"I want to thank everyone at the style drop. My family was able to get some much needed school clothes and items. There was nothing but kindness from everyone. This was such an amazing thing to do and hopefully it will continue what a great way to recycle used clothing and items while helping others."

"My daughter, who is a single mom of three, found so many clothes at this amazing event!! Thanks to everyone involved! It was beautifully organized and all the volunteers were so helpful and personable. Hope it becomes a yearly event!!!"

"Thank you so much from this Worthington family for putting on such a well-organized, smoothly-run event. I wanted to let you know that it is appreciated by so many families. Some families served may be dealing with a job loss after all the government cutbacks, especially with so many in Worthington employed in research and public health.

Others may simply be trying to balance a steady income with increased prices due to tariffs. And, of course, we have many families in Worthington who find it difficult to make ends meet due to single-parenting, housing costs, etc.

But there are middle-class families like ours who don't require government assistance, but a pair of shoes and some new school clothes are an enormous pick-me-up in a time of unexpected medical bills."
