Title

Clarification of school attendance zone for new development for SY2026-27

Requested Action

School Board consideration of the Superintendent's recommendation for clarification of school attendance zone for new development for SY2026-27

Summary Explanation and Background

The Superintendent is recommending School Board consideration and approval of a school attendance zone for a new subdivision for SY2026-27. This proposed correction will modify the attendance area of one new residential development that is in the construction phase. The subdivision, Riverstone Retreat, is located at the southwest corner of Riverstone Boulevard and Dr. Martin Luther King, Jr. Boulevard intersection. This new development contains a split attendance zone within its proposed footprint, currently in both the Hasty Elementary and R. M. Moore Elementary attendance areas. Through an attendance zone correction, the Superintendent is recommending the current attendance area boundary so that the development will be contained within one attendance area, the R. M. Moore Elementary School attendance area. The Middle School and High School attendance areas will remain the same--Teasley Middle School and Cherokee High School. No current students will be affected by this boundary adjustment.
