

Anchorage School Board Members 1915-1983

Throughout these past sixty-nine years since 1915 Anchorage has had at least three school board members in 1915 and as high as seven board members per term beginning in 1961. As the town grew, so did the size of the board. The Anchorage School District wishes to recognize and thank all of the former and present members for their service to the community and guidance to the educational program.
