

## What is Centegix?

CENTEGIX is a wearable safety badge that allows employees to instantly request assistance during an emergency with the press of a button.

## How does Centegix integrate with existing systems?

CENTEGIX works in conjunction with NMUSD's Standard Response Protocol (SRP). While CENTEGIX provides staff with a fast way to request assistance, the SRP provides staff with a standardized set of actions to respond to emergencies. CENTEGIX also integrates with our school security camera system to provide a precise location for staff and first responders to more quickly identify where assistance is needed.

## What can students expect?

When an SRP action is initiated through CENTEGIX, students will hear a standardized message over the school's PA system and see colored lights (corresponding to the SRP action) throughout campus. Students should follow staff instructions.

### STAFF ALERT

**HOLD!**

**SECURE!**

### How it Works:

An employee presses their Centegix badge 3 times when assistance is needed.

School Response Team is notified, assesses the situation, and determines if an SRP action is needed.

### LOCKDOWN ALERT

**LOCKDOWN!**

### How it Works:

An employee repeatedly presses their Centegix badge to initiate a lockdown for an immediate threat.

**Lockdown is activated, law enforcement is notified, and will respond.**

## STANDARD RESPONSE PROTOCOL (SRP) ACTIONS

**HOLD!**

In your room or area.  
Clear the halls.

**SECURE!**

Get inside. Lock  
outside doors.

**LOCKDOWN!**

Locks, lights, out  
of sight.

**EVACUATE!**

(A location may  
be specified.)

**SHELTER!**

Hazard and  
safety strategy.
