WHAT WE'RE LEARNING

Reading

Our students are reading *Camping with the President* and diving into cause and effect! They are identifying what happens in the story and explaining why those events happen.

Writing

Our students are beginning to explore argumentative writing! They are learning how to develop a strong claim, support their ideas with evidence, and explain their thinking.

Math

Our students are getting hands-on with volume by building rectangular prisms! They are using their prisms to explore how length, width, and height work together to find the total volume of a three-dimensional figure.

Science

Our students are exploring electricity and electrical circuits! They are learning how electricity flows and getting hands-on by building their own circuits to see how different components work together.

DRESS CODE

Uniforms and clear backpacks are mandatory at Ison Springs. Please reach out to their home room teacher with any questions or concerns you may have!
