Grade Level	Intervention	For Use When	Diagnostic(s) to Use	Focus Area(s)	Recommended Resources
K-5	Eureka^2 Math Catalyst	Students require targeted intervention in early numeracy, computation, place value, and/or problem solving.	STAR Diagnostic Report + Catalyst Progress Check Tool	Early Numeracy Place Value Addition Subtraction Multiplication Division Fractions as Numbers	Implementation Guide Scope and Sequence
K-5	*Math in Practice*	Students need more concrete and representational models of math concepts or struggle to apply math concepts to problem solving.	STAR Diagnostic Report	Early Numeracy Place Value Computation/Fact Fluency Fractions as Numbers Problem Solving	Online Resources Register using your grade level keycode (listed below) K: **MIPGK** 3: **MIPG3** 1: **MIPG1** 4: **MIPG4** 2: **MIPG2** 5: **MIPG5**
K-6	Imagine Math	Students require additional targeted intervention in early numeracy, computation, place value, and/or problem solving.	STAR Diagnostic Report	Early Numeracy Place Value Computation Fractions as Numbers	
1-6	*Renaissance:* Nearpod *Teacher directed	Students struggle with learning basic facts in addition, subtraction, and multiplication.	STAR Diagnostic Report	Early Numeracy Place Value Computation/Fact Fluency Fractions Word Problems	Getting Started with Nearpod Nearpod Math Lesson Guide
1-6	Freckle Math: Targeted Practice *Teacher directed	Students require additional targeted intervention in early numeracy, computation, place value, and/or problem solving.	STAR Diagnostic Report	Early Numeracy Place Value Addition Subtraction Multiplication Division Fractions as Numbers	Freckle Implementation Ideas Freckle Math Practice Recommended Usage

**Accuracy and fluency should both be considered when determining where to begin interventions.*
