Wildcat families,

I cannot believe that we are already in May! While the finish line is fast approaching, we still have much to do before the end of the year, and it is vital that we work in close partnership to ensure each student receives what they need.

State testing begins next week. All 10th graders will test in ELA (May 4-8) and Math (May 11-15). These tests will be taken during their English/Math classes. These tests are one of the ways for students to meet their graduation pathways, but not the only way. To learn more about the pathways, **please check our website**. All 11th graders will take the Science test on May 14. If you have questions about these tests, please contact your students counselor or Mrs. Kistler.

AP testing also begins next week. All students taking the AP test know when their exams are, and they will be excused from the classes they miss due to their exam(s).

May can feel like a grind for students and families, but it is important that all students finish the school year strong. One of our goals is that all students finish the year on track for graduation, or have a plan for how they will be on track prior to the start of the upcoming school year. We are more than willing to help ensure your student knows their options if they need additional assistance. Please don't hesitate to reach out to your student's grade level counselor, the assigned classroom teacher, or your grade level administrator.

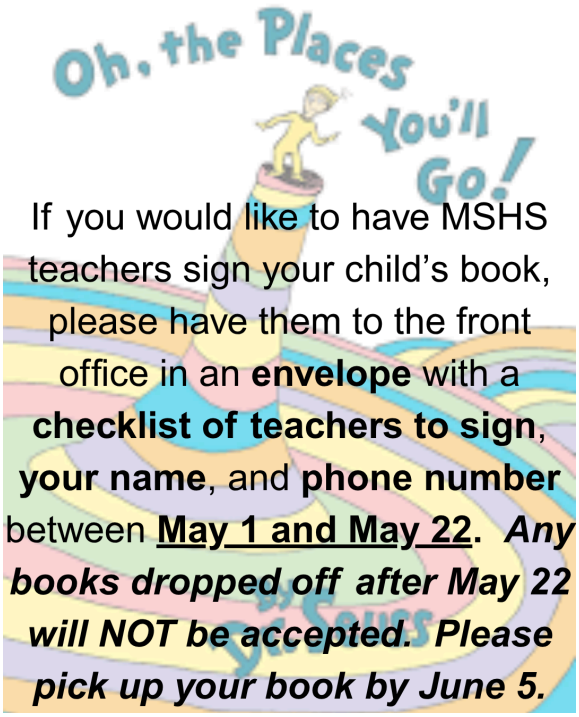

We are thankful to partner with you in educating your child, and we are looking froward to the fun and full month ahead.

In Service,

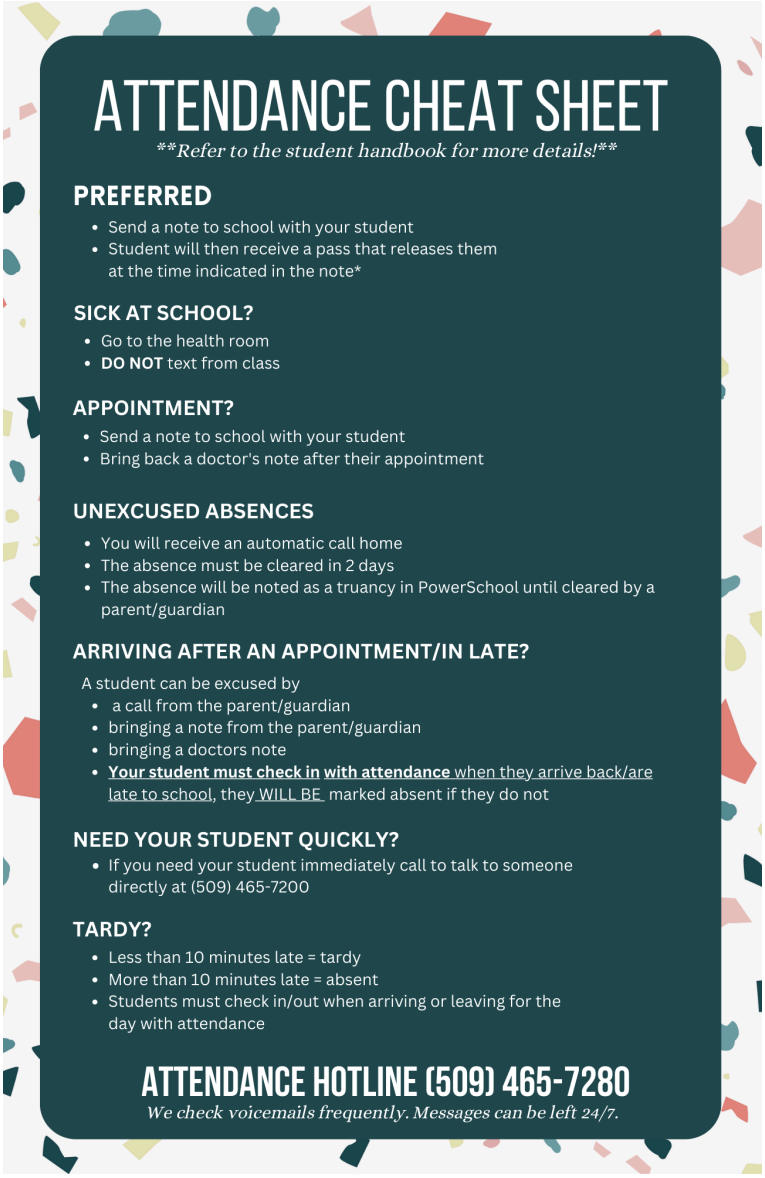

Chelsea Gallagher
