Families Making the Connection School Meals Make a Difference!

All public schools in North Carolina offer school lunch. Most also offer school breakfast. All students can participate in school meal programs.

Many students and their families depend on school meals. School meals offer a variety of lean proteins, whole grains, fruits, vegetables, lowfat or fat free dairy, and locally grown ingredients. School meals make a difference!

There are many benefits to school meals:

- Research shows that students who participate in school meal programs consume more whole grains, milk, fruits, and vegetables.
- Students who eat school meals have better attendance, more focus in class, and improved academic performance.
- Participation in School Nutrition Programs supports social emotional learning.
 - School meals are a nutritious, convenient choice for families.
- Eating school meals supports local School Nutrition Programs, farmers, and communities.
