First 25 Days of School

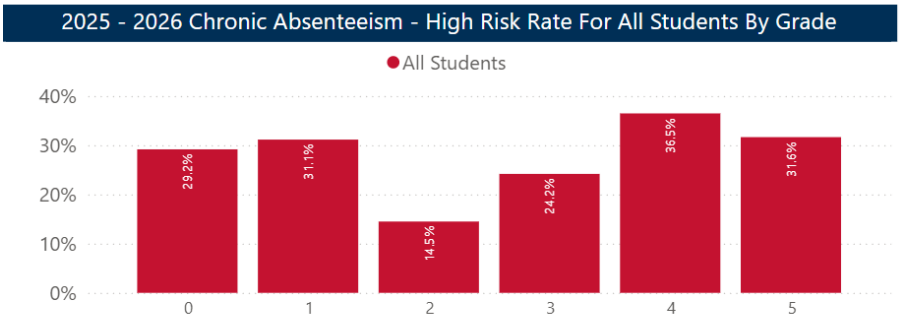

Attendance Plan SY 2026 – 2027

"Every Day Counts: Start Strong, Finish Strong!"

Overview: The first 25 days of school set the foundation for a successful year. Students who come to school every day are more likely to build strong friendships, master new skills, and stay on track academically.

Current Attendance Data: (2025 – 2026) – Although attendance improved, one out of every four students is still projected to become chronically absent. Our goal is to establish strong attendance habits during the first 25 days to increase Average Daily Attendance while reducing chronic absenteeism.

Attendance Goals:

- Increase school wide attendance from 92.7% to at least 95% during the first 25 instructional days.
- Reduce projected chronic absenteeism below 22%.
- Increase perfect attendance from 3.3% to 5%.
- Achieve 98% attendance on the first day of school.

Attendance Plan:

Date	Activities for Students	Parental Involvement	Person Responsible for Execution	Incentives
