Language and Literature Courses

Course Name: 9th English LA

Code: 01001G5.0012/22

Credit: 5 per semester

2 Semesters

English/Language Arts I (9th grade) courses build upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and usually include the four aspects of language use: reading, writing, speaking, and listening. Typically, these courses introduce and define various genres of literature, with writing exercises often linked to reading selections.

Course Name: 9th English LA ADV

Code: 01001E5.0014/24

Weighted Credit: 5 per semester

2 Semesters

English/Language Arts I (9th grade) courses build upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and usually include the four aspects of language use: reading, writing, speaking, and listening. Typically, these courses introduce and define various genres of literature, with writing exercises often linked to reading selections. This course has more depth and complexity and the pace is faster than English/Language Arts I.

Course Name: 10th English LA

Code: 01002G5.0012/22

Credit: 5 per semester

2 Semesters

English/Language Arts II (10th grade) courses usually offer a balanced focus on composition and literature. Typically, students learn about the alternate aims and audiences of written compositions by writing persuasive, critical, and creative multi-paragraph essays and compositions. Through the study of various genres of literature, students can improve their reading rate and comprehension and develop the skills to determine the author's intent and theme and to recognize the techniques used by the author to deliver his or her message.

Course Name: 10th English LA ADV

Code: 01002E5.0014/24

Weighted Credit: 5 per semester

2 Semesters

English/Language Arts II (10th grade) courses usually offer a balanced focus on composition and literature. Typically, students learn about the alternate aims and audiences of written compositions by writing persuasive, critical, and creative multi-paragraph essays and compositions. Through the study of various genres of literature, students can improve their reading rate and comprehension and develop the skills to determine the author's intent and theme and to recognize the techniques used by the author to deliver his or her message. This course has more depth and complexity and the pace is faster than English/Language Arts II.

Course Name: 11th English LA

Code: 01003G5.0012/22

Credit: 5 per semester

2 Semesters

English/Language Arts III (11th grade) courses continue to develop students' writing skills, emphasizing clear, logical writing patterns, word choice, and usage, as students write essays and begin to learn the techniques of writing research papers. Students continue to read works of literature, which often form the backbone of the writing assignments. Literary conventions and stylistic devices may receive greater emphasis than in previous courses.

Language and Literature Courses

Course Name: AP English Language and Composition (11th Grade)

Code: 1005H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level English courses, AP English Language and Composition courses expose students to prose written in a variety of periods, disciplines, and rhetorical contexts. These courses emphasize the interaction of authorial purpose, intended audience, and the subject at hand, and through them, students learn to develop stylistic flexibility as they write compositions covering a variety of subjects that are intended for various purposes.

Course Name: Senior Literature/Composition/Communications

Code: 01004G5.0012/22

Credit: 5 per semester

2 Semesters

English/Language Arts IV (12th grade) courses blend composition and literature into a cohesive whole as students write critical and comparative analyses of selected literature, continuing to develop their language arts skills. Typically, students primarily write multi-paragraph essays, but they may also write one or more major research papers.

Course Name: AP English Literature and Composition (12th Grade)

Code: 1006H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level English courses, AP English Literature and Composition courses enable students to develop critical standards for evaluating literature. Students study the language, character, action, and theme in works of recognized literary merit; enrich their understanding of connotation, metaphor, irony, syntax, and tone; and write compositions of their own (including literary analysis, exposition, argument, narrative, and creative writing).

Course Name: Mythology

Code: 01069G5.0011

Credit: 5 per semester

1 Semester

Mythology focuses primarily on Greek and Roman myths, yet other cultures such as African, Native American, Asian, and Norse texts are studied at a comparative level. Background information and resources on characteristic themes of world cultures adds emphasis to the individual myths studied. The course emphasizes various myths and legends, plus a study of Homer's epics the Iliad and/or the Odyssey and Virgil's Aeneid.

Course Name: Creative Writing

Code: 01104G5.0011

Credit: 5 per semester

1 Semester

Creative Writing introduces the student to the writing of fiction, poetry, the personal narrative, drama, screenplay, and creative essay. Students analyze peer and published authors for particular stylistic devices in order to understand the writer's skill in narration, dialogue, description, and detail. This course provides activities and projects to stimulate ideas and extend the students' writing talent, to encourage appropriate freedom of expression, and to develop sensitivity to the power of words in the written medium. Students read their work aloud for class critique and the course introduces students to appropriate markets for publication.

Language and Literature Courses

Course Name: Film Literature

Code: 05203G5.0011

Credit: 5 per semester

1 Semester

Grades: 10, 11 or 12

Film Literature examines literary and artistic forms as interpreted through film. Students develop literacy, verbal, and visual analysis skills through discussion and written critiques. This course promotes an understanding of film's historical progression, its language, its techniques, and its conscious and subliminal effects. This course requires a parent/guardian permission slip.

Course Name: Philos of Film

Code: 05203G5.0023

Credit: 5 per semester

1 Semester

Philosophy through Film and Literature encourages a lively interest, understanding, and discussion of some of the main pieces of Philosophical Literature. This course introduces students to Philosophy and its methods of inquiry by discussing a range of literature and film and by investigating major contributors to philosophical inquiry through the ages. The emphasis is on examining arguments while encouraging students to provide their own arguments through writing and discussion.

Course Name: Public Speaking

Code: 01151G5.0011

Credit: 5 per semester

1 Semester

Public Speaking teaches students the techniques used in informative and persuasive speaking. Students learn the fundamentals of communication and develop skills in the preparation, organization, and presentation of speeches. Students practice and deliver prepared and impromptu speeches to inform, to persuade, and to entertain.

Course Name: Broadcast Journalism 1

Code: 11103G5.0016/26

Credit: 5 per semester

2 Semesters

Broadcast Journalism 1 teaches first year Broadcast staff members how to develop an action plan, conduct interviews, write journalistically competent copy, film quality action and B-roll video, and create video segments that include well-edited video, interviews, sound, and graphic elements. Students learn to use professional technology for filming, interviewing, and video editing. Students also learn how to edit and manage digital media files. Students use the Internet and multimedia tools for journalistic research and publishing and study ethical usage guidelines. Students work cooperatively to set and achieve goals, organize time and tasks to meet deadlines, develop and adhere to a budget, and problem-solve in order to publish a product for a school audience. Students learn how to raise money to increase publication funds. Students may enroll more than one year; second and third year students are eligible to become producers and executive producers. In some circumstances, first year students may serve as producers with teacher permission.

Course Name: Broadcast Journalism 2

Code: 11103G5.0036/46

Credit: 5 per semester

2 Semesters

Broadcast Journalism 2 is for second year Broadcast students who successfully completed Broadcast 1. Second year staff members continue to develop the skills and knowledge they acquired in Broadcast 1 with a particular emphasis on story design, editing, and graphics. In addition to regular assignments, Broadcast 2 students are also eligible to serve in a leadership position as a producer or in some other capacity where they

Language and Literature Courses

have additional responsibilities beyond Broadcast 1. Second year staff members who become producers plan coverage for their segments of the Broadcast, design the structure of episodes, coordinate and write scripts for anchors, and work closely with staff to edit and complete each Broadcast episode by deadline. They attend regular Editorial Board meetings, keep detailed and accurate records and lead by example, coaching first year students. They may take the course for a third year where they are eligible to become Executive Producer.

Course Name: Broadcast Journalism 3

Code: 11103G5.0056/66

Credit: 5 per semester

2 Semesters

Broadcast Journalism 3 is for third year Broadcast students who successfully completed Broadcast 1 and 2. Third year staff members continue to develop all the skills and knowledge they acquired in Broadcast 1 and 2 with a particular emphasis on coverage, editing, story assignments, sound design, and final production. In addition to regular story assignments, Broadcast 3 students are also eligible to serve in a leadership position, either as a producer, Executive Producer, business manager, or in some other capacity beyond Broadcast 1. A third year staff member who becomes Executive Producer is in charge of all aspects of Broadcast production from the brainstorming of stories to the publishing of the episodes. It is crucial that this person has strong leadership skills including being well-organized, a strong communicator, an expert editor, and a fanatic when it comes to meeting deadlines. Executive Producers may be expected to attend a summer work session to develop and strengthen their skills before school starts in the fall. Executive Producer duties include regularly leading the class and promoting the cohesion of Broadcast staff. Executive Producers work closely with the Media adviser and producers on every aspect of Broadcast production. In addition, the Executive Producer prepares and organizes Broadcast entries into local, state and national competitions.

Course Name: Pub Prod 1- Yrbook 1

Code: 11104G5.0018/28

Credit: 5 per semester

2 Semesters

Yearbook 1 allows first year students to learn and practice the skills of yearbook production. First year yearbook staff learn how to develop an action plan, conduct interviews, write journalistically competent copy and captions, take quality action photographs, and complete layouts which include photos and captions, and graphic elements. Students learn to use professional graphic design and photo editing software and supporting technology and how to manage file storage and prepare those files for publication. Students learn ethical and responsible use of Internet resources and practice principles of sound journalism. Students work cooperatively to set and achieve goals, organize time and tasks to meet deadlines, develop and adhere to a budget, and problem-solve in order to publish a product for a school audience. Students may enroll more than one year; second and third year students are eligible to become editors or editors in chief. In some circumstances, first year students may serve as editors with teacher permission.

Course Name: Pub Prod 2- Yrbook 2

Code: 11104G5.0038/48

Credit: 5 per semester

2 Semesters

Yearbook 2 allows students who successfully completed Yearbook 1 to continue to develop the skills and knowledge they acquired with a particular emphasis on AP style, design, and graphics. In addition to regular page assignments, Yearbook 2 students are also eligible to serve in a leadership position, either as an editor, business manager, or in some other capacity where they have additional responsibilities beyond Yearbook 1. Second year staff members who become section editors plan coverage for their section of the yearbook,

Language and Literature Courses

design layouts, and work closely with staff completing pages for their section. They edit and complete their section, producing pages that are ready for publication by deadline. They attend regular editor meetings, keep detailed and accurate records and lead by example, coaching first year students. Second year students who serve successfully for two or more semesters are eligible for an academic letter in Yearbook.

Course Name: Pub Prod 3- Yrbook 3

Code: 11104G5.0058/68

Credit: 5 per semester

2 Semesters

Yearbook 3 allows students who successfully completed Yearbook 1 and 2 to continue to develop all the skills and knowledge they acquired with a particular emphasis on planning a ladder, theme development and design, coverage and page assignments, proof-editing and page submission. In addition to regular page assignments, Yearbook 3 students are also eligible to serve in a leadership position, either as an editor, editor-in-chief, business manager, or in some other capacity beyond Yearbook 1. A third year staff member who becomes editor-in-chief is in charge of all aspects of yearbook production from the development of the theme and cover, to the final distribution. It is crucial that this person has strong leadership skills including being well organized, a strong communicator, an expert editor, and a fanatic when it comes to meeting deadlines. EICs may be expected to attend a summer Yearbook work session to develop the theme of the book before school starts in the fall. EICs duties include regularly leading the class and promoting the cohesion of Yearbook staff. EICs work closely with the yearbook adviser and section editors on every aspect of Yearbook production. In addition, the EIC prepares and organizes Yearbook entries into local, state and national competitions. Third year students who serve successfully for two or more semesters are eligible for an academic letter in Yearbook. This is an elective course for practical experience/computer, communication or language arts credit.

Course Name: Journalism NWSPR

Code: 11101G5.0018/28

Credit: 5 per semester

2 Semesters

Newspaper 1 teaches first year newspaper staff how to develop an action plan, conduct interviews, write journalistically competent copy and captions, take quality action and candid photographs, and complete layouts that include photos, captions, and graphic elements. Students learn to use professional technology for photo editing, videography, website management, and print layout. Students also learn how to edit and manage digital photos and media files. Students use the Internet and multimedia tools for journalistic research and publishing and study ethical usage guidelines. Students work cooperatively to set and achieve goals, organize time and tasks to meet deadlines, develop and adhere to a budget, and problem-solve in order to publish a product for a school audience. Students learn how to sell ads and raise money to raise publication funds. Students may enroll more than one year; second and third year students are eligible to become editors. In some circumstances, first year students may serve as editors with teacher permission.

Course Name: Journalism NWSPR 2

Code: 11101G5.0038/48

Credit: 5 per semester

2 Semesters

Newspaper 2 allows students who successfully completed Newspaper 1 to continue to develop the skills and knowledge they acquired with a particular emphasis on AP style, design, and graphics. In addition to regular page assignments, Newspaper 2 students are also eligible to serve in a leadership position, either as an editor, business manager, or in some other capacity where they have additional responsibilities beyond Newspaper 1. Second year staff members who become section editors plan coverage for their section of the Newspaper,

Language and Literature Courses

design layouts, and work closely with staff completing pages for their section. They edit and complete their section, producing pages that are ready for publication by deadline. They attend regular editor meetings, keep detailed and accurate records and lead by example, coaching first year students. Second year students who serve successfully for two or more semesters are eligible for an academic letter in Newspaper.

Course Name: Journalism NWSPR 3

Code: 11101G5.0058/68

Credit: 5 per semester

2 Semesters

Newspaper 3 allows students who have successfully completed Newspaper 1 and 2 to continue to develop the skills and knowledge they acquired with emphasis on planning coverage and page assignments, coaching junior staff, and advanced work with publishing technologies. In addition to regular reporting assignments, Newspaper 3 students are eligible to serve in a leadership position, such as an editor, editor-in-chief, or business manager. A staff member who becomes editor-in- chief is in charge of all elements of news production and promotes high journalism standards. The EIC must have strong leadership skills in organization, deadlines, communication, and editing. EICs may be expected to summer work sessions. EIC duties include regularly leading the class and promoting cohesion of newspaper staff. In addition, the EIC prepares and organizes newspaper entries into local, state and national competitions.

Course Name: Video & Film 1

Code: 11055G5.0012

Credit: 5 per semester

Fee: \$30

1 Semester

Video and Film Production provides opportunities for students to write, produce, and edit video and film using digital SLR cameras and industry standard editing through Adobe Premiere Pro. Students are responsible for planning, handling technical equipment, and employing technical knowledge in order to create a variety of types of films including music videos, documentaries, dramas, and comedies. The final project allows students to create a longer film suitable for submission to film festivals.

Course Name: Video & Film 2

Code: 11055G5.0022

Credit: 5 per semester

Fee: \$30

1 Semester

Video and Film Production 2 is a semester-long course that requires students to write, act and produce films, many of which will be showcased through music and theater events, television and the year-end film festival. This course is also an opportunity to create polished portfolio pieces for the college application process. Students use a variety of more sophisticated filming techniques including use of a boom microphone, aerial drone, motorized slider, umbrella lighting, and steady-cam/gimbal. Students who have acting experience also have the opportunity to act as recurring characters in a sit-com produced by students for broadcast.

Math Courses

Course Name: Algebra 1

Code: 02052G5.0012/22

Credit: 5 per semester

2 Semesters

Algebra I courses include the study of properties and operations of the real number system; evaluating rational algebraic expressions; solving and graphing first-degree equations and inequalities; translating word problems into equations; operations with and factoring of polynomials; solving quadratic equations; and modeling linear data. Specific content depends upon state standards.

Course Name: Algebra 2

Code: 02056G5.0012/22

Credit: 5 per semester

2 Semesters

Prerequisites: Algebra I & Geometry

Algebra II course topics typically include developing an understanding of the relationships between the symbolic, graphic, tabular and verbal representations of functions; utilizing the various representations to interpret function behavior and solve equations; operations with rational and irrational expressions; factoring of rational expressions; in-depth study of linear equations and inequalities; quadratic equations; solving systems of linear and quadratic equations; graphing of constant, linear, and quadratic equations; properties of higher-degree equations; exponential functions; inverse functions; statistical modeling; modeling linear and quadratic data; and operations with rational and irrational exponents.

Course Name: ADV Algebra 2

Code: 02056E5.0014/24

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Adv Geometry

Algebra II course topics typically include developing an understanding of the relationships between the symbolic, graphic, tabular and verbal representations of functions; utilizing the various representations to interpret function behavior and solve equations; operations with rational and irrational expressions; factoring of rational expressions; in-depth study of linear equations and inequalities; quadratic equations; solving systems of linear and quadratic equations; graphing of constant, linear, and quadratic equations; properties of higher-degree equations; exponential functions; inverse functions; statistical modeling; modeling linear and quadratic data; and operations with rational and irrational exponents. The pace of an advanced course may be faster than that of the Algebra 1 course.

Course Name: Geometry

Code: 02072G5.0012/22

Credit: 5 per semester

2 Semesters

Prerequisites: Algebra I

Geometry courses, emphasizing an abstract, formal approach to the study of geometry, typically include topics such as properties of plane and solid figures; deductive methods of reasoning and use of logic; geometry as an axiomatic system including the study of postulates, theorems, and formal proofs; concepts of congruence, similarity, parallelism, perpendicularity, and proportion; and rules of angle measurement in triangles, quadrilaterals, vertical angles, lines intersected by a transversal, etc.

Math Courses

Course Name: ADV Geometry

Code: 02072E5.0014/24

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Algebra I

Geometry courses, emphasizing an abstract, formal approach to the study of geometry, typically include topics such as properties of plane and solid figures; deductive methods of reasoning and use of logic; geometry as an axiomatic system including the study of postulates, theorems, and formal proofs; concepts of congruence, similarity, parallelism, perpendicularity, and proportion; and rules of angle measurement in triangles, quadrilaterals, vertical angles, lines intersected by a transversal, etc. The pace of an advanced course may be faster than that of the Geometry course.

Course Name: Pre Calculus

Code: 02110G5.0012/22

Credit: 5 per semester

2 Semesters

Prerequisites: Algebra 2

Mathematics at the Pre-Calculus level focuses on exponential, logarithmic, and trigonometric functions, conic sections, systems of equations solved by matrices and limits of functions as a precursor to the study of Calculus. Problem solving, representations, reasoning, communication, and connections within and outside of mathematics underline all of the teaching and learning at the Pre-Calculus level.

Course Name: ADV Pre Calculus

Code: Code: 02110E5.0034/44

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Algebra 2 Adv

Mathematics at the Advanced Pre-Calculus level focuses on solving and modeling with exponential, logarithmic, parametric and trigonometric functions and their inverses. The complex number system is fully developed. Conic sections, systems of equations solved through matrices, and an introduction to vectors and sequences and series are also included. Limits of functions are taught as a precursor to Calculus AB or BC. Problem solving, representations, reasoning, communication, and connections within and outside of mathematics underline all of the teaching and learning at the Pre-Calculus level. As an advanced course, this course goes beyond the curriculum expectations of the Pre-Calculus course offering by increasing the depth and complexity. Students are engaged in dynamic, high-level learning via the Standards for Mathematical Practice. The pace of an advanced course may be faster than that of the Pre-Calculus course.

Course Name: AP Calculus AB

Code: 02124H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Pre-Calculus

Following the College Board's suggested curriculum designed to parallel college-level calculus courses, AP Calculus AB provides students with an understanding of the concepts of calculus and experience with its methods and applications. These courses introduce calculus and include the following topics: functions, graphs, limits, and continuity; differential calculus (including definition, application, and computation of the derivative; derivative at a point; derivative as a function; and second derivatives); and integral calculus (including definite integrals and antidifferentiation).

Math Courses

Course Name: AP Calculus BC

Code: 02125H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Adv Pre-Calculus

Following the College Board's suggested curriculum designed to parallel college-level calculus courses, AP Calculus BC courses provide students with an understanding of the concepts of calculus and experience with its methods and applications. These courses cover all of the calculus topics in AP Calculus AB as well as the following topics: parametric, polar, and vector functions; applications of integrals; and polynomial approximations and series, including series of constants and Taylor series. See SCED Code 02124 for more details.

Course Name: Calculus 3

Code: 02121E5.0022

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: AP Calc BC

This course is the equivalent of the fourth semester of college Calculus. Topics include vectors, vector-valued functions, partial differentiation, multiple integration and vector calculus. Students completing this class will have a thorough understanding of calculus applied to multi-variable functions, vector-valued functions and vector fields.

Course Name: Elem Differn Equations

Code: 02123E5.0011

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Calculus 3

First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Provides students with essential quantitative tools used throughout STEM disciplines and beyond to create models of change. After completing this course you should be able to understand the relevance of differential equations to physical and other scientific models; develop skills of setting up and solving such models. You will be able to solve certain classes of differential equations and interpret the solutions.

Course Name: AP Statistics

Code: 02203H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Prerequisites: Algebra 2

Following the College Board's suggested curriculum designed to parallel college-level statistics courses, AP Statistics courses introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data, sampling and experimentation, anticipating patterns, and statistical inference.

Course Name: Discrete Math

Code: 02102G5.0011

Credit: 5 per semester

2 Semesters

Grades: 12

Prerequisites: Geometry

Discrete Mathematics courses include the study of topics such as number theory, discrete probability, set theory, symbolic logic, Boolean algebra, combinatorics, recursion, basic algebraic structures and graph theory.

Life and Physical Science Courses

Course Name: Biology

Code: 03051G5.0012/22

Credit: 5 per semester

Fee: \$20

2 Semesters

Grades: 9 or 10

In this class, students will explore relationships between structure and function in organisms and the interaction of cells and organisms with each other and their environments. Topics of study include: use of a microscope, cell structure and function, biochemistry, microbiology, classification, human physiology, genetics, evolution, botany and ecology. Laboratory activities reinforce concepts presented and engage students in the practices of scientific inquiry.

Course Name: ADV Biology

Code: 03052E5.0014/24

Weighted Credit: 5 per semester

Fee: \$20

2 Semesters

Grades: 9 or 10

In this class, students will explore relationships between structure and function in organisms and the interaction of cells and organisms with each other and their environments. Topics of study include: use of a microscope, cell structure and function, biochemistry, microbiology, classification, human physiology, genetics, evolution, botany and ecology. Laboratory activities reinforce concepts presented and engage students in the practices of scientific inquiry. As an advanced course, this course goes beyond the curriculum expectations of a standard course offering by increasing the depth and complexity. Students are engaged in dynamic, high-level learning. The pace of an advanced course may be faster than that of a "standard" course.

Course Name: AP Biology

Code: 03056H5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 11 or 12

Prerequisites: Biology, Adv Biology or Adv Chemistry

Adhering to the curricula recommended by the College Board and designed to parallel college-level introductory biology courses, AP Biology courses emphasize four general concepts: evolution; cellular processes (energy and communication); genetics and information transfer; and interactions of biological systems. For each concept, these courses emphasize the development of scientific inquiry and reasoning skills, such as designing a plan for collecting data, analyzing data, applying mathematical routines, and connecting concepts in and across domains. AP Biology courses include college-level laboratory investigations.

Course Name: Anatomy & Physiology ADV

Code: 03053E5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 11 or 12

Prerequisites: Biology or Adv Biology

Usually taken after a comprehensive initial study of biology, Anatomy and Physiology courses present the human body and biological systems in more detail. In order to understand the structure of the human body and its functions, students learn anatomical terminology, study cells and tissues, explore functional systems (skeletal, muscular, circulatory, respiratory, digestive, reproductive, nervous, and so on), and may dissect mammals. The pace of an advanced course may be faster than that of a "standard" course.

Life and Physical Science Courses

Course Name: ADV Chemistry

Code: 03101E5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 10, 11 or 12

Prerequisites: Algebra I and Biology or Adv Biology

Chemistry courses involve studying the composition, properties, and reactions of substances. These courses typically explore such concepts as the behaviors of solids, liquids, and gasses; acid/base and oxidation/reduction reactions; and atomic structure. Chemical formulas and equations and nuclear reactions are also studied. The pace of an advanced course may be faster than that of a “standard” course.

Course Name: AP Chemistry

Code: 03106H5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 11 or 12

Prerequisites: Adv Chem

Following the curricula recommended by the College Board, AP Chemistry courses usually follow high school chemistry and second-year algebra. Concepts covered may include the structure of matter; bonding of intermolecular forces; chemical reactions; kinetics; thermodynamics; and chemical equilibrium. For each concept, these courses emphasize the development of scientific inquiry and reasoning skills, such as designing a plan for collecting data, analyzing data, applying mathematical routines, and connecting concepts in and across domains. AP Chemistry courses include college-level laboratory investigations. It is recommended to also be enrolled or already taken in Algebra 2.

Course Name: ADV Physics

Code: 03151E5.0012/22

Weighted Credit: 5 per semester

Fee: \$25

2 Semesters

Grades: 11 or 12

Prerequisites: Algebra 2

Physics courses involve the study of the forces and laws of nature affecting matter, such as equilibrium, motion, momentum, and the relationships between matter and energy. The study of physics includes examination of sound, light, and magnetic and electric phenomena. The pace of an advanced course may be faster than that of a “standard” course. It is recommended to also be enrolled or already taken in PreCalculus.

Course Name: AP Physics C

Code: 03156H5.0012/22

Weighted Credit: 5 per semester

Fee: \$25

2 Semesters

Grades: 11 or 12

Prerequisites: Adv Physic, **Corequist:** AP Calc

AP Physics C courses prepare students for the College Board’s examinations in Physics C: Electricity and Magnetism and Physics C: Mechanics. These courses parallel college-level physics courses that serve as a partial foundation for science or engineering majors and primarily focus on mechanics and electricity and magnetism, with approximately equal emphasis placed on these two areas. See SCED Codes 03163 and 03164 for detailed content descriptions. It is recommended to also be enrolled or already taken in Calculus.

Life and Physical Science Courses

Course Name: AP Environmental Science

Code: 03207H5.0012/22

Weighted Credit: 5 per semester

Fee: \$15

2 Semesters

Grades: 11 or 12

Prerequisites: Biology, Adv Biology, Earth/Space or
Adv Chemistry

AP Environmental Science courses are designed by the College Board to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, identify and analyze environmental problems (both natural and human made), evaluate the relative risks associated with the problems, and examine alternative solutions for resolving and/or preventing them. Topics covered include science as a process, ecological processes and energy conversions, earth as an interconnected system, the impact of humans on natural systems, cultural and societal contexts of environmental problems, and the development of practices that will ensure sustainable systems.

Course Name: Research Seminar in Science

Code: 03212E5.0012/22

Weighted Credit: 5 per semester

Fee: \$10

2 Semesters

Grades: 11 or 12

Prerequisites: Passed/enrolled in Biology, Chemistry,
and Physics

In Scientific Research and Design courses, students conceive of, design, and complete a project using scientific inquiry and experimentation methodologies. Emphasis is typically placed on safety issues, research protocols, controlling or manipulating variables, data analysis, and a coherent display of the project and its outcome(s).

Course Name: Marine Biology

Code: 03005G5.0012/22

Credit: 5 per semester

Fee: \$25

2 Semesters

Grades: 10, 11 or 12

Prerequisites: Biology or Adv Biology

Physical structure and chemistry of the ocean, the diversity of ocean life, marine ecology, and the scope and impact of human interactions with the oceans. Laboratory activities reinforce concepts presented. Students will be assessed in a variety of formats, which may include tests, performance assessments, evaluation of laboratory skills, and the demonstration of critical thinking.

Course Name: Earth Space Geo Physical Science

Code: 03008G5.0012/22

Credit: 5 per semester

Fee: \$15

2 Semester

Grades: 10, 11 or 12

Prerequisites: Algebra I

Earth and Space Science courses introduce students to the study of the earth from a local and global perspective. In these courses, students typically learn about time zones, latitude and longitude, atmosphere, weather, climate, matter, and energy transfer. Advanced topics often include the study of the use of remote sensing, computer visualization, and computer modeling to enable earth scientists to understand earth as a complex and changing planet.

Life and Physical Science Courses

Course Name: Physical Science

Code: 03159G5.0012/22

Credit: 5 per semester

2 Semester

Grades: 11 or 12

Prerequisites: Algebra I

Physical Science courses involve study of the structures and states of matter. Typically (but not always) offered as introductory survey courses, they may include such topics as forms of energy, wave phenomenon, electromagnetism, and physical and chemical interactions. This course provides a foundation for high school science by concentrating on the areas of chemistry and physics. Units in chemistry will include properties of matter, physical and chemical changes, atomic structure, the periodic table, bonding, and chemical reactions. Units in physics will include motion, forces, simple machines, energy, heat, electricity and magnetism, and waves. An emphasis is placed on solid laboratory techniques in preparation for high school science.

Social Sciences and History

Course Name: World Geography

Code: 04001G5.0011

Credit: 5 per semester

1 Semester

World Geography courses provide students with an overview of world geography, but may vary widely in the topics they cover. Topics typically include the physical environment; the political landscape; the relationship between people and the land; economic production and development; and the movement of people, goods, and ideas.

Course Name: AP Human Geography

Code: 04004H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level Human Geography courses, AP Human Geography introduces students to the systematic study of patterns and processes that have shaped the ways in which humans understand, use, and alter the earth's surface. Students use spatial concepts and landscape analysis to examine human social organization and its environmental consequences and also learn about the methods and tools geographers use in their science and practice.

Course Name: World History

Code: 04051G5.0012/22

Credit: 5 per semester

2 Semesters

World History—Overview courses provide students with an overview of the history of human society from early civilization to the contemporary period, examining political, economic, social, religious, military, scientific, and cultural developments. World History—Overview courses may include geographical studies, but often these components are not as explicitly taught as geography.

Course Name: AP World History

Code: 04067H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level World History courses, AP World History: Modern courses examine world history from 1200 CE to the present with the aim of helping students make connections of historical evolution across times and places. These courses highlight the interaction between humans and the environment; development and interaction of cultures; state-building, expansion and conflict; creation, expansion and interaction of economic systems; development and transformation of social structures; and technology and innovation.

Course Name: US History

Code: 04101G5.0012/22

Credit: 5 per semester

2 Semesters

U.S. History—Comprehensive courses provide students with an overview of the history of the United States, examining time periods from discovery or colonialism through World War II or after. These courses typically include a historical overview of political, military, scientific, and social developments. Course content may include a history of the North American peoples before European settlement.

Social Sciences and History

Course Name: AP US History

Code: 04104H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level U.S. History courses, AP U.S. History courses provide students with the analytical skills and factual knowledge necessary to address critical problems and materials in U.S. history. Students learn to assess historical materials and to weigh the evidence and interpretations presented in historical scholarship. The course examines the discovery and settlement of the New World through the recent past.

Course Name: AP European History

Code: 04056H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Following the College Board's suggested curriculum designed to parallel college-level European History courses, AP European History courses examine European civilization in four chronological periods, from 1450 to the present, and also expose students to the factual narrative. In addition, these courses help students develop an understanding of some of the principal themes in modern European history and the abilities to analyze historical evidence and to express that understanding and analysis in writing.

Course Name: US Government

Code: 04151G5.0011

Credit: 5 per semester

1 Semester

U.S. Government—Comprehensive courses provide an overview of the structure and functions of the U.S. government and political institutions and examine constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process. These courses may examine the structure and function of state and local governments and may cover certain economic and legal topics.

Course Name: AP US Government and Politics

Code: 04157H5.0011

Weighted Credit: 5 per semester

1 Semester

Following the College Board's suggested curriculum designed to parallel college-level U.S. Government and Politics courses, these courses provide students with an analytical perspective on government and politics in the United States, involving both the study of general concepts used to interpret U.S. politics and the analysis of specific case studies and foundational documents. The courses generally cover foundations of American democracy, interaction among branches of government, political beliefs and behaviors, political participation, and civil rights and liberties.

Course Name: Economics

Code: 04201G5.0011

Credit: 5 per semester

1 Semester

Economics courses provide students with an overview of economics with primary emphasis on the principles of microeconomics and the U.S. economic system. These courses may also cover topics such as principles of macroeconomics, international economics, and comparative economics. Economic principles may be presented in formal theoretical contexts, applied contexts, or both.

Social Sciences and History

Course Name: Anthropology

Code: 04251G5.0011

Credit: 5 per semester

1 Semester

Anthropology courses introduce students to the study of human evolution with regard to the origin, distribution, physical attributes, environment, and culture of human beings. These courses provide an overview of anthropology, including but not limited to both physical and cultural anthropology.

Course Name: Psychology

Code: 04254G5.0011

Credit: 5 per semester

1 Semester

Psychology courses introduce students to the study of individual human behavior. Course content typically includes (but is not limited to) an overview of the field of psychology, topics in human growth and development, personality and behavior, and abnormal psychology.

Course Name: AP Psychology

Code: 04256H5.0012/22

Weighted Credit: 5 per semester

1 Semester

Grades: 10, 11 or 12

Prerequisites: Psychology

Following the College Board's suggested curriculum designed to parallel a college-level introductory psychology course, AP Psychology courses introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals, expose students to each major subfield within psychology, and enable students to examine the methods and ethics that psychologists use in their science and practice.

Course Name: Sociology

Code: 04258G5.0011

Credit: 5 per semester

1 Semester

Sociology courses introduce students to the study of human behavior in society. These courses provide an overview of sociology, generally including (but not limited to) topics such as social institutions and norms, socialization and social change, and the relationships among individuals and groups in society.

Course Name: Criminal Law

Code: 15057G5.0022

Credit: 5 per semester

1 Semester

Grades: 11 or 12

Criminal Law and Procedures courses provide students with knowledge and skills related to understanding criminal law, constitutional amendments, and due process. Course content may include specific types of crimes, such as vehicle crimes, personal crimes, cyber crimes, drug crimes, and crimes related to child pornography or pedophiles.

Visual and Performing Arts Courses

Course Name: Band 1

Code: 05101G5.0016/26

Credit: 5 per semester

2 Semesters

Band Level 1 is a course that emphasizes the organization, preparation, and performance of a variety of band music. The yearlong course will explore both the marching and concert bands. Included in the course is the study of those basic musical and physical coordination skills for band performances. In addition, a variety of group and individual leadership programs are presented. Public performances after school hours are an integral part of the course and are required.

Course Name: Band 2

Code: 05101G5.0036/46

Credit: 5 per semester

2 Semesters

Band Level 2 is a course that further explores the organization, preparation, and performance concepts of a contemporary band. The yearlong course will further explore both the marching and concert band idioms. Included is the study of more intricate music and both affective and physical coordination skills necessary for band performances. In addition, a variety of group and individual leadership positions will be available. Public performance after school hours is an integral part of the course and is required.

Course Name: Band 3

Code: 05101G5.0056/66

Credit: 5 per semester

2 Semesters

Band Level 3 is a course that emphasizes the highest degree of band performance. Level 3 students assume many of the varied responsibilities of organizing the band and rehearsals. The yearlong course will further explore some of the most complex aspects of a performing band program. In addition, special opportunities are given for leadership training. Public performances after school hours are an integral part of the course and are required.

Course Name: Percussion Ensemble

Code: 05105G5.0034/44

Credit: 5 per semester

2 semesters (auditioned class)

Percussion Ensemble is a course that explores the organization, preparation, and performance concepts of a contemporary band. The yearlong course will further explore both the marching and concert band idioms. Included is the study of more intricate music and both affective and physical coordination skills necessary for band performances. In addition, a variety of group and individual leadership positions will be available. Public performance after school hours is an integral part of the course and is required.

Course Name: Wind Ensemble

Code: 05105E5.0014/24

Credit: 5 per semester

2 semesters (auditioned class)

Band Level 4 Brass is a course that emphasizes the highest degree of band performance. Level 4 students assume many of the varied responsibilities of organizing the band and Wind Ensemble is a course that emphasizes the highest degree of band performance. Level 4 students assume many of the varied responsibilities of organizing the band and rehearsals. The yearlong course will further explore some of the most complex aspects of a performing band program. In addition, special opportunities are given for leadership training. Public performances after school hours are an integral part of the course and are required.

Visual and Performing Arts Courses

Course Name: Orchestra 1

Code: 05104G5.0016/26

Credit: 5 per semester

2 Semesters

Orchestra Level 1 offers technical and musical training and opportunities for development in-group settings for orchestral musicians. Students become familiar with great works of music as well as developing technical and personal growth. Winds and percussion may be incorporated to provide for a full orchestral experience. Performances after school hours are an integral part of the course and are required.

Course Name: Orchestra 2

Code: 05104G5.0036/46

Credit: 5 per semester

2 Semesters

Orchestra Level 2 offers technical and musical training at an advancing level and opportunities for development in-group settings for orchestral musicians. Students become familiar with great works of music as well as developing technical and personal growth. Winds and percussion may be incorporated to provide for a full orchestral experience. Performances after school hours are an integral part of the course and are required.

Course Name: Orchestra 3

Code: 05104G5.0056/66

Credit: 5 per semester

2 Semesters

Orchestra Level 3 offers technical and musical training and opportunities for development in-group settings for orchestral musicians. Students become familiar with great works of music as well as developing technical and personal growth. Winds and percussion may be incorporated to provide for a full orchestral experience. Public performances after school hours are an integral part of the course and are required.

Course Name: Chamber Orchestra

Code: 05104E5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Students in this course build on skills and concepts learned in previous years. Students will focus on playing longer and more difficult pieces of music (grade 2.5-3 on a scale of 1-6) and the skills needed to become an effective soloist. Students will continue to expand their musical experience through creation, theory and aesthetic valuation. Culminating performances are a meaningful component of this full year course.

Course Name: Jazz Band 1

Code: 05106G5.0016/26

Credit: 5 per semester

2 Semesters

Jazz Band 1 is a course that offers student musicians experience in and opportunity to perform the musical forms of jazz, rock, and popular music with additional emphasis on advancing improvisational techniques. Public performances after school hours are an integral part of the course and are required.

Course Name: Jazz Band 2

Code: 05106G5.0036/46

Credit: 5 per semester

2 Semesters (auditioned class)

Visual and Performing Arts Courses

Jazz Band 2 is a course that offers student musicians experience in and opportunity to perform the musical forms of jazz, rock, and popular music with additional emphasis on advancing improvisational techniques. Public performances after school hours are an integral part of the course and are required.

Course Name: Jazz Band 3

Code: 05106G5.0056/66

Weighted Credit: 5 per semester

2 Semesters (auditioned class)

Jazz Band 3 is a course that offers student musicians experience in and opportunity to perform the musical forms of jazz, rock, and popular music with additional emphasis on advancing improvisational techniques. Public performances after school hours are an integral part of the course and are required.

Course Name: Guitar 1

Code: 05108G5.0012

Credit: 5 per semester

1 Semester

Guitar courses provide students an introduction to, and refine the fundamentals of, music and guitar literature and techniques, such as strumming and chords and may offer instruction in more advanced techniques. These courses may include bass, ukulele and other plucked string instruments. Formal and informal performances are typically included as well as experiences in creating and responding to music.

Course Name: Guitar 2

Code: 05108G5.0022

Credit: 5 per semester

1 Semester

Prerequisites: Guitar 1

Students in this course build on skills and concepts learned in Guitar I and previous music classes. In addition to progressively more demanding large ensemble work, there is an increasing emphasis on ensemble awareness and individual musicianship. Students focus on playing with more confidence in smaller groups and will continue to expand their musical experience through creation, theory and aesthetic valuation. Instrumental repertoire is at a Level II on a scale from 1 to 6. Culminating performances are a meaningful component of this full year course.

Course Name: S/A Choir

Code: 05111G5.0012/22

Credit: 5 per semester

2 Semesters (auditioned class)

Soprano/Alto Choir builds on the skills and concepts from all prior levels. Emphasis will be placed on developing more advanced musicianship and professionalism. A wide variety of advanced vocal and choral techniques will be explored in-depth. Culminating performances are a meaningful and mandatory component of this class.

Course Name: S/A/T/B Choir

Code: 05110G5.0012/22

Credit: 5 per semester

2 Semesters

Soprano/Alto/Tenor/Bass Choir is a vocal ensemble designed to introduce singers to choral ensembles at the high school level. A wide variety of vocal techniques will be presented and utilized. Culminating performances are a meaningful and mandatory component of this class.

Visual and Performing Arts Courses

Course Name: Select S/A Choir

Code: 05111E5.0012/22

Weighted Credit: 5 per semester

2 Semesters (auditioned class)

Select Soprano/Alto Choir is a more advanced ensemble focusing on more difficult choral works. Emphasis will be placed on developing more advanced musicianship and professionalism. A wide variety of advanced vocal and choral techniques will be explored in-depth. Culminating performances are a meaningful and mandatory component of this class.

Course Name: Select S/A/T/B Choir

Code: 05110E5.0012/22

Weighted Credit: 5 per semester

2 Semesters (auditioned class)

Select Soprano/Alto/Tenor/Bass Choir is a more advanced ensemble focusing on more difficult choral works. Emphasis will be placed on developing more advanced musicianship and professionalism. A wide variety of advanced vocal and choral techniques will be explored in-depth. Culminating performances are a meaningful and mandatory component of this class.

Course Name: Show Choir

Code: 05149G5.0012/22

Weighted Credit: 5 per semester

2 Semesters

Show Choir focuses on the performance of vocal music in the popular idiom. Emphasis will be placed on developing appropriate vocal techniques and stage presence to create an effective overall performance. Culminating performances are a meaningful and mandatory component of this class.

Course Name: Music Theory I

Code: MUS 1010

Weighted Credit: 5 per semester

1 Semesters

Reviews and builds upon music fundamentals, diatonic harmony, phrase structure, and analysis. The course introduces voice leading and four-part harmony in root position and inversions.

Course Name: AP Music Theory

Code: 05114H5.0012/22

Weighted Credit: 5 per semester

2 Semesters

AP Music Theory courses are designed to be the equivalent of a first-year music theory college course as specified by the College Board. AP Music Theory develops students' understanding of musical structure and compositional procedures. Usually intended for students who already possess performance-level skills, AP Music Theory courses extend and build upon students' knowledge of intervals, scales, chords, metric/rhythmic patterns, and the ways they interact in a composition. Musical notation, analysis, composition, and aural skills are important components of the course.

Course Name: Pop Music Recording Tech

Code: 05123G5.0011

Credit: 5 per semester

1 Semesters

Recording and Production courses provide students with an opportunity to learn and apply skills in music recording techniques, music editing, mixing, and creating finished musical recordings for distribution as sound files in order to enhance, convey, and capture the expressive intent of music.

Visual and Performing Arts Courses

Course Name: Theater 1

Code: 05053G5.0013

Credit: 5 per semester

1 Semester

Theatre 1 provides a foundation in all aspects of theatre: history, play analysis, terminology, stage movement, vocal exercises, memorization, character interpretation, production principles, and selection and evaluation of plays.

Course Name: Unified Theater

Code: 05099G5.0012

Credit: 5 per semester

1 Semester

This course is designed for students with special physical needs. The programs are adaptive in nature and very individualized so that the students can work on their specific needs. Students will increase their skill level in their areas of interest, along with participation in various types of conditioning activities. This course also provides students with the opportunity to participate in modified activities in an environmental education class. This semester course may be repeated as desired or recommended. Mentor students are also able to register. *A Mentor Application will be required prior to the start of the class.*

Course Name: Theater 2

Code: 05999G5.0011

Credit: 5 per semester

1 Semester

Theatre 2 focuses on decision-making in writing, directing, acting, critiquing, designing and constructing performances. Students, through analysis of theatrical works and from performing, develop abilities and skills to be flexible, to solve conflicts, and to express themselves creatively.

Course Name: Stagecraft 1

Code: 05056G5.0012

Credit: 5 per semester

1 Semester

Stagecraft teaches students the skills and concepts essential to stagecraft, and technical theatre. Students engage daily in hands-on activities that revolve around scenic design, theatrical management, and construction techniques. Through collaborative learning, individual and group projects, and critical analysis students develop advanced qualities of leadership, and responsibility. This course meets the Practical Arts requirement.

Course Name: Draw Paint 1

Code: 05155G5.0014

Credit: 5 per semester

Fee: \$35

1 Semester

Students can expect to gain a strong foundation in drawing and painting in this beginning level class. Composition, the visual element, the principles of design, and the basic techniques and concepts of both drawing and painting will be covered. The end goals are to increase artistic self-confidence, increase one's understanding of the basics of drawing /painting and to produce successful works.

Visual and Performing Arts Courses

Course Name: Draw Paint 2

Code: 05155G5.0024

Credit: 5 per semester

Fee: \$35

1 Semester

Prerequisites: Draw Paint 1

This second level course builds upon the experiences of Drawing and Painting 1. Students who choose to take this course should be confident with their drawing skills and ready to produce more complex finished drawings and paintings. An emphasis will be on the development of a more personal style, sophisticated approaches to the development of ideas, development of a greater awareness of art beyond school, and the introduction of new techniques.

Course Name: Draw Paint 3

Code: 05155G5.0034

Credit: 5 per semester

Fee: \$35

1 Semester

Prerequisites: Draw Paint 2

This third level more advanced class builds upon the drawing and painting experiences of level 2. The class will provide opportunities to expand drawing, painting and related skills; to develop a personal style; to develop creative ideas; to expand one's awareness to art beyond school, and to provide instruction based on a student's art or career goals when desired. Proficiency in skills will be expected.

Course Name: Draw Paint 4

Code: 05155G5.0044

Credit: 5 per semester

Fee: \$35

1 Semester

Grades: 10, 11 or 12

Prerequisites: Draw Paint 3

This fourth level advanced course gives students an additional opportunity to produce drawings, paintings, and related works for a portfolio. The class will provide opportunities to expand drawing, painting and related skills; to develop a personal style; to develop creative ideas; to expand one's awareness to art beyond school, and to provide instruction based on a student's particular art or career goals when desired. Proficiency in basic skills will be expected.

Course Name: Ceramics/ Pottery 1

Code: 05159G.0014

Credit: 5 per semester

Fee: \$35

1 Semester

This is a foundation course that emphasizes the art elements and principles of design to produce nonfunctional and functional three-dimensional art forms constructed from clay. Students may explore both functional and nonfunctional forms using hand-building, the potter's wheel, and various other sculptural techniques. Students will be exposed to contemporary and historical clay artists.

Course Name: Ceramics/ Pottery 2

Code: 05159G.0024

Credit: 5 per semester

Fee: \$35

1 Semester

Prerequisites: Pottery 1

This second level course will build upon experiences in Pottery/Sculpture 1. Students will be challenged with more advanced techniques and problems in the area of pottery and sculpture to create both functional and nonfunctional three-dimensional forms. Students may explore in greater depth the process of hand-building, the potter's wheel, and other sculptural techniques. New firing techniques, different clay bodies, new glazes and new sculpture techniques may be introduced. Students will be exposed to contemporary and historical clay artists.

Visual and Performing Arts Courses

Course Name: Ceramics/ Pottery 3 **Code: 05159G.0034**

Credit: 5 per semester **Fee: \$35**

1 Semester **Grades: 10, 11 or 12** **Prerequisites: Pottery 2**

This third level course will build upon experiences in level 2. Students will be challenged with more advanced techniques and problems in the area of pottery and sculpture to create both functional and nonfunctional three-dimensional forms. Students may explore in greater depth the process of hand-building, the potter's wheel, sculptural techniques, firing techniques, clay bodies, glazes and sculpture techniques. Students will be exposed to contemporary and historical clay artists.

Course Name: Ceramics/ Pottery 4 **Code: 05159G.0044**

Credit: 5 per semester **Fee: \$35**

1 Semester **Grades: 10, 11 or 12** **Prerequisites: Pottery 3**

This fourth level course will build upon experiences in level 3. Students will be challenged with more advanced techniques and problems in the area of pottery and sculpture to create both functional and nonfunctional three-dimensional forms. Students will refine techniques and increase skill levels. Students may explore in greater depth the process of hand-building, the potter's wheel, sculptural techniques, firing techniques, clay bodies, glazes and sculpture techniques. Some possible media to be used are clay, wood, papier-mâché, fibers, found objects, yarns, plaster and others.

Course Name: Film Photography 1 **Code: 05167G5.0014**

Credit: 5 per semester **Fee: \$35**

1 Semester

This introductory course deals with traditional black and white 35mm as well as digital photography and teaches the basic camera handling, film processing, and darkroom procedures. Students learn how to control light to produce an aesthetically pleasing image. Composition and the elements and principles of art are introduced. In addition, pinhole cameras, photograms, special effects, and the history of photography may be addressed. *There is a Camera Rental Fee of \$25.*

Course Name: Film Photography 2 **Code: 05167G5.0024**

Credit: 5 per semester **Fee: \$35**

1 Semester **Prerequisites: Photography 1**

This second level course will build upon experiences of level 1. This course deals with improving the student's ability to see, take and create a photographic image. Students may be given opportunities to work with sepia toning, hand coloring, multiple images, special films, digital images, and other photo techniques and processes. Masters of photography may be studied. Special emphasis is placed on the critique.

Course Name: Film Photography 3 **Code: 05167G5.0034**

Credit: 5 per semester **Fee: \$35**

1 Semester **Grades: 10, 11 or 12** **Prerequisites: Photography 2**

This third level course will build upon experiences of level 2. This course deals with improving the student's ability to see, take and create a photographic image. Students may be given opportunities to work with medium format, sepia toning, hand coloring, multiple images, special films, digital images, specialty lenses, filters and other photo techniques and processes. Masters of photography may be studied. Large photo printing may be taught.

Visual and Performing Arts Courses

Course Name: Film Photography 4 **Code: 05167G5.0044**

Credit: 5 per semester **Fee: \$35**

1 Semester **Grades: 10, 11, or 12** **Prerequisites:** Photography 3

This fourth level course will build upon experiences of level 3 to expand darkroom and photo taking skills and increase the confidence of the students as photographers. Students may be given opportunities to work with medium format, sepia toning, hand coloring, multiple images, special films, digital images, specialty lenses, filters and other photo techniques and processes. Masters of photography may be studied. Some instruction may be given on an individual basis with the student's particular career goals or artistic vision in mind.

Course Name: Digital Art & Design 1 **Code: 05169G5.0013**

Weighted Credit: 5 per semester **Fee: \$35**

1 Semester

This introductory course deals with controlling computer technology to produce an artistic image. Students will learn computer illustration techniques, image manipulation, digital camera use, graphic design, 3D modeling, motion graphics, video & audio editing, art history, visual literacy and the principles and elements of art in composition.

Course Name: Digital Art & Design 2 **Code: 05169G5.0023**

Weighted Credit: 5 per semester **Fee: \$35**

1 Semester **Prerequisites:** Digital Art & Design 1

This course extends the fundamental concepts and skills of Digital Art and Design 1 of using computer technology to produce an artistic image. Students will further advance their computer illustration techniques, image manipulation, Blog design, digital camera use, graphic design knowledge, 3D modeling, motion graphics, video & audio editing, art history concepts, visual literacy and the principles and elements of art in composition.

Course Name: Digital Art & Design 3 **Code: 05169G5.0033**

Weighted Credit: 5 per semester **Fee: 35**

1 Semester **Grades: 10 11 or 12** **Prerequisites:** Digital Art & Design 2

This course will be the natural progression of Digital Art and Design 1 & 2 as it continues the fundamental idea of using computer technology to produce an artistic image. Students will further advance their computer illustration techniques, image manipulation, digital camera use, and graphic design knowledge, 3D modeling, motion graphics, video & audio editing, art history concepts, visual literacy and the principles and elements of art in composition.

Course Name: Portfolio Arts 1 **Code: 05170G5.0014**

Credit: 5 per semester **Fee: \$35**

1 Semester **Grades: 11 or 12** **Prerequisites:** Digital Art & Design 3

This course is imperative for the student who is preparing a portfolio of art for entrance into college or art school. Guidance and instruction on portfolio building will be given with the individual's goals in mind. Students will be expected to initiate and carry out ideas on a more independent basis, and they will choose their own materials. This course may be taken for up to four semesters, not necessarily sequential, for credit. This course requires teacher approval.

Visual and Performing Arts Courses

Course Name: Portfolio Arts 2

Code: 05170G5.0024

Credit: 5 per semester

Fee: \$35

1 Semester

Grades: 11 or 12

Prerequisites: Portfolio 1

This second level course is imperative for the student who is preparing a portfolio of art for entrance into college or art school. Guidance and instruction on portfolio building will be given with the individual's goals in mind. Students will be expected to initiate and carry out ideas on a more independent basis, and they will choose their own materials.

Course Name: Portfolio Arts 3

Code: 05170G5.0034

Credit: 5 per semester

Fee: \$35

1 Semester

Grades: 12

Prerequisites: Portfolio 2

This third level course is imperative for the student who is preparing an advanced portfolio of art for entrance into college or art school. Guidance and instruction on portfolio building/improving will be given with the individual's goals in mind. Students will be expected to initiate and carry out ideas on a more independent basis, and they will choose their own materials.

Course Name: Portfolio Arts 4

Code: 05170G5.0044

Credit: 5 per semester

Fee: \$35

1 Semester

Grades: 12

Prerequisites: Portfolio 3

This fourth level course is imperative for the student who is preparing an advanced portfolio of art for entrance into college or art school. Guidance and instruction on portfolio building/improving will be given with the individual's goals in mind. Students will be expected to initiate and carry out ideas on a more independent basis, and they will choose their own materials.

Course Name: WBL: DIGI MEDIA & COMMS

Code: 11998G5.0022

Credit: 5 per semester

1 Semester

Prerequisites: Digital Art and Design 3

Students build on prior knowledge and skills in the program of study to further develop and apply employability and technical skills that prepare them for success in future career and postsecondary education.

Course Name: Unified Art

Code: 05189G5.0012

Credit: 5 per semester

1 Semester

This course is designed for students with special physical needs. The programs are adaptive in nature and very individualized so that the students can work on their specific needs. Students will increase their skill level in their areas of interest, along with participation in various types of conditioning activities. This course also provides students with the opportunity to participate in modified activities in an environmental education class. This semester course may be repeated as desired or recommended. Mentor students are also able to register. *A Mentor Application will be required prior to the start of the class.*

Physical, Health and Safety Education Courses

Course Name: Wellness in Action

Code: 08005G5.0046

Credit: 5 per semester

1 Semester

This is the fundamental course for all freshmen, giving them a foundation of knowledge and experience to go forth and make good decisions regarding their wellness. Students will be guided toward looking at their overall wellness (body, mind, and soul) and how to achieve balance within the daily tasks of life. We will emphasize how regular fitness activities are critical to maintaining wellness, and will instruct students on basic training concepts, help them develop good fitness habits, culminating with each student creating and implementing their own fitness plan. Students will be encouraged to explore new fitness activities, expanding their options beyond activities they have done in their youth. Students may take this course second semester and have a different physical education class first semester.

Course Name: Unified PE

Code: 08001G5.0011

Credit: 5 per semester

1 Semester

This course is designed for students with special physical needs. The programs are adaptive in nature and very individualized so that the students can work on their specific needs. Students will increase their skill level in their areas of interest, along with participation in various types of conditioning activities. This course also provides students with the opportunity to participate in modified activities in an environmental education class. This semester course may be repeated as desired or recommended. Mentor students are also able to register. *A Mentor Application will be required prior to the start of the class.*

Course Name: Team Sports

Code: 08002G5.0011

Credit: 5 per semester

Fee: \$40

1 Semester

The primary goal of this course is to assist students in developing fundamental skills in various team sports. Students will also learn the history of the sport, rules, etiquette, scoring, strategies, and develop fitness needed for success. Sport areas may include: cricket, lacrosse, ultimate Frisbee, handball, flag football, volleyball, baseball, softball, speedball, soccer, floor hockey, track and field, basketball and team handball.

Course Name: Aerobic Walking

Code: 08005G5.0016

Credit: 5 per semester

1 Semester

This course is designed for students to have the opportunity to improve their aerobic fitness, primarily through walking. The speed and distance walks are individualized to meet the student's ability, with an emphasis toward significant, personal improvement. Students will learn about the process of getting fit, with an emphasis on correct walking form, and all the many benefits of walking as a lifelong activity.

Course Name: Yoga

Code: 08005G5.0066

Credit: 5 per semester

1 Semester

Students will be introduced to many components of yoga including; postures, use of the breath, the flow of postures linked with breath, alignment, and safety. The experience will allow for a progression of growth in each student's ability to do the poses -correctly, safely, more deeply, and longer. Students will be able to

Physical, Health and Safety Education Courses

incorporate a mind/body connection as they also will feel gain in focus, relaxation, self-confidence, and overall improved awareness of their own body and its health.

Course Name: Weight Training 1**Code: 08009G5.0012****Credit: 5 per semester****1 Semester**

The goal of Weight Training 1 is to provide a knowledge base and practical experience in physical fitness and weight training. Weight training 1 provides a baseline of knowledge for strength training that incorporates the components of fitness and strength training principles.

Course Name: Basketball 1**Code: 08013G5.0019****Credit: 5 per semester****1 Semester**

The goal of Basketball 1 is to provide a knowledge base and practical experience in playing basketball. Basketball 1 provides a foundation upon which each person can develop fundamental skills to participate leisurely or competitively in the team sport.

Course Name: Basketball 2**Code: 08013G5.0029****Credit: 5 per semester****1 Semester**

The goal of Basketball 2 is to go beyond Basketball 1 providing an advanced knowledge base and competitive experience in lifelong activity. Basketball 2 develops a high level of fitness and builds on the foundation upon which each person can develop skills to participate competitively at a high level.

Course Name: Racquet Sports**Code: 08013G5.0059****Credit: 5 per semester****1 Semester**

The class will include outdoor (tennis) and indoor (badminton, pickle-ball, Ping-Pong) racquet sports. Students will appreciate developing the distinct skills involved in each sport, along with having plenty of opportunity to apply it within game situations as they learn the rules, scoring and etiquette for each sport. This class is an excellent foundation for continuing these activities as lifelong fitness and leisure pursuits.

Course Name: Volleyball 1**Code: 08013G5.0089****Credit: 5 per semester****1 Semester**

Specific Sports Activities courses help students develop knowledge, experience, and skills in a single sport or activity (such as basketball, volleyball, football, baseball, hockey, wrestling, soccer, track and field, and equestrian events) other than those coded within this section. (Dance is included under the Fine and Performing Arts subject area.)

Course Name: Golf**Code: 08013G5.0049****Credit: 5 per semester****1 Semester**

The golf class will introduce students to the basic swing techniques of various clubs; wood, iron, wedge, and putter. Students will have the opportunity to practice these swings both at school, and at a golf course. Time

Physical, Health and Safety Education Courses

will also be spent on instruction related to rules, etiquette, course, management, and what to expect when they go play at a public course. Other recreational games may also be added to this course. Other recreational games may also be added to this course, such as: horseshoes, floor hockey, ultimate Frisbee, etc.

Course Name: Fitness

Code: 08016G5.0022

Credit: 5 per semester

1 Semester

This course will use a comprehensive approach to address all five components of fitness. It will be an opportunity for each person to learn a great deal about fitness and experience personal improvement through a deliberate and challenging progression. Variety will be the key with a broad amount of equipment (bands, dumbbells, fit balls, spin bikes, etc.) and formats (circuits, music, dance, yoga, hiking, fun competitions, etc.).

Course Name: Issues in Health

Code: 08079G5.0011

Credit: 5 per semester

1 Semester

Health Education in tenth grade is based on developing skills in relation to age appropriate health topics. By developing skills related to effectively accessing health resources, communicating, analyzing peer and media influences, goal setting, decision making, and health advocacy, students in BVSD will be able to achieve and maintain optimal wellness.

Course Name: Teen Choices

Code: 08099G5.0011

Credit: 5 per semester

1 Semester

In this course, you will learn how to make healthy decisions throughout your teen years. You will learn skills and practices required by individuals to develop, manage and strengthen: social, psychological, and physical wellness, interpersonal relationships, safe sexual decision making, anti-substance use practices, and understanding teens and the law. BVSD Health Curriculum topics will be covered. This course must be taken in the same year as Culinary Nutrition.

Course Name: Interpersonal Relationships

Code: 19259G5.0011

Credit: 5 per semester

1 Semester

The purpose of the course is to acquire academic knowledge and understanding for healthy, respectful, and caring relationships across the life span. Emphasis is placed on family and friendly dynamics, effective communication, and healthy interpersonal relationships. Membership in the Student Organization FCCLA is an integral part of this program.

Course Name: PLTW: PRIN of BIOMED SCI I

Code: 03066G5.0012

Weighted Credit: 5 per semester

1 Semesters

Following Project Lead the Ways suggested curriculum, PLTW Principles of Biomedical Science courses focus on a case study in which students investigate the cause of death of a fictional person. Students conduct research, in which they examine autopsy reports, review medical history, and study human physiology, biology, and medicine to diagnose and recommend treatments that could have been applied. *This course is taken in the same year as PLTW: PRIN of BIOMED SCI II.*

Course Name: PLTW: Human Body Sys I

Code: 03067E5.0012

Weighted Credit: 5 per semester

1 Semesters

Prerequisites: PLTW Prin of Biomed Sci I and II

Following Project Lead the Ways suggested curriculum, PLTW Human Body Systems courses are designed for students to assume the role of biomedical professionals to solve real-world medical cases and experience science in action. In these courses, students study the interactions of systems within the human body by building organs and tissues on a skeletal manikin and use data acquisition software to monitor bodily functions. Course content also includes the exploration of identity, power, movement, protection, and homeostasis. *This course is taken in the same year as PLTW: Human Body Sys II.*

Information Technology Courses

Course Name: Coding 1

Code: 10152G.0014

Weighted Credit: 5 per semester

Coding I is a course intended to teach students the basics of computer programming. The course places emphasis on practicing standard programming techniques and learning the logic tools and methods typically used by programmers to create simple computer applications. Upon completion of this course, proficient students will be able to solve problems by planning multi step procedures; write, analyze, review, and revise programs, converting detailed information from workflow charts and diagrams into coded instructions in a computer language; and will be able to troubleshoot/debug programs and software applications to correct malfunctions and ensure their proper execution. Membership in the Student Organizations of SkillsUSA or TSA is an integral part of this program.

Course Name: AP Computer Science Principles

Code: 10019H5.0012

Weighted Credit: 5 per semester

1 Semester

AP Computer Science Principles is a college-level introduction to Computer Science topics and the art of computer programming. Students explore a variety of Computer Science topics and learn to develop programs in Python. Students can earn college credit through concurrent enrollment with Front Range Community College and/or by earning a qualifying score on the end of year exam. Students can also prepare and take a Python industry certification. *This course is taken in the same year as Intro to Programming: Python.*

Course Name: Introduction to Programming: Python

Code: CSC 1019

Weighted Credit: 5 per semester

1 Semester

Focuses on a general introduction to computer programming. This course emphasizes the design and implementation of structured and logically correct programs with good documentation. It is centered on basic programming concepts, including control structures, modularization, and data processing. A structured programming language is used to implement program designs. It emphasizes the writing of multiple programs following the software development process, from start to finish, including design, implementation, and testing. *This course is taken in the same year as AP Computer Science Principles.*

Course Name: AP Computer Science A

Code: 10157H5.0012

Weighted Credit: 5 per semester

1 Semester

Grades: 10, 11 or 12

Prerequisite: AP Computer Science or teacher approval

AP Computer Science A is a college-level introduction to Object-Oriented Programming and the Java programming language. Students explore a variety of topics through hands-on projects that help them explore the skills they are learning. Students can earn college credit through concurrent enrollment with Front Range Community College and/or by earning a qualifying score on the end of year exam. At the end of the course, students can prepare for Oracle's Java Certified Foundations Associate. *This course is taken in the same year as Intro to Java Programming.*

Course Name: Computer Science I: Language

Code: CSC 1060

Weighted Credit: 5 per semester

1 Semester

Introduces computer science and programming, focusing on algorithm development, data representation, logical expressions, sub-programs, and input/output (IO) operations through a high-level programming

Information Technology Courses

language. Includes intensive hands-on computer work to reinforce understanding and apply these concepts. *This course is taken in the same year as AP Computer Science A.*

Course Name: Computer Science II: JAVA

Code: CSC 1061

Weighted Credit: 5 per semester

1 Semester

Grades: 10, 11 or 12

Prerequisites: Cybersecurity I

Applies object-oriented methodology through a high-level programming language, expanding upon algorithm development and problem-solving techniques introduced in Computer Science I. The emphasis is on practical experience in data structures and the design and implementation of substantial software projects. *This course is taken in the same year as Career Capstone: Computer & Digital Technology.*

Course Name: Career Capstone: Computer & Digital Technology

Code: 10098G5.0022

Weighted Credit: 5 per semester

1 Semester

Grades: 11 or 12

Prerequisite: AP Computer Science A or teacher approval

Career Capstone is a course for students who have successfully completed AP Computer Science A and are ready to engage in long-term projects to professionalize their skills. The Fall starts off with an intensive study of common data structures, algorithms, and software design patterns. In the Spring, students collaboratively develop a software solution for a group of stakeholders using a human-centered design process and Agile/Scrum project management methodologies. They also will prepare for an industry certification of their choosing and build their personal brand by developing a resume and online presence. *This course is taken in the same year as CSC 1061.*

Course Name: AP Cyber Security

Code:

Weighted Credit: 5 per semester

1 Semester

AP Cyber: Security complements the secure networking skills from AP Cyber: Networking. Students learn concepts and skills necessary to secure data and networks, identify and mitigate common security threats, and strengthen the security posture of an organization. The course uses College Board's Career Kickstart curriculum, which is built to engage and support students with all levels of experience in computing. After this course, students are well-prepared to continue preparing for the CompTIA Security+ certification.

Course Name: Principles of Information Assurance

Code: CNG 1031

Weighted Credit: 5 per semester

1 Semester

Provides skills and knowledge required to survey key issues associated with protecting information assets, determine the levels of protection and response to security incidents, and design a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. Students learn to inspect and protect information assets, detect and react to threats to information assets, and examine pre- and post-incident procedures, and technical and managerial responses. Students learn about information security planning and staffing functions. *This course is taken in the same year as AP Cyber Security*

Course Name: Work Based Learning: Computer & Digital Technology

Code: 10098G5.0012

Weighted Credit: 5 per semester

1 Semester

The Coyote Tech Squad is Monarch HS's in-house Chromebook repair team. Students learn troubleshooting and repair techniques for common issues. Throughout the semester each student works one to two weekly

Information Technology Courses

shifts during class time where they resolve fellow students' Chromebook issues. When students are not working a shift, they prepare for industry certifications including CompTIA IT Fundamentals+ and Google Certified IT Professional, among others.

As students repeat the course, they pursue additional certifications and receive promotions in their job title and responsibilities.

Business and Marketing Courses

Course Name: HSB Principles of Business

Code: HSB910G5.0012

Weighted Credit: 5 per semester

1 Semester

This project-based business course develops student understanding and skills in such areas as business law, economics, financial analysis, human resources management, information management, marketing, operations, and strategic management. Students acquire an understanding and appreciation of the business world as well as expanding their understanding that businesses are influenced by external factors that are often beyond their control. Consumer spending, government policies, economic conditions, legal issues, and global competition are addressed through practice, current applications to everyday society and business life. Membership in the Student Business Organization, FBLA, is an integral part of the Business program.

This course is taken in the same year as HSB Business of Economics

Course Name: HSB Business of Economics

Code: HSB910G5.0022

Weighted Credit: 5 per semester

1 Semester

This project-based business course develops student understanding and skills in such areas as economics, entrepreneurship, operations, and professional development. Through the use of seven projects, students acquire an understanding and appreciation of economic decision making in the business world as well as augmenting their knowledge of entrepreneurial contributions. Current technology will be used to acquire information and to complete the projects. Throughout the course, students are presented problem-solving situations for which they must apply academic and critical-thinking skills. *This course is taken in the same year as Introduction to Business.*

Course Name: HSB Principles of Marketing

Code: HSB1011G5.12/22

Weighted Credit: 5 per semester

2 Semesters

Grade: 10 or 11

Prerequisites: Principles of Business & Business of Econ

Presents the analysis of theoretical marketing processes and the strategies of product development, pricing, promotion and distribution, and their applications to businesses and the individual consumer. Membership in the student marketing organization, DECA, is an integral part of the Marketing program.

Course Name: HSB Principles of Finance

Code: HSB1112G5.11

Weighted Credit: 5 per semester

1 Semester

Grades: 11 or 12

Prerequisites: HSB Prin of Mark

A project-based business course that develops student understanding and skills in the functional areas of marketing: channel management, marketing-information management, market planning, pricing, product/service management, promotion, and selling. Students acquire an understanding and appreciation of each of the marketing functions and their ethical and legal issues. Decision matrices are employed to aid in market planning. Membership in the student marketing organization, DECA, is an integral part of the Marketing program.

Course Name: Sports Marketing

Code: 12163G5.0022

Weighted Credit: 5 per semester

1 Semester

Grades: 11 or 12

Prerequisites: HSB Prin of Mark

Sports and Entertainment Marketing courses provide students with a thorough understanding of fundamental marketing and management concepts and theories as they relate to the sports and entertainment industries. Content may address promotion of sports/events, licensing, sponsorship and endorsements, branding,

Business and Marketing Courses

marketing research, product development, pricing and distribution strategies, sales, event planning, and the role of existing and emerging technologies. These courses may also encourage students to develop job skills and explore career options.

Course Name: HSB Principles of Management**Code: HSB12G5.12****Weighted Credit: 5 per semester****1 Semester****Grade: 12****Prerequisites:** HSB Prin of Mark &/or HSB Prin of Finance

Provides an overview of the principles of management. Emphasis is on the primary functions of planning, organizing, staffing, leading and controlling with a balance between the behavioral and operational approaches. *This course is taken in the same year as HSB Business Strategies.*

Course Name: HSB Business Strategies**Code: HSB12G5.0022****Weighted Credit: 5 per semester****1 Semester****Grade: 12****Prerequisites:** HSB Prin of Management

Business Strategies, which is the capstone course for the High School of Business™ program, develops student understanding and skills in such areas as business law, entrepreneurship, financial analysis, human resources management, and strategic management. By planning, organizing, staffing, directing, leading, and controlling business activities, students acquire a realistic understanding of what is required to open and successfully run a business. They conduct situational, market, and competitive analyses; select a target market; develop a business plan; recruit, interview, select, and hire staff; supervise staff; control use of resources; and evaluate the results of the business effort. Throughout the course, students make decisions and use problem-solving skills. Formal reflection is an on-going component of the course. Membership in the Student Business Organization, FBLA, is an integral part of the Business program. *This course is taken in the same year as Principles of Management.*

Course Name: Internship (HSB)**Code: BUS 2081****Weighted Credit: 5 per semester****1 Semester****Grades: 12****Prerequisites:** HSB Prin of Manage & HSB Bus Strat

Provides continued instruction and the opportunity for students to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

Course Name: Personal Finance**Code: 19262E5.011****Weighted Credit: 5 per semester****1 Semester****Grades: 11 or 12****Prerequisites:** HSB Prin of Mark

Consumer Economics/Personal Finance courses provide students with an understanding of the concepts and principles involved in managing one's personal finances. These courses emphasize lifespan goal-setting, individual and family decision making, and consumer rights as well as topics that are commonly associated with personal finance so that one can become a financially responsible consumer. Topics may include savings and investing, credit, insurance, taxes and social security, spending patterns and budget planning, contracts, and consumer protection. These courses may also investigate the effects of the global economy on consumers and the family.

Business and Marketing Courses

Course Name: Entrepreneurial Operations

Code: 12001G5.0012

Weighted Credit: 5 per semester

1 Semester

Grade: 11 or 12

Business/Office Career Exploration courses expose students to the occupational opportunities available in business including, but not limited to, general business, business information management, human resources management, operations management, administrative support, accounting, and marketing fields. Emphasis is placed on responsibilities, qualifications, work environments, and career paths. These courses may also include consumer education topics, keyboard exposure, and/or hands-on experience within the various occupational areas. *This course is taken in the same year as Strategic Marketing.*

Course Name: Strategic Marketing

Code: 12152G5.0011

Weighted Credit: 5 per semester

1 Semester

Grade: 11 or 12

Illustrates the connections between a market-driven strategy, customer satisfaction, and profitable growth. Students will examine how marketing strategies are developed and executed within both small and large organizations. The course will emphasize strategy development, implementation, and evaluation. Membership in the student marketing organization, DECA, is an integral part of the Marketing program. *This course is taken in the same year as Entrepreneurial Operations.*

Course Name: Rec and Sports Marketing

Code: ROE333

Weighted Credit: 5 per semester

1 Semester

Grade: 11, or 12

A survey of recreation and sport marketing topics: buyer behavior, segmentation, positioning, demand analysis, information and research, pricing, promotion, channels, 'product' policies, destinations, sponsorship, endorsement, merchandising, and fundraising. This course is offered for Concurrent Enrollment through Western Colorado University. *This course is taken in the same year as Principles of Advertising.*

Course Name: Principles of Advertising

Code: 12165G5.0011

Weighted Credit: 5 per semester

1 Semester

Principles of Advertising courses expose students to the varied concepts underlying the promotion of products. The topics included in Principles of Advertising courses range considerably, but typically include the psychology of advertising, a study of various media, advertising planning and budgeting, and advertising layout and design principles. Course topics may also include an overview of commercial art and packaging. *This course is taken in the same year as ROE333.*

Course Name: Legal Environment of Business

Code: 12054G5.0011

Weighted Credit: 5 per semester

1 Semester

Grade: 10, 11 or 12

What can a business be sued for? What states can a business be sued in? What steps can a business or individual take to avoid that? These are the fundamental questions underlying the course's exploration of court procedures, contracts, property issues, torts/negligence, copyright, loans, and more. This course takes a hands-on approach to learning the material by introducing students to real world problems and practical solutions for individuals, as well as corporate entities.

World Language Courses

Course Name: Spanish 1

Code: 24052G5.0012/22

Credit: 5 per semester

Fee: \$5

2 Semesters

Grades: 9 or 10

Designed to introduce students to Spanish language and culture, Spanish I courses prepare students to communicate authentically in Spanish by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information on a variety of topics. They introduce the relationships among the products, practices, and perspectives of Spanish-speaking cultures.

Course Name: Spanish 2

Code: 24053G5.0012/22

Credit: 5 per semester

Fee: \$5

2 Semesters

Prerequisites: Spanish 1

Spanish II courses build upon skills developed in Spanish I, preparing students to communicate authentically in Spanish by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information on concrete topics. Spanish II courses introduce the relationships among the products, practices, and perspectives of Spanish-speaking cultures.

Course Name: Spanish 3

Code: 24054G5.0012/22

Credit: 5 per semester

Fee: \$15

2 Semesters

Grades: 10, 11 or 12

Prerequisites: Spanish 2

Level 3 reviews basic grammatical structures and continues the study of more advanced grammar, vocabulary, and culture. Students further develop skills in understanding reading, speaking, and writing through short stories, poetry, articles, oral presentations, and written exercises when applicable. For the Novice-High Range Level, students learn in oral and written form to participate in and comprehend exchanges and present on a variety of topics using familiar vocabulary and learned grammatical structures in the context of Culture, Connections, and Comparisons.

Course Name: Spanish 4

Code: 24055E5.0012/22

Weighted Credit: 5 per semester

Fee: \$15

2 Semesters

Grades: 11 or 12

Level 4 explores topics in advanced composition and conversation, with an emphasis on refining and integrating advanced grammar into formal and informal communication. Students develop appropriate language skills required to communicate at a more advanced level. For the Intermediate-Low Range Level, students learn to initiate, sustain and conclude conversations; comprehend spoken or written language; and present on a variety of familiar topics, all using familiar vocabulary and learned grammatical structures in the context of Culture, Connections, and Comparisons.

Course Name: Spanish Conversation and Composition

Code: 24061E5.0012/22

Weighted Credit: 5 per semester

Fee: \$15

2 Semesters

Grades: 11 or 12

Prerequisites: Spanish 4

Conversation and Composition is taught exclusively in Spanish. It explores topics in advanced composition and conversation, with an emphasis on refining and integrating advanced grammar into daily communication. Emphasis is placed on comprehension as it is spoken and written by native speakers. Students develop appropriate verbs, structures, vocabulary, idioms, and cultural understanding necessary to perform communicative functions at higher levels. For the Intermediate-Mid Range Level, students learn to initiate, sustain and conclude conversations; comprehend spoken or written language; and present on a variety of

World Language Courses

familiar topics, all using familiar vocabulary and learned grammatical structures in the context of Culture, Connections, and Comparisons.

Course Name: AP Spanish Language & Culture**Code: 24064H5.0012/22****Weighted Credit: 5 per semester****Fee: \$40****2 Semesters****Grades: 11 or 12****Prerequisites:** Spanish 4

Designed by the College Board to parallel third-year college-level courses in Spanish language, AP Spanish Language and Culture courses build upon prior knowledge and develop students' ability to express ideas, exchange opinions, and present information in Spanish, both orally and in writing. These courses also help students understand and interpret written and spoken Spanish. In addition, students explore the culture of Spanish-speaking people in historical and contemporary contexts.

Course Name: French 1**Code: 24102G5.0012/22****Credit: 5 per semester****Fee: \$5****2 Semesters****Grades: 9 or 10**

Designed to introduce students to French language and culture, French I courses prepare students to communicate authentically in French by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information on a variety of topics. They introduce the relationships among the products, practices, and perspectives of French-speaking cultures.

Course Name: French 2**Code: 24103G5.0012/22****Credit: 5 per semester****Fee: \$5****2 Semesters****Prerequisites:** French 1

French II courses build upon skills developed in French I, preparing students to communicate authentically in French by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information on concrete topics. French II courses introduce the relationships among the products, practices, and perspectives of French-speaking cultures.

Course Name: French 3**Code: 24104G5.0012/22****Credit: 5 per semester****Fee: \$15****2 Semesters****Grades: 10, 11 or 12****Prerequisites:** French 2

French III courses prepare students to communicate authentically in French by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information, concepts, and ideas on a variety of topics, including connections to other subject areas. These courses expand students' knowledge of relationships among the products, practices, and perspectives of French-speaking countries and cultures.

Course Name: ADV French 4**Code: 24105E5.0012/22****Weighted Credit: 5 per semester****Fee: \$15****2 Semesters****Grades: 11 or 12****Prerequisites:** French 3

This course, taught exclusively in French, explores the IB core topics of Social Relations, Communication and Media and Global Themes by intensive practice in advanced composition and conversation, with an emphasis on refining and integrating advanced grammar into daily communication. Emphasis will be placed on comprehension of authentic text genres and visual thematic images and the ability to respond appropriately in varying registers both in writing and orally. Students will develop verb usage, grammatical structures,

World Language Courses

vocabulary, idioms and cultural understanding necessary to communicate in a global society at an advanced level.

Grades: 10, 11 or 12

Prerequisites: German 2

German III courses prepare students to communicate authentically in German by interpreting (reading, listening, viewing), exchanging (speaking and listening; reading and writing), and presenting (speaking, writing) information, concepts, and ideas on a variety of topics, including connections to other subject areas. These courses expand students' knowledge of relationships among the products, practices, and perspectives of German-speaking countries and cultures.

Course Name: ADV German 3

Code: 24254E5.0012/22

Weighted Credit: 5 per semester

Fee: \$15

2 Semesters

Grades: 10, 11 or 12

Prerequisites: German 2

The German 3 Advanced / Pre-AP course provides students with in-depth prerequisite knowledge that articulates with the current AP German curriculum. Students will become well versed in the AP course framework of six overarching modern themes (Global Challenges; Science and Technology; Beauty and Aesthetics; Families and Communities; Personal and Public Identities; and Contemporary Life), gain a deeper understanding of European/global perspectives, and work toward mastering the more complex aspects of the

World Language Courses

German language. Students will practice identifying main points, significant details, purpose, and intended audience for a variety of authentic graphs, texts and audio/video materials and making inferences and predictions based on them. They will write spontaneous interpersonal messages and polished presentational essays, and will practice conversational and presentational speaking skills. As an advanced course, this course goes beyond the curriculum expectations of a standard level 3 German course offering by increasing the depth and complexity, and it is intended to prepare a student to enroll in Advanced Placement German the following year. *This course is taken in the same year as German III.*

Course Name: German III

Code: GER2011

Family and Consumer Sciences

Course Name: Culinary Nutrition

Code: 16054G5.0011

Weighted Credit: 5 per semester

Fee: \$50

1 Semester

Grades: 9 or 10

The purpose of this course is to develop lifelong, healthy individuals with an understanding of healthy and nutritious preparation techniques utilizing various resources and skills. Emphasis is placed on implementing healthy nutritional choices, preparing nutrient-dense seasonal foods, sports nutrition, exploring careers related to culinary nutrition, and practicing wise consumerism. Membership in the Student Organization FCCLA is an integral part of this program. *This course must be taken in the same year as Teen Choices.*

Course Name: Culinary Essentials I

Code: 10653G5.0012

Credit: 5 per semester

Fee: \$60 per semester

1 Semesters

This course is designed to introduce students to a variety of culinary skills and food preparation. Through instruction and culinary lab practice, this class will provide an opportunity for students to learn food preparation and demonstrate food safety. Some topics include introductory culinary skills and preparation of items such as quick breads, yeast breads, and eggs; as well as meal and menu planning, nutrition, and food borne illnesses. Students will be able to: Demonstrate the correct procedures' and techniques in introductory culinary labs. Analyze nutritional guidelines and plan menus that are nutritionally balanced. Demonstrate food safety standards.

Course Name: Culinary Essentials II

Code: 16053G5.0044

Fee: \$60 per semester

2 Semesters

Second semester of Culinary Essentials I.

Course Name: Adv Culinary Experience

Code: 16053E5.0012/22

Credit: 5 per semester

Fee: \$60 per semester

2 Semesters

The purpose of this course is to provide students with a deeper experience and understanding of the Food Service industry. This two semester course builds on the basic culinary skills acquired during Culinary Essentials 1 & 2. Students will continue to participate in hands-on lab experiences with a focus on advanced culinary techniques, baking and pastry, and nutrition fundamentals as they apply to menu development and food service applications. Additional topics include industry specific workforce skill development, career options and post secondary pathways, resume and portfolio building, entrepreneurial concepts in culinary industry, and kitchen & restaurant management. Students will be required to participate in an approved and documented content related work based learning experience each semester, as well as complete the ServSafe Food Handler Certification.

Course Name: Life Management

Code: 19257G5.0011

Weighted Credit: 5 per semester

Fee: \$25

1 Semester

Grades: 11 or 12

The purpose of this course is to develop empowered individuals to help you sharpen your focus on your own life. It is to help you gain a clear picture of who you are, how you got that way, and most importantly, to help you make wise choices in your life. Topics include: relationships, communication, healthy lifestyle, food and

Family and Consumer Sciences

nutrition, and preparing for life after high school. Membership in the Student Organization FCCLA is an integral part of this program. *This course must be taken in the same year as Interpersonal Relationships.*

Engineering

Course Name: Introduction to Engineering Design

Code: 21006G5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Introduction to Engineering Design is a fundamental course in the Engineering and Technology Program of Study for students interested in developing their skills in preparation for careers in engineering and technology. The course covers essential knowledge, skills, and concepts required for postsecondary engineering and technology fields of study. Upon completion of this course, proficient students are able to describe various engineering disciplines, as well as admissions requirements for postsecondary engineering and engineering technology programs in Colorado. They will also be able to identify simple and complex machines, calculate various ratios related to mechanisms, explain fundamental concepts related to energy, understand Ohm's Law, follow the steps in the engineering design process to complete a team project, and effectively communicate design solutions to others. Membership in the Student Organization TSA is an integral part of this program.

Course Name: Principles of Engineering

Code: 21004E5.0012/22

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 10, 11 or 12

Prerequisites: Intro to Engineering

Principles of Engineering courses provide students with an understanding of the engineering/technology field. Students typically explore how engineers use various technology systems and manufacturing processes to solve problems; they may also gain an appreciation of the social and political consequences of technological change.

Course Name: Car Cstone: Engineering

Code: 21048E5.0022

Weighted Credit: 5 per semester

Fee: \$30

2 Semesters

Grades: 11 or 12

Prerequisites: Principles of Engineering

The High School Career Capstone Experience is a comprehensive course designed to provide students with the opportunity to integrate and apply knowledge and skills acquired throughout a program of study aligned to an industry career cluster. This course encompasses work-based learning, project-based learning, passion projects, and coursework to prepare students for success in their chosen career pathways.

Miscellaneous Elective Courses

Course Name: Wilderness First Aid

Code: OUT 2043

Weighted Credit: 5 per semester

Fee: \$25

1 Semester

Grades: 10, 11 or 12

This course within the Outdoor Leadership Pathway is an introduction to wilderness medicine and basic life support skills. The course teaches students the skills to anticipate risks and hazards, identify medical, traumatic, environmental health problems, recognize life-threatening issues, initiate basic first aid care and CPR, make evacuation decisions and deliver a cohesive report. Students will also spend a smaller portion of the semester learning some basic outdoor skills such as backcountry trip planning, prep and packing, risk mitigation, knot tying, leave no trace principles and more. This hands-on curriculum forces students to think creatively, adapt to ever changing situations, and learn valuable leadership, decision making, and communication skills. Students in this class will hear from industry guest speakers and be eligible to receive 1 free college credit and Wilderness First Aid and CPR+AED certifications for a \$90 additional fee (financial assistance available)

Course Name: Criminal Law

Code: 15057G5.0022

Credit: 5 per semester

1 Semester

Grades: 11 or 12

This course will focus on Criminal Law emphasizing the understanding of what a criminal law is, how it is enacted, how crime is studied by social scientists and how crime is explained. The students will gain an understanding of the elements of crimes, what the elements mean and what these elements reveal about human nature. This course will walk students through cases around crimes against person, robbery and burglary, narcotic and alcohol offenses, domestic violence offenses, sex crimes, disorderly conduct and sentencing and punishment.

Course Name: Academic Assistant

Code: 22051G5.0011

Credit: 5 per semester

1 Semester

This elective provides the opportunity for students to support a teacher at Monarch K-8, working with students of differing age levels. Students will have one teacher mentor and assist in the classroom for the semester.

Course Name: Academic Peer Instructor

Code: 22054G5.0011

Credit: 5 per semester

1 Semester

This elective course would afford ninth - twelfth grade students the opportunity to mentor students with disabilities during the school day for one course period daily. It would also provide course content through regular meetings in the following areas: diversity awareness relevant to disabilities, knowledge of disability categories, information regarding modifications and accommodations, typical learning styles and skills development, universal design, inclusive practices, accessibility issues, and special education policies and procedures.

Course Name: Leadership (Peer Ambassadors)

Code: 22101G5.0011

Credit: 5 per semester

1 Semester

Peer Ambassadors help new students transition to Monarch and connect to the school community. Ambassadors help with special events such as new student orientation, college fairs, student and family

Miscellaneous Elective Courses

individual tours and open enrolment night. This course can be taken during the school day or as an extracurricular activity.

Course Name: Career Internship

Code: 22998G5.0011

Credit: 5 per semester

1 Semester

Workplace Experience courses provide students with work experience in a field related to their interests. Goals are typically set cooperatively by the student, teacher, and employer (although students are not necessarily paid). These courses may include classroom activities as well, involving further study of the field or discussion regarding experiences that students encounter in the workplace. Note: Students must find their own internship. This course is a way to also receive high school credit.

Course Name: On the Job Experience

Code: 22998G5.0012

Credit: 5 per semester

1 Semester

This work-based learning course allows students to earn credit by being employed in a part-time job and completing associated coursework and reflection that is aligned to a student's future career/educational goals.

Course Name: Office Assistant

Code: 22052G5.0011

Credit: 5 per semester

1 Semester

Office Aide courses provide students with the opportunity to work in campus offices, developing skills related to clerical office work. Duties may include typing, filing, record-keeping, receiving visitors, answering the telephone, and duplicating, among others. These courses emphasize appropriate work attitudes, human relations, and proper office procedures.

Course Name: Student Council

Code: 22103G5.0011

Credit: 5 per semester

2 Semesters

School Governance courses convene students as an entire student body to discuss common concerns, organize groups for action, make decisions, and solve school-related problems. Because of the nature of these courses, they are typically offered at private, alternative, or experimental schools.

Student Support Courses

The Student Support Courses at Monarch can not be elected by students or families, but will be assigned by administration for the appropriate need.

Course Name: Pre-Algebra Intervention

Code: 02051G5.0012/22

Credit: 5 per semester

2 Semesters

Pre-Algebra courses increase students' foundational mathematics skills and prepare them for Algebra I by covering a variety of topics, such as properties of rational numbers (i.e., number theory), ratio, proportion, estimation, exponents and radicals, the rectangular coordinate system, sets and logic, formulas, and solving first-degree equations and inequalities.

Course Name: Reading Wrkshp

Code: 01066G5.0011

Credit: 5 per semester

2 Semesters

Strategic Reading courses are intended to improve a student's vocabulary, critical-thinking and analysis skills, or reading rate and comprehension level. Although these courses typically emphasize works of fiction, they may also include works of nonfiction (including textbooks). Strategic Reading courses often have a time-management focus, offering strategies for note-taking or for understanding and evaluating the important points of a text.

Course Name: CLDE Application & Transition- Eng 9

Code: 09CLDEG5.0012/22

Credit: 5 per semester

2 Semesters

Students will develop speaking, listening, reading and writing skills in English that meet or exceed Can Do Descriptors for WIDA Proficiency Levels 1-6, Entering through Reaching. Students will also develop basic technology skills (email, Google apps, etc.) as well as a general understanding of the expectations and requirements of the U.S. high school system, and preparation for postsecondary education and career planning. This course will provide specific support for students within their first and second years of high school. Particular focus will be paid to assisting students to experience success throughout their high school career. Students work independently and as a class to explore the following themes: Identity and Belonging, Global Citizenship, School Success, and Post-Secondary Readiness.

Course Name: CLDE Application & Transition- Eng 10

Code: 10CLDEG5.0012/22

Credit: 5 per semester

2 Semesters

See class description above.

Course Name: CLDE Application & Transition- Eng 11

Code: 11CLDEG5.0012/22

Credit: 5 per semester

2 Semesters

See class description above.

Course Name: CLDE ASC

Code :ASCCLDG5.0011

Credit: 5 per semester

1 Semester

Students will communicate information, ideas, and concepts necessary for academic success in the content areas of Language Arts, Mathematics, Science, and Social Studies. The teacher will support students

Student Support Courses

individually and in small groups to develop the prerequisite content skills and language forms and functions necessary for graduation and beyond. Through direct language instruction, literacy and math interventions and self-paced learning, ASC will provide a supportive environment in which students will gain the essential skills necessary in support of grade level content area classes.

Course Name: AVID 9

Code: 22007G5.0018/28

Credit: 5 per semester

2 Semesters

AVID (Advancement Via Individual Determination) AVID is a college preparatory program that focuses on students who are academically proficient, yet need support in reaching and succeeding in advanced academic courses. AVID bridges student gaps in the skills, language, habits, and resources of the college-bound student. Additionally, students in AVID receive academic and motivational support. Other aspects of the program include: field trips to places of educational and cultural interest and tutoring by college students.

Course Name: AVID 10

Code: 22007G5.0038/48

Credit: 5 per semester

2 Semesters

See class description above.

Course Name: AVID 11

Code: 22007G5.0058/68

Credit: 5 per semester

2 Semesters

See class description above.

Course Name: AVID 12

Code: 22007G5.0078/88

Credit: 5 per semester

2 Semesters

See class description above.

Course Name: Advisory

Code: 22106G5.0011

Credit: 5 per semester

1 Semester

Seminar courses vary widely, but typically offer a small peer group the opportunity to investigate areas of interest. Course objectives may include improvement of research and investigatory skills, presentation skills, interpersonal skills, group process skills, and problem-solving and critical-thinking skills. Seminars aimed at juniors and seniors often include a college and career exploration and planning component.
