554

139 Average number of classroom visits per administrator

What we believe

Students come first and are provided engaging educational experiences that will prepare them to be successful in the real world. Although risk-taking is a critical component of the learning process, we are committed to ensuring the mental, emotional and physical safety of children in order to prepare them for success with their post-secondary choices. By providing a safe avenue for making and correcting mistakes, students are encouraged to take risks while learning to be resilient. Students will have the opportunity to engage in real-world learning experiences through community partnerships, mentors, and guest speakers, as well as the use of inquiry learning opportunities within the classroom.
