

# Splish, Splash, Stay Safe!

YES!

## Ask an Adult First!

Never go near any water, even a backyard pool, without asking a grown-up for permission first.

## Wear Your Life Jacket

When on a boat or near water, make sure your life jacket is zipped up and fits you tightly. Don't just pack it, wear it!

## Use the Buddy System

Never swim alone; always have a "Water Buddy" friend and a grown-up watching you at the same time.

## Look for Lifeguards

It is always safest to swim in areas where a lifeguard is sitting in their big chair watching over everyone.

## Stay Off the Ice

In winter, stay on the grass!  
Remember: "Thick and blue, tried and true;  
white and crispy, way too risky!"  
Always let a grown-up check the ice first.
