# **Proposition 28: Arts and Music in Schools Annual Report Window, Web Page and Frequently Asked Questions Update**

As of Friday, April 25, 2025, the California Department of Education Proposition 28—Arts and Music in Schools Funding web page has been updated to include a fillable template of the **Proposition 28: Arts and Music in Schools Final Expenditure Report**. This resource is found under the “LEA Web Portal and Reports” tab and aims to assist local educational agencies (LEAs) as they prepare the information required by California *Education Code* (EC) Section 8820(f)(2), which is due by October 1 of the end of the three-year expenditure period or when funds have been exhausted. The Final Expenditure Report is submitted through the Arts and Music in Schools (AMS) Portal.

Additionally, the Frequently Asked Questions page has also been updated and includes additional guidance on reporting requirements. New questions and answers have been added as questions numbered 25, 27, 31, 32, 33, 35, and 36, while updates have been made to questions numbered 3, 10, 11, 23, 24, 30, 37, and 43.

Lastly, the **2024–25 Annual Report**, as required by *EC* Section 8820(g)(4), submission window is now open in the **AMS portal**. The window will remain open until September 30, 2025. As a reminder, this report requires either governing body or board approval. The California Department of Education has also provided an optional fillable template for the annual report within the “LEA Web Portal and Reports” tab. Please note that LEAs risk losing funds if this report, as well as the Annual Certifications, are not completed prior to their annual audit.

# Prop 28 Info and Resources

## ❖ Essential resources to help support your arts education planning:
