The Referral Process for Local Enrichment CLUE (Grades K-2)

Parents and teachers of students in early grades who have identified their student as **reading and comprehending two grade levels above** their current grade assignment are invited to refer the student by completing this form: **https://forms.cloud.microsoft/r/EKKDAaUy1J**

Evidence the student is performing above grade level must be provided in the referral. This evidence can be I Ready scores, STAR reading scores, or a book title with a corresponding Lexile Level.

This is the first step in the process for all students in grades K-2. Testing will be completed by a trained CLUE teacher as time permits.
