Elena Montgomery
Director of Food Services

Dear PCSD Families,

We are excited to share that, beginning September 8, 2026, breakfast and lunch will be available at no cost to every student in the Pittsford Central School District.

During the 2026–27 school year, PCSD will complete its participation in the National School Lunch Program by adding our middle and high schools. This means that all PCSD students may receive one complete breakfast and one complete lunch each school day at no charge.

Although meals will be free for all students, the District is still required to make Free and Reduced-Price Meal Applications available and collect completed applications from eligible middle and high school households only. We strongly encourage families with students in middle and high school to submit an application.

State and federal meal reimbursements are calculated differently, and completed applications help ensure that PCSD receives the appropriate reimbursement, state aid and other resources available to support our students. Information from eligible applications may also help families qualify for additional benefits beyond school meals.

Completing an application will not affect your child's ability to receive free breakfast or lunch. All information submitted is confidential and used only for authorized program purposes.

Applications may be completed online through Infinite Campus on the District website or paper applications can be delivered to:

PCSD Food Service Department
100 Mendon Center Road
Pittsford, NY 14534

We are thrilled to offer this important benefit to every PCSD student and look forward to serving your children healthy and nutritious meals throughout the school year.

Please contact the Food Service Department at (585) 267-1096 or elena_montgomery@pittsford.monroe.edu with any questions.

Sincerely,

Elena Montgomery
Director of Food Service
