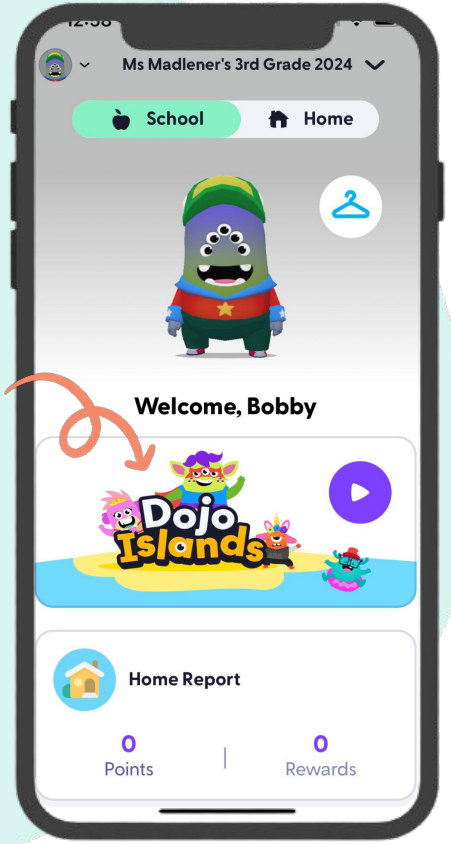

Where students collaborate, create, and more

- Dojo Islands is a place for kids to learn through play together. In a private, virtual world made just for their class, students can practice problem-solving, use their imaginations, and work together to create make-believe scenarios—with friends they already know from school.

- You can check it out for yourself, too! Toggle to your child's account via the app and tap on the "Dojo Islands" image at the top.
