School Mission

Osaka International School and Senri International School of Kwansei Gakuin were founded to bring together, for the benefit of returnee, national, and international residents of the Kansai region, the best of Japanese and non-Japanese educational ideas, systems, and techniques into two schools which share a building, programs, curricula, philosophies, experiences, and dreams.

The shared mission of both schools is to educate our students to become “Informed, Caring, Creative Individuals Contributing to a Global Community.”

The vision for our schools is revealed in our statements of belief, which apply to all of our schools’ divisions, from elementary through grade 12:

I. Two Schools Together

1. We believe that it is important for the two schools to continually explore ways to come together because this brings great benefit to our students.
2. We believe that the closeness of the schools is so important that it is the central part of our vision.

II. Exchange of Ideas

1. We believe that our schools should be a place where ideas, particularly educational ideas, are freely exchanged among faculty, parents, and students.
2. We believe the diversity of experiences of our faculty, parents, and students should be celebrated and the free exchange of ideas will enhance this celebration.

III. Understanding of Cultures

1. We believe that our schools should be deeply involved in the culture of our host country in study, appreciation, and understanding.
2. We believe that our schools should also be involved with the relationship between the culture of Japan and the surrounding cultures of Asia and the rest of the world.
3. We believe that since our community is composed of so many cultures, our schools should be a place where intercultural understanding is modeled, studied, and celebrated.

IV. Learning

1. We believe that the special nature of our schools should encourage students to be well-rounded, creative individuals, responsible thinkers and doers, and this is why we believe our programs should be full of choices, special programs, and innovative structures.
2. We believe that one of the key responsibilities of our schools is to encourage students to learn how to learn and to carry this kind of learning into adulthood.

V. Common Ground

1. We believe that our schools should represent a common ground between Japanese and non-Japanese ideas, practices, beliefs, and traditions.

VI. Model

1. We believe that our two schools should exist as a model for others.
2. We believe that one of our goals is to demonstrate new ideas, practices, techniques, and systems to other schools around Japan and the world.

The Student Council is comprised of bilingual students from both OIS and SIS, and is a model of our 'Two Schools Together' philosophy.
