Driscoll ISD 2026-2027
Syllabus

Campus: Driscoll Intermediate

Course and/or Grade Level: 4th Grade

Course Description: In 4th grade math, students will build on what they've learned in previous years and explore new and exciting math concepts. This course focuses on strengthening skills in addition, subtraction, multiplication, and division, including working with larger numbers and solving multi-step word problems. Students will also learn about fractions and decimals, explore shapes and angles in geometry, and collect and interpret data in graphs. Through hands on activities, games and real-world examples, students will develop problem solving strategies and build confidence in their math abilities.

Semester 1: July 22 - December 18, 2026

1st Quarter Topics	**2nd Quarter Topics**
• Place Value, Rounding and Algorithms for Addition and Subtraction • Unit Conversions and Problme Solving with Metric Measurements	• Multi DIgit Multiplication and Division • Angle Measure and Plane Figures
