Student Startups

High school educators throughout the region are invited to join this Erie 1 BOCES consortium in partnership with the University at Buffalo Startup and Innovation Collaboratory powered by Blackstone LaunchPad. This consortium will focus on business literacy, entrepreneurship, and innovation. Participants will be part of a community of like-minded teachers to share resources and practices that directly relate to their business courses. Additionally, they will receive the tools they need to guide students in preparation for the 4th annual startup competition. Students will pitch their business ideas to a panel of judges in a format similar to other startup competitions. The Erie 1 BOCES Foundation will award a \$1,000 grant to the winning team, along with grants for second and third place, and a People's Choice award.

Dates: October 15, March 23, April 16, June 3

Cost: \$800/participant

Exploring and Implementing the IAAP

447.009.02

This professional learning session offers a comprehensive overview of the Individual Arts Assessment Pathway (IAAP), designed for educators across all arts content areas - music, visual art, theatre, dance, and media arts. Whether your district is just beginning to explore the IAAP, actively implementing it, or preparing for its first submission, this session will provide practical guidance, examples, and collaborative strategies to support student-centered assessment. Participants will leave with a clearer understanding of the IAAP process, resources to support implementation, and ideas for strengthening authentic assessment practices within their arts programs.

Date: December 1

Cost: \$200 per CSD participant, \$220 per charter participant

Portrait of a Graduate-Aligned Deeper Learning Instructional Packages

As school districts begin to implement Portrait of a Graduate (PoG), many are looking for practical ways to bring it to life in classrooms. Our new Portrait of a Graduate Instructional Packages are designed to provide targeted support at every stage of the journey, from initial planning and visioning to deep implementation. These instructional-focused learning packages help build the knowledge, skills, and strategies needed to align teaching and learning with the Portrait of a Graduate, while offering a cost-effective approach to professional learning.

Each package focuses on critical components of successful implementation, including fostering student agency, developing performance-based assessments, increasing student engagement, creating authentic learning experiences, designing within a competency-based education (CBE) model, and explicitly mapping instructional practices to Portrait of a Graduate attributes.

In-District Supports

Pilots

Our pilot process is comprehensive and aims to gather data points that will assist districts in evaluating the educational impact of a specific technology in the classroom. The pilot team will meet with district administrators and designated staff to discuss the appropriate technology and classroom implementation. Our staff developers and district educators collaboratively plan projects and learning activities. We also provide classroom support for all of our pilot projects in the form of co-teaching, coaching, and mentoring.

Dates: 2-4 days to be scheduled with the district

Cost: Model Schools day trades
