New York State Center for School Health

Supporting Student Success Through Health and Education

The New York State Center for School Health (NYSCSH or the "Center") is a contracted Technical Assistance Center for the NYS Education Department (NYSED) Student Support Services. Funded by and under the direction of NYSED, the Center has provided health services support since 1992. We are part of Monroe 2 – Orleans BOCES in Rochester, NY. Our staff consists of registered professional nurses, a certified health education teacher, clerical support, and a medical director consultant.

While school nurses and school medical directors have been a focus of the Center's support, the mission has always included Coordinated School Health Team members (health educators, administrators, athletic directors, healthcare providers, and parents).

Our Mission

"Promote the health, learning and overall well-being of all students, thereby strengthening and improving academic performance."

Our Vision

"To ensure that school health services are effective in addressing the health, safety, and education needs of students by providing leadership and direction to school health professionals, parents, school districts, and community organizations."

Our Objectives

- Increase the capacity of school health professionals to provide quality school health service programs to all NYS schools.
- Increase the capacity of school personnel coordinating and/or delivering health education, inclusive of HIV/AIDS prevention, to provide evidence-based health education instruction and programs.
- Improve connections with school health professionals and educators in schools and local communities.
- Continue to build, maintain, and sustain existing result-driven purposeful collaborations and partnerships at the national, statewide, and community levels.
- Increase the use of existing resources to improve the health of students.

What We Offer

- NYSCSH Website: www.schoolhealthny.com
- Support via email: NYSCSH@monroe2boces.org
  or by phone: (585) 617-2380 from 7:30 am to 4:30 pm daily.
- Professional Education for NYS school nurses, school medical directors, and health educators.
- Website Courses, Learning Management System (LMS), eLearning, and required trainings.
- Resources, sample templates, and tools that can be customized for school districts' needs.
- Health Information Portal: our subscription based email list used to disseminate current, accurate, information from NYSED and other relevant agencies.
