11* General Fund (For Operations). The general fund of any school district is hereby defined as a current expense fund, as defined in 70 O.S. § 1-117.

12* Cooperative Fund (For Cooperative Programs). The Co-op fund is hereby defined as a current expense fund, as defined in 70 O.S. § 5-117.

20 SPECIAL REVENUE FUNDS. Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

21* Building Fund. The building fund of any school district shall consist of all monies derived from the proceeds of a building fund levy voted by the people of a school district, not to exceed five mills in any year, as defined in 70 O.S. § 1-118.

Schools that receive gifts or donations, or state-appropriated monies, for capital expenditures or projects shall place such monies in the building fund, not in the general fund.

School districts that receive monies from rental, sale, or lease of buildings, Impact Aid monies, or grants, whether from state, federal, or other sources, may place such monies in the building fund or the general fund authorized by 70 O.S. § 1-117.

22* Child Nutrition Programs Fund. Title 70 O.S. § 5-158 states that state, federal, and local collections for child nutrition monies may be placed in a governmental budget account that will be administered through your school district treasurer and appropriated separately from all other appropriated funds. The beginning fund balances each year, combined with all actual revenues, including collected and estimated revenues, must be appropriated before being expended. Purchase orders shall be issued against available appropriations, and once goods or services have been received, either payable or nonpayable warrants shall be issued in payment of all purchase orders.

23* Special Building Fund (Career Tech Only).

24* Oklahoma City Metropolitan Area Public Schools (MAPS) Trust. Title 70 O.S. § 3-104 (Number 18) states that the State Board of Education shall prescribe a list of appropriation accounts by which the funds of school districts shall be budgeted, accounted for, and expended. This code meets the requirement of the Resolution of the Oklahoma City Metropolitan Area Public Schools Trust to keep this money at the school district in a separate fund.

25* Municipal/County Tax Levy. Money derived from a special sales tax on behalf of the school district. These funds are to be kept separate and expended only for those items addressed in the tax levy agreement.

26* Childcare and Limited Services for Children. Community lunch and childcare services are contracted through the Department of Human Services. Does not include childcare before or after school by 21st Century grants or Child Nutrition funds.

30 CAPITAL PROJECTS FUNDS. Account for financial resources used to acquire or construct major capital facilities other than those of proprietary and trust funds. A bond fund holds proceeds from the sale of bonds from which all expenditures for bond projects are paid, as defined in 62 O.S. § 574.

A separate fund shall be assigned for each capital project. Bond fund titles should include the purpose and the fiscal year of authorization. For example, a bond issue authorized for transportation equipment in November of 2009 would be the Transportation Bond Fund of Fiscal Year 2010. All transactions would be identified by the fiscal year in which the encumbrances and/or warrants were issued.

The propositions set forth in a bond issue that identifies specific projects shall be accounted for in the Project Reporting dimension series 001-199, as assigned by the LEA. If more than one bond issue is authorized in a fiscal year and those issues are for a period of ten years or more, multiple issues may be combined using a single bond fund number and tracking propositions via the Project Reporting dimension.

PROJECT REPORTING DIMENSION DEFINITIONS

The Project Reporting dimension enables LEAs to accumulate funds to meet a variety of specialized management and reporting requirements, regardless of whether they are at the district, state, or federal level. Funds may be accumulated under individual projects, as below, with the flexibility to accommodate additional projects that LEAs may wish to account for on a permanent or temporary basis.

000* **NONCATEGORICAL FUNDS.** Funds for which the LEA has no need or desire to classify as below.

001-298 CATEGORICAL/SPECIAL BUDGET SERIES. District funds that need to be tracked. Budget name and number to be assigned by LEA. Some LEAs may wish to collect a group of diverse fund classifications for which a single individual or position is responsible, e.g., the music supervisor is allocated a music budget for distribution to all instructional operational units, the total budget would be assigned a Project Reporting number, and the allocation to various operational units could be made using the operational unit dimension. Another example would be an instructional supplies budget controlled by the principal of each school site. The Project Reporting number would be assigned and include the total instructional supply budget for the district and the amount allocated by each school site, indicated by the Operational Unit dimension. Since these funds are unlikely to include the restricted and categorical funds that this dimension is primarily concerned with, codes 001-199 have been reserved for this purpose.

299* **Gifts and Endowments.** Money received from a philanthropic foundation, private individual, or private organization for which no repayment or special service to the contributor is expected. Included are monies from which income may be expended, but the principal must remain intact.

Function means the action a person takes or the purpose for which a thing exists or is used. Function refers to the activities or actions performed to accomplish an enterprise's objectives. The activities of a LEA are classified into six broad areas or functions: instruction, support services, operation of noninstructional services, facilities acquisition and construction services, other outlays, repayment of restricted funds, and other uses. Functions are broken down into sub-function areas.

Each of these program levels consists of activities that have somewhat the same general operations objectives. Furthermore, categories of activities comprising each of these divisions and subdivisions are grouped according to the principle that the activities can be combined, compared, related, and mutually exclusive. For example, sub-functions within support services include student support, guidance, and health services.

PROGRAM EXPENDITURE DIMENSION DEFINITIONS

The program dimension must be used with Functions 1000 and 2330. Program dimensions may be used with any other function for tracking purposes.

A program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives. Nine broad program areas are identified: regular programs, special programs, vocational programs, other instructional programs, continuing education programs, community services programs, all instructional programs, and athletic programs. An undistributed expenditures category is added to accumulate expenditures that cannot be charged to one of the programs but can be allocated later by an indirect cost allocation process.

The program dimension provides the LEA with the framework to classify expenditures by program to determine cost.

000* SERIES—UNDISTRIBUTED EXPENDITURES (FOR ALL FUNCTIONS EXCEPT 1000 and 2330). All charges that are not readily assignable directly to a program are classified. For program-costing purposes, the charges to functions in the 1000, 2000, and 3000 series, and to this account, may be attributed indirectly to instructional, community service, and enterprise programs. Charges to the function series 4000 and 5000, when using this program code, are normally not allocated to other programs.

The CSCRRF's primary purpose is to reimburse charter school sponsors (not the charter schools themselves) for qualifying costs they incur due to the closure of a sponsored charter school. Definitions of Revenue Dimensions

FY Fiscal year of the fund involved.
Example: FY2026-27.

FUND A fiscal and accounting entity with a self-balancing set of accounts recording cash and other resources together with all related liabilities and residual equities or balances or changes therein. Examples: General, building, school activity, trust.

PROJECT REPORTING The Project Reporting dimension enables LEAs to accumulate revenue to meet a variety of specialized management and reporting requirements, regardless of whether the programs receive district, state, federal, or multi-source funding. Revenues may be accumulated under individual projects, with the flexibility to accommodate additional projects that LEAs may wish to account for on a permanent or temporary basis. Examples: Summer school program, child nutrition program, vocational program, IDEA-B.

SOURCE OF REVENUE This dimension permits segregation of revenues by source. The primary classification differentiates district, intermediate, state, and federal revenue sources. Revenues from restricted sources would be further classified using the Project Reporting dimension.

PROGRAM A plan of activities and procedures designed to accomplish a predetermined objective. The 200 series is to be used for Staff Development; the 700 series is to be used for the Child Nutrition Program; and the 800 series is to be used for competitive athletic programs as co-curricular activities. The 900 series is to be used for co-curricular and extracurricular programs that the district might want to track.

FOREWORD

The State Board of Education Policies and Procedures for Implementation of the Oklahoma Cost Accounting System (OCAS) and School Finance was presented to the Oklahoma State Board of Education during a regular meeting on March 19, 1992.

These policies and procedures have been prepared to assist in implementing financial transactions using the Oklahoma Cost Accounting System's coding structure. The goal of the Financial Services Division of the State Department of Education is to ensure consistent coding and accurate implementation of school laws and State Board regulations related to school finance.

The rules describe the basis for funding public schools; the duties and procedures for the financial operations of districts; and the responsibilities of the State Department of Education and individual districts regarding the securing, dispensing, reporting, and accounting for school funds.

Boards of education, superintendents, business managers, encumbrance clerks, treasurers, independent auditors, and others responsible for preparing school district budgets and administering school district funds must become familiar with these policies and procedures.

LAWS AND REGULATIONS

Statutory provisions authorizing the State Board of Education to administer Oklahoma school finance laws are primarily found in Title 70 of the Oklahoma Statutes, Articles 5 and 18. Related provisions are found in Titles 61, 62, 68, and 74 of the Oklahoma Statutes.

School districts shall report financial transactions for all funds, except for the school activity fund, using the Oklahoma Cost Accounting System (OCAS) as adopted by the State Board of Education pursuant to 70 O.S. §§ 5–135 and 5–135.2. Costs shall be reported by curricular subject area, where applicable. For the 1992–93 school year and in each subsequent school year, school districts shall report financial transactions **for all funds** using the Oklahoma Cost Accounting System. Cost shall be reported by curricular subject area, where applicable.

Title 70, Chapter 1, Section 5-135. System for Initiating, Recording, and Paying Contractual Obligations.

A. The board of education of each school district shall use the following system of initiating, recording and paying for all purchases, salaries, wages or contractual obligations due from any of the funds under the control of such board of education. However, a school district board of education may use the procedures outlined in Section 304.1 of Title 62 of the Oklahoma Statutes for the payment of salaries and wages only if the board so votes. The provisions contained herein shall not apply to the sinking fund and school activity fund.

B. The encumbrance clerk and treasurer of the school district shall each enter the authorized amounts in the various appropriation accounts of the funds to which this system is applied. The authorized amounts of appropriations shall be the general fund and building fund appropriations approved by the county excise board and such additional amounts as may be applied in the manner provided by law, the amount received for deposit in a special cash fund where such special cash fund is authorized by law or required by the person or agency providing such funds, or the amount of the net proceeds realized from the sale of bonds of the school district and any other income due such fund.

C. It shall be the duty and responsibility of the board of education of the school district to prescribe and administer adequate business procedures and controls governing the purchase or confirmation of purchase and delivery of goods or services. The procedures shall include delivery of an acceptable invoice by document, facsimile, electronic or other standard form that includes the information required by the district. Such procedures shall include the designation of authorized persons to purchase goods or services for the district and the method of determining the school employee receiving delivery of each purchase.

Title 70, Chapter 1, Section 5-135. System for Initiating, Recording, and Paying Contractual Obligations.

D. Prior to the issuance of a purchase order, the encumbrance clerk must first determine that the encumbrance will not exceed the balance of the appropriation to be charged. The encumbrance clerk shall charge the appropriate appropriation accounts and credit the affected encumbrances outstanding accounts with the encumbrances. Encumbrances must be submitted to the board of education in the order of their issuance on a monthly basis, subject to a monthly business cycle cut-off date determined by the board of education. Approved encumbrances shall be listed in the minutes by the minute clerk.

E. Before any purchase is completed, a purchase order or encumbrance must be issued. No bill shall be paid unless it is supported by an itemized invoice clearly describing the items purchased, the quantity of each item, its unit price, its total cost and proof of receipt of such goods or services. The bill and/or invoice shall be filed in the encumbrance clerk's official records. If a district has the ability to electronically utilize evaluated receipt settlement (ERS), the district may remit to vendors on that basis if the requirements of this subsection are fulfilled. In the event a district is establishing electronic data interchange, electronic entries will suffice in lieu of paper documents. In order for a district to be authorized to utilize an evaluated receipt settlement system:

1. The ERS must result in payment by the district from vendor receipts that have been matched to the purchase order date;
2. The ERS may only be used when there is an agreement between the district and the vendor for use of an ERS; and
3. The ERS must be included in the district's journal ledger/accounts payable/purchase order software.

F. The encumbrance clerk shall debit the encumbrances outstanding account and credit the accounts payable account for the amount of the approved bill. The board of education shall determine the extent such costs may fluctuate without additional board action. Minor adjustments not requiring additional board approval shall be referenced to the original encumbrance.

G. An approved bill may be paid by issuing a warrant or check against the designated fund only after ascertaining that proper accounting of the purchase has been made and that the files contain the required information to justify the expenditure of public funds, except as otherwise provided in subsection I of this section. The warrants or checks so issued shall be recorded in an orderly numerical system established by the district. The encumbrance clerk shall charge the warrant or checks against the accounts payable account and credit it to the warrants or checks issued account. Provided, if payment is to be made immediately and the board of education

deems it advisable, the postings to the accounts payable account may be omitted and the payment of the approved bill may be credited directly to the warrants or checks issued account. The warrant or check shall show on its face the name of the school district, the date of issue, the payee, the amount, the expenditure classification code, and such other information as may be necessary or desirable. The president and clerk of the board of education shall each sign the warrant or check, or approved facsimile, thereby denoting to the public that the warrant or check is for the purpose and within the amount of the appropriation charged.

H. The treasurer shall register the warrant or check in the warrant or check register, charging the appropriation account and crediting the warrants or checks outstanding account of the designated fund. Provided, no warrant or check shall be registered in excess of the appropriation account's balance. All warrants or checks shall be registered in the order of their issuance. Voided warrants or checks shall be registered and filed with the treasurer. The treasurer shall sign each warrant or check through individual signature or approved facsimile showing its registration date and if issuing a warrant, shall state whether it is payable or non-payable. When a warrant or check is paid, the treasurer shall maintain evidence the warrant or check has been processed and paid. Nothing in this subsection shall prohibit any governing board from using automated recordkeeping procedures, provided the information required in this subsection can be accessed.

I. Any board of education of a school district of this state may make a payment, which would otherwise be made by warrant or check, by disbursement through an Automated Clearing House, bank account debit system, wire transfer through the Federal Reserve System, or any other automated payment system operated by a financial institution insured by the Federal Deposit Insurance Corporation. The internal controls over such payment system shall be reviewed and approved by the independent auditor of the district during the annual audit. The provisions of Sections 601 through 606 of Title 62 of the Oklahoma Statutes shall apply to instruments or payment authorized by this subsection.

J. School districts complying with the provisions of this act shall use only those forms and accounting systems approved by the State Board of Education. Such forms and systems shall be considered in substantial compliance with this act if they are sufficient to convey the meaning and sequence of transactions contained herein. Provided, nothing contained herein shall be construed to limit or prevent the use of additional or subsidiary accounts, forms, or files which may be deemed necessary or advisable by the board of education of the district or the State Board of Education.

K. Any school district desiring to utilize the services of a data processing center to furnish any or all of the records herein required may do so if the center and its system complies with this act and the rules and regulations of the State Board of Education. Such center shall furnish an honesty bond in an amount to be set by the board of education but not less than Ten Thousand Dollars ($10,000.00).

L. The State Board of Education shall notify the board of education of the school district of the tentative amount the district is to receive from state and federal aid funds or allocations, and the board of education of the school district may include such tentative estimate as an item of probable income in the preparation of the school district's Estimate of Needs and Financial Statement; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy.

> There is no conflict between the provisions of 70 O.S. 5-135(F)(1981), which require receipt of services by a school distinct prior to payment for such services, and those of 68 O.S. 2481.4 (1981), which require each school district to appropriate funds to the county assessor for expenditure in the county's revaluation program, since the requirement that school district fund a portion of the revaluation budget is a statutory duty, not a contractual obligation. 1985 AG 4

OAC 210:25-5-2. Appropriations, allocations and fund balance reserves.

(a) An appropriation as used for governmental and special cash account funds is an authorization to issue warrants against such appropriation or additions thereto. [70 O.S. 5-135(B)] Funds are appropriated by use of the following legal documents:

(1) A temporary appropriation, SBE Form 12, for 100% of the anticipated revenue for the current year for General Fund and Building Fund may be obtained from the County Excise Board. The original appropriation is SA&I Form 2661, Estimate of Needs, as approved and signed by the County Excise Board.

(2) The following funds are considered special cash funds under "Oklahoma Cost Accounting System":

(A) General Purpose Bond Funds

(B) Child Nutrition Funds

(C) Cooperative Funds

(3) Funds received during the fiscal year, in excess of the original appropriation, also require County Excise Board or County Clerk approval on one of the following:

(A) Form 307 - Request for Approval of State Aid and/or Federal Funds for Schools–Requires County Clerk's approval only.

(B) Form 308 - Cash Fund Estimate of Needs and Request for Appropriation (local revenue to be placed in a special cash fund)–Requires excise board approval.

(C) Form 150 - Supplemental Estimate (local revenue being placed in General Fund or Building Fund)--Requires excise board approval, does not require publication.

(b) At the close of the fiscal year, appropriations will be reserved for any contracts pending for outstanding encumbrances (contracted for but not completed and/or paid for) by providing to the treasurer, the auditor, and the local school board the following information on each such purchase order/encumbrance: date, purchase order number, vendor name, amount, and coding dimensions according to the Oklahoma Cost Accounting System (i.e., Fiscal Year, Project Reporting, Function, Object, Program, Subject, Job Classification and Operational Unit as required). The remaining fund balance will be carried forward into the new fiscal year's budget as lapsed appropriations.

Title 70, Chapter 1, Section 5-135.2. Report of Financial Transactions and Costs - Reduction of Monthly Payment of District's State Aid Funds.

A. For the 1991-92 school year, school districts shall report financial transactions for all funds, except for the school activity fund, using the Oklahoma Cost Accounting System, as adopted by the State Board of Education pursuant to Section 5-135 of this title. Costs shall be reported by curricular subject area where applicable. For the 1992-93 school year and in each subsequent school year, school districts shall report financial transactions for all funds using the Oklahoma Cost Accounting System. Costs shall be reported by curricular subject area where applicable.

B. Beginning July 1, 1991, and in each subsequent school year, the State Department of Education shall reduce the monthly payment of a district's State Aid funds if, at the time of such payment, the district is not operating pursuant to the Oklahoma Cost Accounting System. The amount of the reduction shall be one percent (1%) for the first payment, two percent (2%) for the second payment, three percent (3%) for the third payment, four percent (4%) for the fourth payment, and five percent (5%) for each subsequent payment. The reduction may be waived by the State Board of Education if the district can demonstrate that failure to operate pursuant to such system was due to circumstances beyond the control of the district and that every effort is being made by the district to operate pursuant to such system as quickly as possible.

C. No later than September 1 each year, every district board of education shall prepare a statement of actual income and expenditures of the district for the fiscal year that ended on the preceding June 30. The statement of expenditures shall include functional categories as defined in rules adopted by the State Board of Education to implement the Oklahoma Cost Accounting System pursuant to Section 5-135 of this title.

D. No later than September 1 each year, every school district shall transmit a copy of the income and expenditures data required pursuant to subsection C of this section to the State Department of Education. The Department shall post the income and expenditure data on the Internet Web site for the Department in a form that is accessible to the public.

OAC 210:25-5-4. Accounting.

(a) The financial structure of an Oklahoma public school district consists of various classifications as referenced in Oklahoma Administrative Code (OAC) 210:25-7-1, (Oklahoma Cost Accounting System [OCAS]). School District accounting systems shall be organized and operated on a basis that assures legal compliance by the recording and summarizing of financial transactions within funds, each of which is completely independent of any other. Each fund shall account for and continually maintain the identity of its revenues and expenditures. Financial transactions for purposes of this regulation and as referenced in 70 O.S. § 5-135.2 shall be defined as a detailed reporting of revenue within the Source of Revenue dimension. Revenue shall be reported to the bold codes within each of the following broad categories: District Source of Revenue, Intermediate Source of Revenue, State Source of Revenue, and Federal Source of Revenue. Expenditures shall be reported by the bold codes within the Function dimension as follows: Instruction, Support Services-Students, Support Services-Instructional Staff, Support Services-General Administration, Support Services-School Administration, Support

Services-Central, Operation and Maintenance of Plant Services, Student Transportation Services, Child Nutrition Programs Operations, Community Services Operations and Facilities Acquisition and Construction Services. Additional dimensions for Revenue and Expenditures are coded to provide classification by Fiscal Year, Fund, Project Reporting, Object, Program, Subject, Job Classification, and Operational Unit, where applicable.

(b) Beginning July 1 but no later than September 1 of each year, every school district and charter school board of education shall prepare and submit to the State Department of Education, through the Oklahoma Cost Accounting System (OCAS), a statement of actual income and expenditures of the district or charter school for the fiscal year that ended the preceding June 30. The year-end financial report recording and summarizing all revenue and expenditure financial transactions will be completed and locked on or before September 1 of the applicable year. For purposes of the OCAS system, "locked" means that the data submitted has passed the system's initial edit checks and the district has **finalized** the submission. To assure the validity and accuracy of financial reporting and accounting, between September 1 and November 1 of each year, school districts and charter schools shall have the opportunity to show cause that corrections to the data submitted are warranted. By November 1, the data submission shall be certified by the district superintendent or head of charter school. If the school district or charter school does not report any inaccuracies by November 1, the State Department of Education will rely on the data submitted and certified by the school district or charter school to be complete and closed. Nothing in this Section shall preclude the State Department of Education or the State Board of Education from conducting regular or periodic reviews of school district or charter school financial records as authorized by law and ensuring a public school operates pursuant to the OCAS system

(c) As referenced in 70 O.S. § 5-135.2, the State Department of Education shall reduce the monthly payment of a district's State Aid funds if the district is not operating pursuant to the OCAS system. Upon final determination, including but not limited to the process set forth in Subsection (b), the reduction of monthly payments shall begin with the first day that the school district or charter school was determined to not be operating in compliance with the OCAS system. The reduction may be waived by the State Board of Education if the school district or charter school can demonstrate that failure to operate pursuant to the OCAS system was due to circumstances beyond the control of the district or charter school, and that every effort is being made to operate in compliance with the OCAS system. Not operating pursuant to said system shall be defined as a district not:

(1) accurately recording and reporting all revenue and expenditures by applicable OCAS bold code dimensions;

(2) submitting OCAS financial records on time and as required, including as provided in Subsection (b), via the Web-based system of all recorded and reported revenue and expenditures by applicable OCAS bold code dimensions to the State Department of Education;

(3) ascertaining that current and accurate applicable OCAS codes are being utilized as updated and maintained by the State Department of Education;

(4) complying with regulations as outlined in OAC 210:25-3-7 (Financial information processing), OAC 210:25-5-10 (The encumbrance clerk), OAC 210:25-5-11 (The school district treasurer), or OAC 210:25-5-13 (School activity fund);

(5) reconciling all recorded and reported revenue and expenditures by applicable OCAS bold code dimensions by balancing data with bank receipts and statements, purchase orders, warrant registers, investment ledgers, and all balance sheet accounts; and

(d) For appropriated funds, all indebtedness should be encumbered (have a purchase order issued and be recorded) on the day the obligation is incurred, rather than when it becomes due, and supporting documentation should be provided for all indebtedness.

(e) Upon the approval of the State Board of Education, school districts may make capital expenditures up to a maximum amount of $50,000 (fifty thousand dollars) during the current fiscal year within the General Fund pursuant to 70 O.S.§ 1-117, if the school district meets the established criteria as outlined in the Statutes. School districts shall be voting the maximum five (5) building fund mills. General Fund monies authorized by the State Board of Education for expenditures must be expended within the current fiscal year. Any such funds encumbered as of June 30 of the current fiscal year, but not expended by November 15 of the subsequent fiscal year, shall lapse and return to the original purpose of such funds.

(f) A school district shall be authorized to utilize general fund monies for capital expenditures, in addition to the amount specified in subsection (e), pursuant to the provisions of 70 O.S.§ 1-117.

(g) Inventory cards or data processing records shall be kept on all equipment and removable fixtures, showing purchase order number when known, date of purchase (when known, if not known an estimated date shall be used), amount of purchase (if known, if not known present value must be estimated) a description of the item, the serial number (when applicable) and the location of the item. New purchases shall be included in the records on the same day in which they are physically received by the district. Disposed equipment must be removed from the records on the disposal date and a detailed description of the circumstances which results in the disposal recorded. Disposed equipment should not be included in the records of future years.

OCAS DATA SUBMISSION

Data:

- All field definitions and record layout requirements will remain the same.
- After the data has been "rolled," it needs to be saved as either expend.dat or revenue.dat.

REMINDERS: When entering the county/district number:

- Be sure to use the number zero (0) and not the letter (O).
- Independent districts need to be sure to use the letter "I," not the number one.

WEB-BASED REPORTING:

- Access the OCAS site through the SDE Home Page at: <www://sde.ok.gov>.
- Select the Single Sign On link.
- When the logon screen appears, type in your username and password, then click on Sign In.
- Highlight and click on Oklahoma Cost Accounting System
- Highlight and click on District Page.

Upload:

- If you know the file and path name of the desired document (expend.dat or revenue.dat), you can type it in directly or click on Browse and find the document. Please note: Only the named document can be uploaded in the file holder.
- After you have gathered the data, click on Upload Expense File. The computer system will inform you if the data upload was successful, or if incorrect data was submitted (county/district codes, wrong fiscal year, too many characters, etc.).
- The data will be processed and posted for the district to view. You will be able to view any error listings or other messages at that time.

Reports:

- To view error listings, click on "View Errors". The computer system will take you to the District Expenditure Upload Report. This report can be printed by using the print option on your browser. Only the fund totals will be listed if the data processed without any edit check errors.
- To generate, view, and print final reports, select the desired report under "District Reports Tab". Reports are generated in Portable Document Format (PDF). Click on "Request Report".
- Once the reports have passed all common edit checks, review the comparison reports to determine (1) if data was doubled, (2) there was a loss in revenue; (3) all funds were coded in one area. The Financial Accounting Section will be reviewing these reports as well for the same errors.
- When the reports are accurate, the authorized district user must lock their data. The State Department of Education staff will perform a desk review of the locked data and either accept or reject the data.
- If the data is rejected, the district will be notified of the areas of deficiencies and allowed to correct and resubmit the data. The data will need to be locked again by the authorized district user.
- When all reports are accurate, and the State Department of Education staff has certified the data, the superintendent must certify that all reports are correct by activating the "certify" option on the OCAS screen.
- Click on Return to Single Sign On link to return to districts current applications or use the Back button on the browser to return to the Districts Home Page.

A. The county treasurer of each county shall be the treasurer of all school districts in the county, except that the board of education of a school district may appoint a local treasurer for the school district and, in its discretion, an assistant local treasurer of the district, each of whom shall serve at the pleasure of the board for such compensation as the board may determine. The assistant local treasurer may perform any of the duties and exercise any of the powers of the local treasurer with the same force and effect as if the same were done or performed by the local treasurer. Before entering upon the discharge of the duties of the assistant treasurer, the assistant treasurer shall give a bond in such amount as the board of education may designate, with good and sufficient sureties to be approved by the board, conditioned for the faithful performance of his or her duties. A local treasurer or assistant local treasurer need not be a resident of the school district where appointed to serve although any local treasurer or assistant local treasurer shall be a resident of this state. Nothing herein shall prevent a local treasurer or assistant local treasurer from being appointed for more than one school district.

B. Whenever a county treasurer is designated as the treasurer for a school district, the county treasurer may elect to charge for such services. If said charges are assessed, the treasurer shall prepare a special estimate of needs each fiscal year, covering all expenditures of the office on behalf of any school districts for which the county treasurer serves as treasurer. The estimate for treasurer services shall be itemized by personal services and maintenance and operation expenditures and shall be filed with the county excise board. In reviewing and approving this estimate, the county excise board shall authorize and levy amounts for treasurer services which in the judgment of the board will be sufficient to perform the services. The board shall apportion the cost among the school districts for which the treasurer services are to be charged in the ratio which each school district's total appropriations for the preceding year bears to the total appropriations of all such school districts receiving treasurer services for the preceding year. The amounts shall be included in, or added to, the estimates of needs or budget of each such school district. The amount as approved and appropriated by the county excise board shall be paid by the school district, by appropriate warrants, to the county for deposit in the county general fund.

Title 70, Section 5-115. Local Treasurer - Surety Bond - Duties - Cash and Investment Ledgers.

A. Unless the context clearly shows otherwise, the term "treasurer," as used in this section, includes a county treasurer acting as the treasurer of a school district pursuant to the provisions of Section 5-114 of this title. The treasurer so appointed shall execute, before entering upon the duties of the office of the treasurer, a surety bond in an amount which it is estimated by the board of education the treasurer will have on hand at any one time during the current year, and the amount of securities held as investments shall not be considered. The board of education is empowered to require the treasurer to increase or decrease the bond of the treasurer as the amount of funds on hand may require. Provided, the bond of a school district shall not, in any event, be required to be in an amount greater than that of the county treasurer of the county. The premium on the bond shall be paid by the board of education out of district funds. Provided, however, the treasurer of such district shall require the depository wherein school district funds are deposited to insure or guarantee the deposit by proper securities, which shall be of the same class of securities as are required to insure deposits of county treasurers of the various counties, and the securities shall be pledged, taken and kept in the manner provided by Sections 517.1 through 517.7 of Title 62 of the Oklahoma Statutes.

B. In all districts which are permitted by law to select a local treasurer, the county treasurer shall act as treasurer thereof until such time as a local treasurer shall be appointed and has executed the surety bond required by this section. In no instance in which the county treasurer is the treasurer of any school district shall any additional bond be required, but the official bond of the county treasurer shall stand for any and all funds and securities coming into the hands of the county treasurer.

C. The local treasurer of a district, when required by the board of education, shall prepare and submit in writing a report of the condition of the finances of the district and shall produce at any meeting of the board or to any committee appointed for the purpose of examining the accounts of the treasurer all books and papers pertaining to the office of the treasurer. Upon failure to make reports as provided for herein or as may otherwise be required by law, the board may at any regular or special meeting thereof summarily suspend the treasurer, and while so suspended, the treasurer shall perform no act pertaining to the office of the treasurer. Such suspension shall continue until ended by order of the board or by judgment of a court of competent jurisdiction.

D. The local treasurer of a school district shall keep a separate cash ledger for each fund in the custody of the treasurer. The local treasurer shall enter each collection and disbursement in the cash ledger of the applicable fund by recording the date and classification of each transaction and such other information as may be deemed desirable. Additional ledgers shall also be maintained to record the investments made from each fund. Such investment ledgers shall disclose the date, description and principal amount paid for each investment purchased and the date and principal amount received for each investment liquidated.

E. Upon suspension by the board, the treasurer shall immediately turn over to the board of education or to the acting treasurer, if one has been appointed by the board all books and papers and other property pertaining to the office of the treasurer.

F. Except as otherwise provided by law, no treasurer of any district shall pay out school district funds in the care of the treasurer except upon warrants signed by the proper school district officials authorized by the law to sign such warrants, provided, this restriction shall not apply to sinking funds or to the investment of school district funds. Authorized sinking fund payments and payment for investments or receipt of liquidated investments may be made by check, wire transfer or other instrument or method through the Federal Reserve System.

G. The board of education shall, each month, set aside funds to an operating account and to an investment account. Investments by the treasurer shall be made in accordance with a written policy adopted by the board of education. The written investment policy shall address liquidity, diversification, safety of principal, yield, maturity, quality of the instrument, and capability of investment management. Acting within the investment policy, the treasurer shall place primary emphasis on safety and liquidity in the investment of funds. Taking into account the need to use sound investment judgment, school districts shall, to the extent practicable, use competitive bids when they purchase direct obligations of the United States Government or other obligations of the United States Government, its agencies or instrumentalities. Such system shall be designed to maximize yield within each class of investment instrument, consistent with the safety of the funds invested. The board of education must review the investment performance of the treasurer on a regular basis and no less than each month. The treasurer of every school district shall invest the full amount of the investment account in:

1. Direct obligations of the United States Government to the payment of which the full faith and credit of the Government of the United States is pledged; provided, a treasurer of a school district who has completed the program pursuant to the provisions of subsection H of this section may invest funds in the investment account in other obligations of the United States Government, its agencies or instrumentalities;

3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies;

Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this subsection including obligations of the United States, its agencies and instrumentalities, and where the collateral has been deposited with a trustee or custodian bank in an irrevocable trust or escrow account established for such purposes;

6. County, municipal or school district direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value. The income received from an investment may be placed in the general fund of the governmental subdivision to be used for general governmental operations, the sinking fund, the building fund, or the fund from which the investment was made;

7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items and those restrictions specified in paragraphs 1 through 6 of this subsection;

8. Warrants, bonds or judgments of the school district; or

9. Qualified pooled investment programs, the investments of which consist of those items specified in paragraphs 1 through 8 of this subsection, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an interlocal cooperative agreement formed pursuant to Section 5-117b of this title, and the program must competitively select its investment advisors and other professionals. Any pooled investment program used must be approved by the board of education; or

H. The board of education is hereby empowered to require the treasurer to satisfactorily complete an investment education program approved by the State Board of Education and the State Board of Career and Technology Education. Title 70, Chapter 1, 5-117. Powers and Duties-Rules and Regulations.

A. The board of education of each school district shall have power to:

15. Establish a written policy for reimbursement of necessary travel expenses of employees and members of the board. The policy may include in-district travel from the site of employment assignment which is necessary in the performance of employment duties. The written policy shall specify procedures, contain documentation requirements, and may include payment of meal expenses during authorized travel on a per diem allowance basis rather than itemized documentation.

Title 70, Chapter 1, Section 5-129. School Activity Fund - Control - Accounts - Disbursements - Petty Cash Accounts - Custodian - Bond - Investment of Funds.

A. The board of education of each school district shall exercise control over all funds and revenues on hand or hereafter received or collected, as herein provided, from student or other extracurricular activities or other revenue-generating sources listed in subsection B of this section that are conducted in the school district. Such funds shall be deposited to the credit of the account maintained for the benefit of the particular activity within the school activity fund. Deposits of funds subject to the requirements of this section shall be made by the end of the next business day; however, if the deposit for a day totals less than One Hundred Dollars ($100.00), a school district may accumulate monies required to be deposited into the fund on a daily basis until the total accumulated balance of deposits equals or exceeds One Hundred Dollars ($100.00). Provided, a school district shall deposit accumulated monies into the fund not less than one (1) time per week, regardless of whether the monies total One Hundred Dollars ($100.00). Disbursements from each of the activity accounts shall be by check countersigned by the school activity fund custodian and shall not be used for any purpose other than that for which the account was originally created. The board of education, at the beginning of each fiscal year and as needed during each fiscal year, shall approve all school activity fund subaccounts, all subaccount fund-raising activities and all purposes for which the monies collected in each subaccount can be expended. Provided, the board of education may direct by written resolution that any balance in excess of the amount needed to fulfill the function or purpose for which an account was established may be transferred to another account by the custodian.

B. The board of education of each school district may designate that any of the following revenue be deposited for the use of specific school activity accounts, or to a general activity fund within the school activity fund:

1. Admissions to athletic contests, school or class plays, carnivals, parties, dances and promenades;
2. Sale of student activity tickets;
3. Concession sales, including funds received from vending concession contracts and school picture contracts approved by the district board of education, and cafeteria or luncheon collections;
4. Dues, fees and donations to student clubs or other organizations, provided that membership in such clubs or organizations shall not be mandatory;
5. Income or revenue resulting from the operation of student organizations or club projects, provided, such revenue is not derived from the lease, rental or sale of property, supplies, products or other assets belonging to the school district. When approved by the board of education, student organizations or club projects may include fund-raising activities, the revenues from which may be used for the purpose of purchasing goods or services otherwise considered to be general fund expenditures;
6. Deposits for or collections for the purchase of class pictures, rings, pins, announcements, calling cards, annuals, banquets, student insurance and other such personal items; provided the cost of such items shall not be charged against other school funds; and
7. Other income collected for use by school personnel and other school-related adult functions.

C. The board of education of each district may establish petty cash accounts to be used only for the purpose of making small cash expenditures, such as postage, freight or express charges; provided, no single expenditure from a petty cash account shall be made in excess of Seventy-five Dollars ($75.00), and the total expenditures during any one (1) fiscal year shall not exceed Two Thousand Five Hundred Dollars ($2,500.00) per school building. The school activity fund custodian shall initiate petty cash accounts by filing a claim against the general fund of the school district for the authorized amount of each petty cash account which shall not exceed Two Hundred Dollars ($200.00) per school building. The general fund warrants issued in payment of said claim shall be deposited in a "Petty Cash Account" in the school activity fund.

All disbursements from the petty cash accounts shall be made in the same manner as other disbursements from the school activity fund, except no disbursement shall be made from a petty cash account unless a prenumbered, dated receipt be obtained and signed by the person receiving payment. A school board may designate a petty cash custodian to countersign petty cash checks in place of the activity fund custodian. The school activity fund custodian shall file claims against the general fund of the school district for reimbursement of a petty cash account whenever the need shall arise. Such claims shall be itemized in the same manner as other claims filed against the general fund and shall have attached thereto the receipts covering each of the expenditures claimed

for reimbursement. The total of a petty cash account balance and the receipts on hand awaiting reimbursement should equal at all times the authorized amount of a petty cash account.

None of the provisions pertaining to a petty cash account shall be construed to authorize the use of one (1) fiscal year's fund to pay obligations of another fiscal year. Any remaining balance in each petty cash account shall be transferred to the general fund on or before June 30 of each year.

D. The State Board of Education shall adopt appropriate rules and regulations and design standard forms for the proper conduct of the various school activity accounts.

E. The school activity fund custodian and the petty cash custodian shall be appointed by the board of education of the school district. The school activity fund custodian and the petty cash custodian shall give a surety bond in an amount determined by the board of education, but not less than One Thousand Dollars ($1,000.00). The premium of the surety bond shall be paid from the school activity fund or the general fund.

F. The local board of education is hereby authorized to invest activity funds as it determines appropriate. Upon direction of the local board of education, the custodian of the activity fund shall invest activity funds in any or all of the investments permitted and listed in Section 5-115 of this title.

G. The board of education of a school district may establish, by board resolution, a general fund refund subaccount within the school activity fund. The balance in the subaccount shall be determined by need, and it shall be funded by refunds and reimbursements received, including but not limited to, rental income, reimbursements for lost and damaged textbooks, summer school and adult tuition, overpayments and tax refunds, as well as transfers, by treasurer's check, from the school district general fund. The subaccount may be expended only for the refund of revenues previously received and deposited either into the subaccount or directly into the general fund. Any remaining balance in the refund subaccount shall be transferred to the school district general fund on or before June 30 of each year.

H. The board of education of a school district may authorize the custodian of the school activity funds to provide cash advances to the sponsors for travel expenses on behalf of school district students and sponsors of certain school activities. The cash advances may only come from the school activity fund subaccount directly involved in the travel of such students or sponsor and only if the travel is one of the stated functions or purposes for the establishment of the subaccount. Receipts for all expenditures of the cash advances shall be kept and turned in to the custodian of the school activity fund following said trip.

I. Any invoice submitted to a school district which is to be paid from a school activity fund and is for payment of an authorized expenditure in an amount equal to or greater than the threshold amount stated in Section 310.9 of Title 62 of the Oklahoma Statutes shall conform to the requirements set forth in that section.

> Money received by school districts from vendors pursuant to vending concession contracts and school picture contracts is school district money. Fact that money from these sources is deposited in a school activity fund does not change its character. Public money in a school activity fund may only be disbursed to private persons or organizations for a valid public purpose. The determination of what constitutes a valid public purpose is a matter for the governing body to decide. Absent a showing of fraud or arbitrariness, a finding by a governing body that a project serves a public purpose will not be disturbed by the courts. May 15, 2003 (2003 OK AG 21).
>
> A school district may use its school activity fund account to deposit and disperse monies raised for the purpose of making charitable and/or benevolent gifts or contributions to individuals or organizations if the board of education has approved the fund raising activity and the dispersement. The monies deposited in the school activity fund which are raised by student fund raising activities are not public funds subject to the constitutional restrictions. June 12, 1997 (1997 OK AG 6) A school district may not use tax generated funds to purchase awards for student activities, but may pay expenses for awards for student activities if the board of education has established a student activity fund subaccount for such purpose. Title 70, Chapter 1, Section 5-129.1. Exemptions of Certain Funds.

Those funds which are collected by programs for student achievement and by parent-teacher associations and organizations that are sanctioned by the school district board of education shall be exempt from the provisions as outlined in Section 5-129 of this title. Each school district board of education shall adopt policies providing guidelines for the sanctioning of organizations and associations exempted or applying to be exempted pursuant to the provisions of this section. The guidelines may include but not be limited to examinations of financial and performance audits performed on each such organization and association. **(70-5-129.1)**

A school district may use the school activity fund to deposit and disperse monies raised from student initiated fund raising activities which are collected for the purpose of making charitable and/or benevolent gifts or contributions to individuals or organizations provide that (1) at the beginning of the fiscal year or as needed during the fiscal year, the board of education approves the school activity fund subaccount, the fund raising activity, and the purpose for which the money will be spent; (2) the money is note used for any purpose other than that for which the fund was originally created; and (3) the distribution of funds is by check countersigned by the activity fund custodian. Monies deposited in a school activity fund raised through student initiated charitable or benevolent fund raising activities are not public funds. As nonpublic funds the restrictions contained in Article X, §§ 14 and 15 of the Oklahoma Constitution are not applicable to monies deposited in a school activity fund which are raised through student initiated charitable or benevolent fund raising activities. Using tax or other public funds to make charitable or benevolent gifts or contributions to individuals or using public facilities and/or personnel to benefit a private individual or organization is prohibited by Article X, §§ 14 and 15 of the Oklahoma Constitution. In the absence of specific facts it is not possible to state as a matter of law that any particular activity is unlawful. June 12, 1997 (1997 OK AG 6)

The specific exemptions from the board of education control of the funds of Oklahoma Congress of Parents and Teachers (Oklahoma PTA) and Junior Achievement programs violate the special law prohibition of Article V, § 51 of the Oklahoma Constitution. Nevertheless, those organizations may fit under the Section 5-129.1(B) general exemption for parent teacher associations. The exemption in 70 O.S. Supp. 1994, § 5-129.1(B) for parent teacher associations does not violate Article V, § 51 of the Oklahoma Constitution, because it does not treat citizens who are similarly situated differently. Title 70 O.S. Supp. 1994, § 5-129.1(B) only requires that the parent teacher associations be incorporated pursuant to 26 U.S.C. § 501(c)(3). The incorporated entity may be one which includes all schools in the district, or the organization may be incorporated only as to a particular school site. The local board of education, as the decision-making body for the local school district, "sanctions" as association. The particular criteria for such sanctioning must be determined by the local school board of education. October 27, 1995 (1995 OK AG 54)

Title 70, Chapter 1, Section, 5-129.2. Separate Accounts – Disbursements – Approval by Boards of Education - Transfer of Funds.

A. In conformance with any other law providing procedures for the deposit of such funds, area school districts shall be authorized to establish separate accounts for deposits received for live work, resale items, student financial aid, tuitions and other fees. Such funds shall be deposited to the credit of the account maintained for that particular purpose. Disbursements from each account shall be by check countersigned by the custodian of the account and shall not be used for any purpose other than that for which the account was originally created.

B. The board of education of the technology center school district, at the beginning of each fiscal year and as needed during each fiscal year, shall approve all accounts created pursuant to this section and all purposes for which the monies collected in each account may be expended. Provided, the board of education may direct by written resolution that any balance in excess of the amount needed to fulfill the function or purpose for which an account was established may be transferred to another account by the custodian.

OAC 210:25-5-13. School Activity Fund.

(a) The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise: **"School activities"** means cocurricular or extracurricular activities. Cocurricular activities are school-sponsored activities, under the guidance and supervision of LEA staff, designed to provide students such experiences as motivation, enjoyment, and improvement of skills. Activities normally supplement the regular instructional program. Extracurricular activities mean all direct and personal services for public school pupils for their enjoyment that are managed and operated under the guidance of an adult or staff member. Extracurricular activities are usually not offered for school credit nor required for graduation; conducted outside school hours, or a time agreed by the participants if partly during school hours and approved by school authorities; their content of activities is determined primarily by the pupil participants.

(b) The board of education of each district shall exercise control over the School Activity Fund. Board approval of the School Activity Fund and Sub-Accounts shall be specific. However, the language for approval for the various methods for raising funds and the purposes for which they are to be expended can be of a general nature. The board may delegate authority, through a board policy, to school administrators to approve specific fund-raising activities during the year to be approved by the board at the next regular board meeting.

(c) The board of education of each district may appoint a School Activity Fund Custodian for each operational site within the district. If a school elects to have an operational site, each School Activity Fund Custodian shall be bonded for no less than $1,000.

(d) Disbursements from the School Activity Fund shall be by check, countersigned by the School Activity Fund Custodian and some other person or persons designated by the board of education.

(e) Deposits to or transfers from any account may be authorized by the board of education except School Lunch, Refund, and Petty Cash Accounts. Provided that reimbursement to the General Fund may be made from the School Lunch Account for food service expenditures paid from the General Fund. Such reimbursements should be properly documented and based solely on actual General Fund Expenditures.

(f) The School Activity Fund Custodian shall not use funds in one account for another purpose unless a transfer is granted as provided by law.

(g) Accounts may be established by the board of education of each district by whatever name or style it deems best suited to its needs for the revenue collected.

(h) A prenumbered receipt shall be obtained when a check is drawn against the Petty Cash Account, and all such prenumbered receipts shall be accounted for at the end of a fiscal year. If a prenumbered receipt is spoiled it should be marked "void" and attached along with others on which reimbursement is being claimed; the copy or stub should also be marked "void" if one is being used.

(i) A separate bank account may be established for School Lunch or other programs, but it shall be accounted for by the Activity Fund Custodian in charge and disbursements made as provided by law.

(j) A general or miscellaneous account may be established within the Activity Fund to which all unobligated or uncommitted monies may be transferred. (This does not include Petty Cash, Refund, or School Lunch Accounts where contrary to federal regulations.)

(k) Purchases from the School Activity Fund shall not be paid for unless invoices or delivery tickets are furnished.

(l) Receipts for collections shall be given by the School Activity Fund Custodian. Prenumbered tickets should be used for admissions in order to establish internal control. All tickets not sold by the gate keeper should be accounted for at the end of each event and a written reconciliation made of tickets sold to actual revenues collected. Reconciliation documents should be filed in date order as part of the documentation for the School Activity Fund.

(m) Standard forms are not prescribed. Many good forms are now in use, and each board of education shall determine if its forms meet the legal requirements.

(n) School districts shall report all School Activity Fund financial transactions using the Oklahoma Cost Accounting System.

(o) Specific procedures for the School Activity Fund are as follows:

(1) Prenumbered School Activity Fund receipts shall be issued for every Sub-Account for each fiscal year.

(2) The secretary-treasurer of each organization or Sub-Account shall issue receipts and keep records of credits, debits, and balances.

(3) The books of each account must reconcile the records of the School Activity Fund.

(4) Requisition or purchase request is presented to the School Activity Fund custodian or their designee.

(5) Purchase order is then approved by purchasing agent and the order is placed with the vendor.

(6) Checks will be issued only when invoice or supporting document and merchandise have been received.

(7) All checks will be issued by the School Activity Fund custodian and countersigned. No check will be issued in excess of Sub-Account balance.

(8) Record of all bad checks shall be kept and charged to proper Sub-Account.

(9) Each School Activity Fund Sub-Account shall be reported to the State Department of Education through curricular subject dimension of OCAS, where applicable. Reports will be transferred by magnetic media.

(10) The School Activity Fund custodian shall furnish a report to superintendent and board of education monthly. This report should show previous balance in each Sub-Account and total School Activity Fund balance. The Activity Fund custodian shall reconcile the bank statement when received. This information will be included in the monthly report to the superintendent and board of education.

(11) Every teacher in the school system should be informed that all money received is to be turned in to the School Activity Fund custodian.

(12) The petty cash account is the only Student Activity Sub-Account that can be reimbursed from the general fund.

(13) A general fund refund Sub-Account within the School Activity Fund may be established by board resolution.

I. The Department shall undertake activities annually to inform parents, schools and other stakeholders about the availability of school district and school site expenditure data on its website and how to use the website.

AVERAGE DAILY ATTENDANCE AND MEMBERSHIP DEFINED

Title 70, Section 18-107. Definitions

1. "Average Daily Attendance" (ADA) means the legal average number of pupils, early childhood education programs through grade twelve, in a school district during a school year as determined pursuant to the provisions of Section 70-18-111 of this title. A day of school for early childhood education programs and kindergarten shall be at least two and one-half (2 1/2) hours and, for early childhood education, may be six (6) hours.

2. "Average Daily Membership" (ADM) means the average number of pupils present and absent in a school district during a school year. Average Daily Membership shall be calculated by dividing the sum of the pupil's total days present and total days absent by the number of days taught. Provided, a pupil who has been absent without excuse ten (10) consecutive days shall be taken off the roll beginning the eleventh day and thereafter shall not be considered in a district's average daily membership calculation until the pupil is placed on the roll in the district. For the purpose of this paragraph, consecutive days means days for which enrollment is recorded.

3. "Total Adjusted Assessed Valuation" means the sum of public service property assessed valuation, personal property assessed valuation and real property assessed valuation as adjusted pursuant to the provisions of Section 70-18-109.1 of this title.

The calculation of indebtedness as provided for in paragraph a of subsection G of Section 70-18-113.1 and subparagraph a of paragraph 4 of subsection A of Section 70-18-113.2 of this title shall include the outstanding principal amount of bonds issued by the school district plus the principal amount of any bonds authorized by a vote of the people for issuance but not yet issued by the school district.

PER PUPIL EXPENDITURE

The aggregate student membership number shall be the count of students enrolled on October 1 or the school day closest to October 1 to whom school districts in the state provide a public education. The aggregate current expenditures shall include without limitation the following categories of expenditures:

1. Instruction;

2. Support services for students;

B. All firms, as defined by the Oklahoma Accountancy Act, before entering into audit contracts required pursuant to the Oklahoma Public School Audit Law, shall satisfy the State Auditor and Inspector that the registrant, as defined by the Oklahoma Accountancy Act, has an individual responsible for the audits of school districts who:

1. Has at least two (2) years of experience auditing public entities;

2. Has completed a minimum of eight (8) clock hours of continuing education credit in school district accounting and auditing as defined by the Governmental Accounting Standards Board (GASB) and the Office of the Comptroller General during the prior year; and

3. Is licensed by and is in good standing with the Oklahoma Accountancy Board.

C. Firms shall submit their application to perform audits of a school district with their most recent peer review, which must include the audit of at least one school district, if the firm has performed such an audit, and any letter of comment for approval or disapproval by the State Auditor and Inspector for the current audit year on or before the first day of January of each calendar year.

D. 1. Until June 30, 2014, all firms entering into audit contracts required pursuant to the Oklahoma Public School Audit Law shall carry a minimum of Two Hundred Fifty Thousand Dollars ($250,000.00) accountants' professional liability insurance or the total amount of the budget being audited, whichever is less.

It shall be the duty of the board of education of the local public school to make provision for payment of said expenses.

Title 70, Chapter 1, Section 22-106. Preparation of Budgets and Financial Statements.

The board of education may employ persons other than those enumerated in Section 70-22-102 of this article for the preparation of the estimate of needs and financial statement for presentation to the county excise board.

Should the State Auditor and Inspector find that the district board of education has failed to cause an annual audit of the financial statements and compliance requirements of the school district to be commenced, the State Auditor and Inspector shall make a written demand on the board to complete and file such annual audit of the financial statements and compliance requirements of the school district within thirty (30) days of the date of such demand.

Title 70, Chapter 1, Section 22-109. Examination of Reports – Deficiencies.

The State Auditor and Inspector shall examine all auditor's opinions and related financial statements submitted to it and shall determine whether the auditor's opinions and related financial statements comply with the provisions of the Oklahoma Public School Audit Law. If the State Auditor and Inspector finds that they have not been complied with, the State Auditor and Inspector shall notify the district board of education and the firm that submitted the auditor's opinions and related financial statements by submitting to them a statement of deficiencies. If the deficiencies are not corrected within ninety (90) days from the date of the statement of deficiencies or within twelve (12) months after the end of the fiscal year of the school district, whichever is later, the State Auditor and Inspector shall make or cause an audit to be made in the manner provided for in Section 22-108 of this title. Any school district audited pursuant to this section shall pay for the cost of the audit as provided by Section 212A of Title 74 of the Oklahoma Statutes.

and upon conviction, the court shall enter judgment that such person so convicted shall be removed from office or employment of the school district. L. PETITION AUDITS

1. The State Auditor and Inspector shall audit the books and records of any subdivision of the state of Oklahoma upon petition signed by the requisite number of voters registered in the subdivision and meeting the requirements set out in this subsection.

2. The petition must contain the number of signatures equivalent to ten percent (10%) of the registered voters of the subdivision as determined by the county election board or, if the county election board determines that the number of registered voters in the subdivision cannot be determined due to boundary lines not conforming to precinct lines, the required number of petitioners shall be twenty-five percent (25%) of the total number of persons voting in the last subdivision-wide general election held in the subdivision. If the subdivision is a public trust, the required number of petitioners shall be the same as those required for an audit of its beneficiary. The appropriate county election board shall provide the number of signatures so required upon request.

3. The petition shall be in the form of an affidavit wherein the signatory shall declare upon oath or affirmation that the information given is true and correct and that he or she is a citizen of the entity to be audited. The petition shall clearly state that falsely signing shall constitute perjury. It shall include the signature of the individual, the name of the signatory in printed form, the individual's residential address, the date of signing, the public entity to be audited and the anticipated range of the cost of the audit provided by the State Auditor and Inspector.

4. Any person desiring to petition for an audit shall list the areas, items or concerns they want to be audited, and request from the State Auditor and Inspector the anticipated range of cost of the audit. Within thirty (30) days from the receipt of the request, the State Auditor and Inspector shall mail a petition form to the person requesting the information which shall state the anticipated range of the cost and the items or concerns to be audited. The circulators of the petition shall have thirty (30) days from the date the petition is mailed by the State Auditor and Inspector to obtain the requisite number of signatures and return it to the State Auditor and Inspector.

5. Upon collection of the required number of signatures, the person desiring the audit shall present the signed petitions to the State Auditor and Inspector. Within thirty (30) days of receipt of the petitions, the State Auditor and Inspector shall present the petitions to the county election board located in the county in which the subdivision is located.

6. The county election board shall determine whether the signers of the petition are registered voters of the county in which the subdivision to be audited is located and whether the petition has the requisite number of signatures of such registered voters. The county election board shall certify the petition as having the required number of signatures or as failing to have the required number of signatures and return it to the State Auditor and Inspector.

7. The cost of the audit shall be borne by the public entity audited. Upon notification by the State Auditor and Inspector of receipt of the petition, certified by the county election board as having the required number of signatures, the public entity shall encumber funds in an amount specified by the State Auditor and Inspector, which shall be within the range of anticipated cost stated on the petition from any funds not otherwise specifically appropriated or allocated. Payment for the audit from such encumbered funds shall be made as work progresses, and final payment shall be made on or before its publication.

8. The names of the signers of any petition shall be confidential and neither the State Auditor and Inspector, the county election board nor the county treasurer shall have authority to release them to any other person or entity except upon an order from a court of competent jurisdiction.

M. PENALTIES FOR NONPAYMENT

Except as otherwise provided by law, the cost of any services provided by the State Auditor and Inspector shall be due and payable upon the publication of the audit. Any such costs not paid within ninety (90) days of the date of publication shall incur a penalty of Ten Dollars ($10) per day for each day from the date of publication.

Title 74, Chapter 8, Section 213. Examination of Public Institutions-Quality Control Reviews-Special Audits.

It shall be the duty of the State Auditor and Inspector to examine and report upon the books and financial accounts of the public, educational, charitable, penal and reformatory institutions belonging to the state; to prescribe and enforce correct methods of keeping financial accounts of the state institutions and instruct the proper officers thereof in the performance of their duties concerning the same; to examine the books and accounts of all public institutions under the control of the state at least once each year. Any officer of such public, educational, charitable, penal and reformatory institutions who shall refuse or willfully neglect to comply with such direction of the State Auditor and Inspector within a reasonable time shall be guilty of a misdemeanor.

B. Each board of regents of institutions in The Oklahoma State System of Higher Education shall require a quality control review of the internal audit function required pursuant to subsection D of Section 3909 of Title 70 of the Oklahoma Statutes for each institution under its governance at least once every three (3) years. This review shall be in accordance with the "Quality Assurance Review Manual for Internal Auditing" developed by the Institute of Internal Auditors or any successor organization thereto. A copy of the report on the quality control review shall be filed with the State Auditor and Inspector.

C. 1. The State Auditor and Inspector shall perform a special audit on elementary, independent, and technology center school districts upon receiving a written request to do so by any of the following: the Governor, Attorney General, President Pro Tempore of the Senate, Speaker of the House of Representatives, State Board of Education, or the elementary, independent, or technology center school district board of education.

2. The State Auditor and Inspector shall perform a special audit on any institution of higher education within The Oklahoma State System of Higher Education whenever the State Auditor and Inspector deems it appropriate or upon receiving a written request to do so by any of the following: the Governor, the Attorney General, the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the governing board of the institution of higher education, or the president of the institution of higher education.

3. The special audit shall include, but not necessarily be limited to, a compliance audit. Such audits shall be designed to review items for management's compliance with statutes, rules, policies and internal control procedures or other items applicable to each entity. The costs of any such audit shall be borne by the audited entity and may be defrayed, in whole or in part, by any federal funds available for that purpose.

D. In addition to any special audit conducted by the State Auditor and Inspector as provided for in subsection C of this section, the State Auditor and Inspector shall, contingent upon the availability of funding, perform a special audit, without notice, on not more than four common school districts each year. The special audit shall be in a form as determined by the State Auditor and Inspector.

E. The State Auditor and Inspector shall perform a special audit without notice on the office of any district attorney or on any division of the Department of Corrections upon receiving a written request to do so by any of the following: the Governor, the Attorney General, or joint request of the President Pro Tempore of the Senate and the Speaker of the House of Representatives. The State Auditor and Inspector shall perform a special audit without notice on any penal institution, corrections program, contract for service or prison bed space provided to the Department of Corrections, or any program administered by a district attorney's office or staff of such office whenever the State Auditor and Inspector deems it appropriate or upon receiving a written request to do so by any of the following: the Governor, the Attorney General, or joint request of the President Pro Tempore of the Senate and the Speaker of the House of Representatives. The special audit shall include, but not necessarily be

limited to, a compliance audit. Such audits shall be designed to review items for compliance with statutes, rules, policies and internal control procedures or other items applicable to each entity. The costs of any such audit shall be paid by the state agency and may be defrayed, in whole or in part, by any federal funds available for that purpose through any audited program.

Title 74, Chapter 8, Section 227.8. Payments for Services by State Agencies-Agreements-Deposits.

Notwithstanding the provisions of any other law, any state agency, board, commission, city or town, common school, technology center school, county, institution of higher education, public trust or political subdivision of the state may enter into agreements with the State Auditor and Inspector to perform audits, investigative or consultant services and the entity shall pay the State Auditor and Inspector for the services. Payments made by such entity shall be deposited in the State Treasury to the credit of the State Auditor and Inspector Revolving Fund created by Section 227.9 of this title. Expenses incurred in auditing such books and accounts, including compensation of necessary personnel, including consultants, or causing the books and accounts to be audited, shall be paid by the entity in the same manner as now provided by law for other disbursements.

OAC 210:25-5-5. Auditing.

(a) The statutes of the State of Oklahoma require the board of education of each school district to cause an annual audit of the district's financial activity. The audit must be made in accordance with State Statutes, State Board of Education Regulations and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 C.F.R. Part 200). The State Board of Education shall examine each audit report and demand corrections of any existing deficiencies. It is mandatory that State Aid payments be withheld during noncompliance with the "School Audit Law" at 70 O.S. § 22-101 et seq. (b) Auditing is process of examining documents, reports, systems of internal control, accounting and financial procedures, and other evidence to ascertain:

(1) That the statements prepared from the accounts present fairly the financial position and results of financial operations of each of the school's funds;

(2) That the school administration has properly complied with statutory requirements and the rules and regulations of the State Board of Education in the conduct of its financial transactions;

(3) That the school's financial transactions have been conducted with mathematical accuracy and have been properly recorded;

(4) That the school has complied with the terms of grants and special agreements;

(5) That adequate stewardship has been exercised by the school board, its officers and employees in the conduct of their duties in the administration of school assets.

(c) The audit must encompass all of the school district's funds. The requirements in (b) of this section form the basis for the reporting of the school's general, special revenue, capital projects, and debt service funds. School activity funds, including school lunch funds, and other trust or fiduciary funds must also be included in the audit report.

(d) The accounting principles by which all audits will be performed are as follows:

(1) The school district's accounting system must conform with the laws of the State of Oklahoma and the rules and regulations of the State Board of Education.

(2) The school district's accounting system shall make it possible to demonstrate compliance with legal provisions.

(3) The school district's accounting system shall clearly reflect the financial operations of the school district.

(4) If accounting principles, procedures, or standards conflict with legal or regulatory provisions, the legal or regulatory provisions shall take precedence.

(5) The accounting system shall be kept in the manner prescribed by the State Board of Education or in the manner of an accounting system approved by the State Board of Education.

(6) The school district shall establish the funds prescribed or authorized by law and necessitated by sound financial judgment. The classification of funds shall be faithfully followed in the Estimate of Needs, Accounting System and Financial Reports.

(7) A complete self-balancing group of accounts shall be established for each fund. Each such group will include all the accounts necessary to set forth the financial operations of the fund and to reflect compliance with legal and regulatory provisions.

(8) If a fixed asset fund is maintained, the accounts shall be kept on the basis of original cost, or the estimated cost if the original cost is not available, or in the case of gifts, the appraised value at the time received.

(9) The accounting system shall provide for budgetary control for both revenues and expenditures, and the financial statements will reflect, among other things, budgetary information.

(10) The accounts, except activity funds, shall be maintained on a modified cash basis in accordance with the laws of the state of Oklahoma or a school district may elect to file an application with the State Board of Education to convert to Generally Accepted Accounting Principles (GAAP) accounting. The State Board of Education will approve or reject the application based on the district's ability to implement the practice.

(11) Revenue and expenditures shall be classified in accordance with State Board of Education regulations in order to provide uniform accounting and consistent statistics.

(12) A cost accounting system is required. Cost accounting is in addition to a required financial accounting system, however, and must not be allowed to interfere with its uniform application. Although depreciation is not included in a required accounting system, it should be considered in determining unit cost when a cost accounting system is used.

(13) A common terminology and classification based upon that prescribed by State Board of Education rules and regulations, shall be used consistently throughout the estimate of needs, accounts, and financial reports.

(e) Primary audit procedures will consist of the following:

(1) Each Local Educational Agency (LEA) will engage an independent auditor, approved by the Oklahoma State Auditor and Inspector, to examine its financial statements. Each LEA superintendent shall notify the State Board of Education, prior to the end of the fiscal year to be audited, of the independent auditor who has been engaged to conduct the audit.

(2) Where there are differences in state and federal standards due to the statutory and regulatory requirements in both levels of government, the LEA and the auditor will examine and adhere to both in order to be in total compliance.

(3) The Oklahoma State Department of Education will establish and maintain a monitoring system to assure that federal and state audit requirements are met. The Oklahoma State Department of Education will review each audit report and notify the appropriate federal program administrator of any deficiencies reported by the independent auditor regarding federal programs. The administrator will implement the procedures deemed necessary to resolve the exceptions noted by the auditor. The final result of the action taken will be filed with the audit report no later than 90 days after the program administrator has been advised of the auditor's findings.

(4) The State Board of Education may make inquiries and request additional documentation and response related to exceptions, recommendations or comments noted by an auditor.

(f) Audit report requirements are as follows:

(1) Audit reports may be presented in the following formats:

(A) Schools which have obtained prior approval from the State Board of Education to use generally accepted accounting principles (GAAP), must use a straight GAAP Governmental Accounting Standards Board (GASB) No. 34 compliant presentation.

(B) Schools using the regulatory basis of accounting as defined by Oklahoma Statutes may use GASB 34 compliant audit report presentations.

(C) Schools using the regulatory basis of accounting as defined by Oklahoma Statutes may use another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. An example of a school district single audit report presented in conformity with another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education is available in the Financial Accounting Section, State Department of Education. Schools need only present the funds and note disclosures that apply to the specific district. The example is not intended to take precedence over professional reporting standards and requirements.

(2) Informational statements will specify:

(A) Board members and officers

(B) Statutory bonds

(C) Other fidelity or honesty bonds

(D) Insurance coverage

(E) Other desirable statements

(3) Size of audit report will conform to the specified dimensions:

(A) Length = Maximum, 11"

(B) Width = Maximum, 8 1/2"

(4) Each audit report shall be presented to and reviewed with the local board of education in a public meeting as required by law. Each audit report must contain a signed Acknowledgement Page on a form supplied by the State Department of Education. The Acknowledgement Page will verify the date the audit was reviewed with the local school board as well as the school board's acknowledgement that, as the governing body of the district responsible for the district's financial and compliance operations the audit findings and exceptions have been presented to them.

(g) Requirements specific to federal programs must be included in each audit.

(1) Federal regulations (Uniform Administrative Requirements at 2 C.F.R. Part 200 and OMB Compliance Supplement) require a financial and compliance audit of programs receiving federal funds. These regulations (in accordance with P.L. 98-502) ensure that audits be made on an organization-wide basis rather than a grant-by-grant basis and according to the standards and procedures expressed therein. The Oklahoma State Department of Education shall serve as the recipient agency for these purposes for the local education agencies. Overclaim assessments may be levied where necessary when there has been a lack of compliance and treated as a current expenditure.

(2) This rule and the adoption of the standards and regulations for audits of local boards of education does not limit the authority of federal or state agencies to make audits of programs in the local education agencies, and is in keeping with Uniform Administrative Requirements, 2 C.F.R. Part 200. Some state and local governmental units in Oklahoma prepare their financial statements in conformity with a comprehensive basis of accounting other than generally accepted accounting principles. The Uniform Administrative Requirements do not prohibit such practice; nonetheless, they require, as do generally accepted auditing standards, that auditors state in their report the departures from generally accepted accounting principles. However, any additional audit work must build on the work already done.

(3) The auditor should clearly understand that Uniform Administrative Requirements audits require the expression of opinions and inclusion of comments in audit reports which go beyond the standard opinions and comments usually presented. Specifically, the audit report shall include:

(A) Financial statements, including footnotes, of the recipient organization.

(B) The auditors' comments on the financial statements which should:

(i) Identify the statements examined, and the period covered.

(ii) Identify the various programs under which the organization received federal funds, and the amount of the awards received.

(iii) Identify by a schedule showing receipts and disbursements for each grant program.

(iv) State that the audit was done in accordance with the "General Accounting Office Standards for Audit of Governmental Organizations, Programs, Activities, and Functions," the "Guidelines for Financial and Compliance Audits of Federally Assisted Programs," any compliance supplements approved by OMB, and generally accepted auditing standards established by the American Institute of Certified Public Accountants.

(v) Express an opinion as to whether the financial statements are fairly presented in accordance with generally accepted accounting principles. If an unqualified opinion cannot be expressed, state the nature of the qualification.

(C) The auditors' comments on compliance and internal control should:

(i) Include comments on weaknesses in and noncompliance with the systems of internal control, separately identifying material weaknesses.

(ii) Identify the nature and impact of any noted instances of noncompliance with the terms of agreements and those provisions of federal law or regulations that could have a material effect on the financial statements and reports.

(iii) Contain an expression of positive assurance with respect to compliance with requirements for tested items, and negative assurance for untested items.

(D) Comments on the accuracy and completeness of financial reports and claims submitted to state or federal agencies for federal fund advances or reimbursements.

(E) Comments on corrective action taken or planned by the recipient.

(F) Comments as to whether the indirect cost rates are appropriately calculated and applied.

(G) Audit findings should be reported in accordance with 2 C.F.R. § 200.516, "Audit findings."

(4) These requirements are common to nearly all state and local funds and federal programs:

(A) Funds disbursed by other governments were received and properly identified.

(B) Interest earned on idle funds was credited to the proper funds.

(C) Unexpended funds or unearned federal funds advanced or overpaid were correctly accounted for.

(D) A system of encumbrance accounting was maintained which reported the amount obligated, disbursed, remaining unobligated balance, and outstanding unliquidated obligations for each fund and program.

(E) Obligations reported were actually incurred during the fiscal year or approved program period, and, upon liquidation, were properly adjusted.

(F) Payments reported: Were actually made to the vendors, contractors and employees; were supported by adequate evidence of delivery of goods or performance of services; and conformed to applicable laws and regulations, including procurement requirements.

(G) Refunds, discount, etc., were properly applied as reductions of the gross expenditures of the specific funds or programs.

(H) Costs, direct and indirect, were correctly prorated to the proper funds or programs.

(I) The same expenditure was not claimed under more than one program or reported as an expenditure for two fiscal or program years.

(J) Inventory requirements for materials and equipment purchased with federal funds were maintained.

Uniform Grants Guidance (UGG) 2 CFR Part 200 Subpart F Audit Requirements.

A non-Federal entity that expends $750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part.

Code of Federal Regulations (CFR) 3052.320 (A) General.

The audit shall be completed, and the data collection form described in paragraph (b) of this section and reporting package described in paragraph (c) of this section shall be submitted within the earlier of 30 days after receipt of the auditor's report(s) or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit.

EQUIPMENT PURCHASE

Title 70, Chapter 1, Section 15-106.1. Authority to Become Indebted to Purchase Equipment - Issuance of Bonds

Any school district may become indebted for the purpose of purchasing equipment and may issue its bonds, as provided for by law, in any amount not exceeding, with existing indebtedness, ten percent (10%) of the valuation of the taxable property within the school district, as shown by the last incurring of indebtedness. The bonds shall be made to mature within a period not to exceed five (5) years from their date. It is hereby declared that the use of the word "equipment" in Section 26, Article X of the Oklahoma Constitution was intended to include: library books, textbooks, school-owned uniforms, computer software, electronic media content, perpetual or continuous district software license agreements and web-based software subscriptions with a term of more than one (1) year but not more than five (5) years, the acquisition of telecommunications devices and components to be used to enhance classroom instruction and maintenance/service contracts which are included as a part of the equipment purchase price and any associated hardware and software necessary for implementation and training and any maintenance agreements. This provision shall not restrict a school district from issuing bonds with a maturity of greater than five (5) years for the purchase of equipment not listed in this section. If the maturity of the bond is greater than five (5) years, the maturity of the bond shall not exceed the effective life of any equipment purchased with the proceeds.

CAPITAL EXPENDITURES – NONCAPITAL EXPENDITURES

Title 70, Chapter 1, Section 1-117. Definition of General Fund of School District - Capital Expenditures – Noncapital

A. The general fund of any school district is hereby defined as a current expense fund and shall consist of all revenue or monies that can legally be expended within a certain specified fiscal year, but shall not be considered as including any money derived from a special building fund levy made in accordance with the provisions of Section 10 of Article X of the Oklahoma Constitution, nor shall it include any monies derived from the sale of bonds issued under the provisions of Section 26 of Article X of the Oklahoma Constitution. All monies derived from the proceeds of the school levies made pursuant to the provisions of Section 9 of Article X of the Oklahoma Constitution shall be placed in the general fund provided by this section. Expenditures from the general fund shall be noncapital in nature. All monies derived from state-dedicated revenue, state-appropriated revenue unless otherwise provided for by law, and county sources shall be placed in the general fund provided for by this section. Except as provided for in subsections K and L of this section, a district shall not be authorized to make capital expenditures as defined by this section from the general fund.

B. For purposes of this section, state-dedicated revenue shall be any registration or license fees, taxes, or penalties collected at the state level and distributed to common school districts. County sources shall be all funds collected by the county and distributed to common school districts but shall not include any funds derived from the building fund levy made in accordance with the provisions of Section 10 of Article X of the Oklahoma Constitution or funds derived from the sinking fund levy made in accordance with the provisions of Section 26 of Article X of the Oklahoma Constitution.

C. For the purposes of this section, a capital expenditure shall be an expenditure which results in the acquisition of fixed assets or additions to fixed assets. Capital expenditures shall include, but shall not be limited to, purchases of land or existing buildings, purchases of real property, improvements of grounds and sites for construction purposes, all expenditures for construction of buildings unless authorized by the State Board of Education or the State Board of Career and Technology Education upon application to the appropriate state board pursuant to subsection F of this section, additions to buildings, remodeling of buildings if such remodeling involves changes to roof structures or load-bearing walls, professional services, salaries and expenses of architects and engineers hired or assigned to capital projects except for such services, salaries and expenses as are applicable in preparation for a bond issue, expenditures for the initial installation and extension of service systems and built-in heat or air equipment to existing buildings, expenditures for the replacement of a building which has been destroyed, installments and lease payments on property, including interest, that have a terminal date and result in the acquisition of property, and expenditures for preliminary studies made prior to the time that authority to proceed with a construction project is given if authority is received within the same fiscal year that the expenditure was made.

D. Noncapital expenditures shall include, but shall not be limited to expenditures for maintenance, repair and replacement of property and equipment, initial or additional purchases of furniture and equipment, direct expenses for maintenance of plant, including grounds, salaries for maintenance of plant, including salaries for the upkeep of grounds, and repair and replacement of building structures which do not add to existing facilities and which do not involve changes in roof structures or load-bearing walls and which are not classified as a capital expenditure by this section.

E. The State Board of Education shall adopt and amend regulations regarding the classification, definition and financial administration of funds, accounts and expenditures in accordance with the requirements of this section.

F. A school district shall be authorized to make capital expenditures from the general fund to defray the cost of rebuilding a school building only if a school building or facility has been destroyed by a fire or natural disaster, such as flood, tornado or other act of God, or by an act of a public enemy of the United States or this state and monies received by the district through insurance coverage, federal reimbursement, contributions and allocation from the State Board of Education from the State Public Common School Building Equalization Fund are insufficient to rebuild the facility. Capital expenditures from the general fund pursuant to this subsection shall be limited to an amount necessary to defray the cost of rebuilding the facility which exceeds monies received by the school district through insurance, federal reimbursement, contributions and state allocations.

G. Schools which receive gifts or donations or state-appropriated monies for the purpose of capital expenditures or projects shall place such monies in the building fund, as provided by Section 1-118 of this title, and not in the general fund. School districts which receive gifts, grants, or donations of monies for noncapital expenditures may place the monies in the general fund, and such monies shall not be required to be used during the year in which the money was received but may accumulate from year to year and shall not be considered a part of the general fund collections when calculating the general fund carryover as provided for in subsection G of Section 18-200.1 of this title.

H. School districts which receive monies from rental, sale, or lease of buildings, impact aid monies, or grants, gifts or donations for capital purposes, whether from state, federal, or other sources, may place such monies in the building fund authorized by Section 1-118 of this title or the general fund authorized by this section.

I. Any construction of a building included as a capital expenditure from the general fund of a school district which is authorized and has had a contractual agreement concerning such construction executed prior to July 1, 1991, may be proceeded with and completed as authorized prior to July 1, 1991, as a capital expenditure from such general fund.

J. School districts receiving revenues authorized by Section 9B of Article X of the Oklahoma Constitution shall be authorized to make capital expenditures from the general revenue fund no greater than the amount levied by the incentive millage.

K. Upon the approval of the State Board of Education, a school district shall be authorized to make capital expenditures as defined in this section from its general fund if:

1. A bond issue has been rejected at an election by the school district electors voting on that question within the current school year, as certified by the secretary of the county election board; or

2. The school district has voted indebtedness at any time within the preceding three (3) school years through the issuance of bonds or through approval by voters of issuance of new bonds for more than eighty-five percent (85%) of the maximum allowable pursuant to the provisions of Section 26 of Article X of the Oklahoma Constitution as shown on the school district budget filed with the State Board of Equalization for the current school year and certifications by the Attorney General prior to April 1 of the current school year. The State Board of Education shall establish the rules to administer the provisions of this subsection which shall include, but not be limited to, specification of a maximum amount of general fund monies to be used for capital expenditures, the purposes for which such funds may be expended and the period of time in which such funds shall be encumbered.

L. Other provisions of this section notwithstanding, a school district shall be authorized to make capital expenditures from the general fund if the total assessed property valuation per average daily attendance is less than sixty percent (60%) of the state average total assessed property valuation per average daily attendance and if, for each year in which general fund revenue is used for capital expenditures, the district has voted the five-mill building fund levy authorized in Section 10 of Article X of the Oklahoma Constitution and has voted indebtedness through the issuance of new bonds for at least eighty-five percent (85%) within the last three (3) years of the maximum allowable pursuant to the provisions of Section 26 of Article X of the Oklahoma Constitution as shown on the school district budget filed with the State Board of Equalization for the current school year and certifications by the Attorney General prior to April 1 of the school year. Provided, the

maximum amount of general fund revenue used for capital expenditures pursuant to this subsection shall not exceed five percent (5%) of the total yearly revenue to the general fund. Said fund may not be used for capital expenditures for more than five (5) consecutive years and may only be utilized for remodeling or construction of classroom facilities and such ancillary facilities to said classrooms as may be necessary. Provided, further, the State Superintendent of Public Instruction shall certify in writing, prior to the expenditure of the funds for which provision is made in this subsection, that such expenditures are in compliance with the provisions of this subsection.

Case law provides that a debt is incurred as contemplated by Article X, § 26 of the Oklahoma Constitution when bonds are voted on, issued, approved and delivered; therefore, voters may authorize an amount of bonded indebtedness in excess of then percent (10%) of assessed valuation. Bonded indebtedness may, however, only be incurred up to the constitutional limit. *April 5, 2002 (2002 OK AG 14)*

Title 62 O.S. 2001, §§ 399 and 400 sets forth the specific method by which a public school can issue bonded indebtedness and the specific method, using the sinking fund of the school district, to retire bonded indebtedness. Bonded indebtedness represents long-term debt. The Legislature limits the use of the general revenue fund to expenditures for the current fiscal year. Therefore, the general fund may not be used to pay off bonded indebtedness. Neither the general revenue fund operating account nor the general revenue fund investment account may be used as a substitute for the statutory process to retire bonded indebtedness. *April 5, 2002 (2002 OK AG 14)*

2. By February 1 the State Department of Education shall send by certified mail, with return receipt requested, to each School District Superintendent, Auditor and Regional Accreditation Officer a notice of and calculation sheet reflecting the general fund balance penalty to be assessed against that school district. Calculation of the general fund balance penalty shall not include federal revenue. Within thirty (30) days of receipt of this written notice the school district shall submit to the Department a written reply either accepting or protesting the penalty to be assessed against the district. If protesting, the school district shall submit with its reply the reasons for rejecting the calculations and documentation supporting those reasons. The Department shall review all school district penalty protest documentation and notify each district by March 15 of its finding and the final penalty to be assessed to each district. 5. If a school district does not receive Foundation and/or Salary Incentive Aid during the preceding fiscal year, the State Board of Education may waive the penalty assessed in this subsection if the penalty would result in a

loss of more than forty eight percent (40%) of the remaining State Aid to be allocated to the school district between April 1 and the remainder of the school year and if the Board determines the penalty will cause the school district not to meet remaining financial obligations.

6. Any school district which receives gross production revenue apportionment during the 2002-2003 school year or in any subsequent school year that is greater than the gross production revenue apportionment of the preceding school year shall be exempt from the penalty assessed in this subsection, if the penalty would occur solely as a result of the gross production revenue apportionment, as determined by the State Board of Education.
7. Beginning July 1, 2003, school districts that participate in consolidation or annexation pursuant to the provisions of the Oklahoma School Voluntary Consolidation and Annexation Act shall be exempt from the penalty assessed in this subsection for the school year in which the consolidation or annexation occurs and for the next three (3) fiscal years.

9. Any school district which has an amount of carryover in the general fund of the district in excess of the limits established in paragraph 1 of this subsection during the fiscal years beginning July 1, 2020, July 1, 2021, July 1, 2022, and July 1, 2023, shall not be assessed a general fund balance penalty as provided for in this subsection
10. For purposes of calculating the general fund balance penalty, the terms "carryover" and "general fund balance" shall not include federal revenue.

GENERAL FUND CARRYOVER PENALTY

Calculation for Prior Year's General Fund Balance

Pursuant to 70 O.S. § 18-200.1, the State Department of Education (SDE) will send notification to each school district by February 1 of each year, detailing the calculation of the General Fund Carryover Penalty. Within 30 calendar days, each district will respond to the Department in writing, accepting or protesting the penalty amount. Districts will be notified by March 15 of the Department's findings, and the penalty will be assessed by April 1.

Any Penalty assessed for excessive general fund carryover will be determined by using data that will be extracted from a school district's Web-based data collection filed with the SDE (Financial Accounting/Oklahoma Cost Accounting System [OCAS]) and crosschecked with the Estimate of Needs filed with the State Board of Equalization and the Financial Accounting/OCAS Section of the SDE. (Examples of the calculation for determining the maximum allowable amount of General Fund Carryover follow.)

Title 70, Section 18-200.1 (Paragraph G):

"Any school district which receives an increase in State Aid because of a change in Foundation and/or Salary Incentive aid factors during the last two (2) months of the preceding fiscal year shall be exempt from

the penalties assessed in this subsection if the penalty would occur solely as a result of receiving funds from the increase in State Aid."

"If a school district does not receive Foundation and/or Salary Incentive Aid during the preceding fiscal year, the State Board of Education may waive the penalty assessed in this subsection if the penalty would result in a loss of more than forty percent (40%) of the remaining State Aid to be allocated to the school district between April 1 and the remainder of the school year and if the Board determines the penalty will cause the school district not to meet remaining financial obligations."

"Any school district which receives gross production revenue apportionment during the 2002-2003 school year **or in any subsequent school year** that is greater than the gross production revenue apportionment of the preceding school year shall be exempt from the penalty assessed in this subsection, if the penalty would occur solely as a result of the gross production revenue apportionment, as determined by the State Board of Education."

"Beginning July 1, 2003, school districts that participate in consolidation or annexation pursuant to the provisions of the Oklahoma School Voluntary Consolidation and Annexation act shall be exempt from the penalty assessed in this subsection for the school year in which the consolidation or annexation occurs and for the next three (3) years."

***70 O.S. § 1-117:**
"G. Schools which receive gifts or donations or state-appropriated monies for the purpose of capital expenditures of projects shall place such monies in the building fund, as provided by Section 1-118 of this title, and not in the general fund. School districts which receive gifts, grants, or donations of monies for noncapital expenditures may place the monies in the general fund, and such monies shall not be required to be used during the year in which the money was received but may accumulate from year to year and shall not be considered a part of the general fund collections when calculating the general fund carryover as provided in subsection G of Section 18-200.1."

(Please refer to the worksheet on the next page.)

Note: Legislation in 70 O.S. § 18-200.1 allows a school district to exceed the allowable percentage of carryover for two (2) consecutive years before a General Fund Balance penalty is assessed. However, we encourage you to annually keep your carryover amount within the allowable percentage in law.

Title 61, Section 101. (Short Title) Public Competitive Bidding Act of 1974.

This act shall be known and may be cited as the "Public Competitive Bidding Act of 1974." **(61-101)**

A public construction contract entered into between an Oklahoma public school and an out-of-state purchasing cooperative that does not comply with the specific terms of Oklahoma's Public Competitive Bidding Act of 1974 does not satisfy Oklahoma law, even if it follows that state's competitive bidding procedures. The existence of an interlocal agreement between the school and the purchasing cooperative pursuant to the Oklahoma Interlocal Cooperation Act, 74 O.S.2001, §§ 1001 - 1008, does not exempt a school from compliance with the Public Competitive Bidding Act of 1974. *December 19, 2008 (2008 OK AG 33)*

> Public Competitive Bidding Act does not apply to the awarding of a contract that exceeds fifty thousand dollars by a school district for routine janitorial and cleaning service at its public buildings, because such services do not constitute performing maintenance. *March 4, 2008 (AG Op. No. 08-3)*
>
> Vocational and technical school boards of education are not required to solicit competitive bids on contracts for supplies and materials; however, if the contract exceeds a value of $500, the contract must be in writing. *November 3, 1981 (AG Op. No. 81-195)*

The amount of public tax dollars committed to the project will not exceed a fixed amount established by resolution of the governing body prior to or concurrent with approval of the project;

>
> The term "force account" means the purchase of necessary materials, and the employment of necessary workmen, by the school district itself, rather than entering into a contract with a builder or other contractor to construct the building or other improvement. *AG Op. April 21, 1955*
>
> Addition to school building may be constructed from proceeds of bond issue on a force account basis, without a contractor or an architect. *AG Op. August 18, 1954*

Title 61, Section 111. Time for Awarding of Contract.

The awarding of a contract to the lowest responsible bidder or bidders shall be made within thirty (30) days after the opening of bids unless the governing body of the awarding public agency, by formal recorded action and for good cause shown, provides for a reasonable extension of that period, which extension period shall not in any event exceed fifteen (15) days where only state or local funds are involved, or not to exceed ninety (90) days on any award of contract for the construction of a public improvement where funds are utilized which are furnished by an agency of the United States Government. Upon mutual written agreement between the lowest responsible bidder or bidders and the awarding public agency, the Division may extend the contract award period no more than one hundred twenty (120) days from the bid opening date.

Title 61, Section 138. Noncollusion Affidavit Attached to Bid Submitted to School District, County or Municipality.

Any competitive bid submitted pursuant to the Public Competitive Bidding Act of 1974 to a school district, county or municipality for furnishing of goods or services shall be accompanied by the sworn noncollusion statement contained in Section 85.22 of this title, modified in wording to refer to the school district, county or municipality instead of the state.

Title 61, Section 220. Use of Construction Management by Board of Education of School District.

A. Any political subdivision or board of education of a school district may use construction management as a project delivery method for the building, altering, repairing, improving, maintaining or demolishing any structure or appurtenance thereto, or any other improvement to real property owned by that political subdivision or school district. For purposes of this section "construction management" shall be defined as set forth in Section 202 of this title and shall include both agency construction management and at-risk construction management.

B. A political subdivision or school district shall select a construction manager based on the professional qualifications and technical experience of the construction manager. Selection criteria shall include the experience of the candidate, past performance, and certification of the company or individuals within the company of their knowledge of recognized standards of construction, construction management and project management. Only firms recognized as qualified construction managers by the Department of Real Estate Services of the Office of Management and Enterprise Services pursuant to Section 62 of this title, may be considered for selection as a construction manager by a political subdivision or school district.

C. The construction management project delivery method may only be used for public construction contracts when the construction project meets the criteria established by Section 202.1 of this title, except that a political subdivision or school district shall not be required to obtain permission from the Director of the Office of Management and Enterprise Services.

D. When bids for a public construction project have been received from general contractors pursuant to the Public Competitive Bidding Act of 1974 and the lowest responsible bid is within the awarding agency's available funding, the awarding agency shall not reject all bids and award the project to a construction manager.

E. Construction management contracts, for both agency construction management and at-risk construction management, entered into by a political subdivision or school district pursuant to this section shall not be considered a public construction contract pursuant to Section 102 of Title 61 of the Oklahoma Statutes and shall not be subject to competitive bidding requirements as set forth in the Public Competitive Bidding Act of 1974.

F. All construction contracts or subcontracts for work to be performed for any political subdivision or school district pursuant to a construction management project delivery method shall be awarded in accordance with the provisions of the Public Competitive Bidding Act of 1974. If a construction manager at-risk wishes to self-perform portions of the construction work to be performed, the construction manager at-risk may self-perform portions of the work provided the construction manager at-risk competitively bids the work under the same terms and conditions as the other bidders and the construction manager at-risk is the lowest responsible bidder for the construction subcontract. No work shall commence until the school district executes a written contract and the contractor and subcontractors submit bonds and proofs of insurance as required by the appropriate contract.

A school district is not a construction entity contemplated by the statute to serve as a construction manager, and thus a school district may not use in-house personnel to act as the school district's construction manager. *October 22, 2010 (2010 OK AG 13)*

FY 2015 NEW REGULATION

IDEA section 613 (a) (2) (A) (iii) and 34 CFR § 300.203[1]

The level of effort a local education agency must meet under section 613 (a) (2) (A) (iii) of IDEA, in the year after it fails to maintain effort is the level of effort that would have been required in the absence of that failure and not the LEA's reduced level of expenditures.

Under this provision, if an LEA failed to maintain effort in 2019-2020, the level of effort that the LEA must maintain in 2020-2021 is the level of effort that it would have been required in 2019-2020 in the absence of that failure, and not the LEA's reduced level of Expenditures in 2019-2020.

FEDERAL FUNDS

Title 70, Section 18-104. Purpose of Funds - Federal Funds.

A. The funds apportioned and disbursed to the several school districts of the state shall be for the purpose of aiding each school district receiving the same to finance its school budget for each fiscal year. The State Board of Education shall notify the county clerk, the board of education, superintendent of each school district and the school district treasurer of the tentative amount said district is to receive from the funds apportioned under the provisions of this article and disbursed according to the provisions hereof. After such allocation of State Aid has been made by the State Board of Education and certified to the treasurer of the school district and district superintendent of schools, such aid may be included as probable income by the board of education in its Estimate of Needs and Financial Statement as submitted to the county excise board, and said excise board shall include such amount in the approved appropriations, and in addition thereto any federal aid certified or allocated by the State Board of Education shall be included in the appropriation made by the excise board if requested by the board of education; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy. If such allocation of aid is not included in the board of education's estimate of needs, it shall be added by the county clerk to the items of appropriation designated by the board of education of the school district. Funds received under the provisions of this article shall be deposited in the general fund of such school district. Provided, funds received from the federal government for current expense purposes shall likewise be added to the appropriation of the general fund if so designated by the board of education of such school district. Provided, further, that the board of education of a school district may enter into agreements with federal agencies for educational projects and programs to be maintained in such districts; and federal funds received by the district in pursuance thereof shall, consistent with the agreement and requirements of the federal agency, be kept, administered and disbursed in such manner as may be prescribed by rules and regulations of the board of education.

B. If the State Board of Education should ascertain that allocation of State Aid to any school district has so changed as to reduce its State Aid, then the State Board of Education shall forthwith notify the district superintendent, the clerk of the board of education, and the treasurer thereof, as to the amount of reduction in the allocation of State Aid. If there has been an overpayment the same shall be returned to the State Treasurer and credited to a refund account which shall be available for further payment of State Aid. Whenever it becomes necessary for a school district to refund any overpayment of monies previously received, the school district shall issue such warrant against a properly approved encumbrance in the manner provided by law. Such claim or encumbrance shall be coded as a refund of prior revenue and paid from the current expense appropriation of the general fund or such other fund or account from which such refund may properly be paid by the school district.

This document outlines claims procedures for Local Education Agencies (LEAs) submitting to the Oklahoma State Department of Education (OSDE). Following these best practices reduces errors and ensures prompt payment. Procedures are uniform across programs unless noted and have approval from relevant OSDE offices. LEAs not following these guidelines may face delays or denial of claims; OSDE may request additional documentation for reimbursement.

Technical Assistance

- Each office provides program-specific claims training annually.
- Each office provides additional technical assistance via phone and email throughout the grant cycle.
- Each office can provide onsite technical assistance upon request. Please contact the specific program office for more information.

General Claims Information

- Expenditures must be reasonable, necessary, and allocable.
- Expenditures (except indirect cost/administrative costs and fund transfers) will be allowed to exceed the approved budgeted function-object category by 25%, provided the sum of all expenditures does not exceed the total budget. The 25% was approved by the State Board of Education on June 26, 2014.
- All expenditures are subject to the program specific requirements of the Federal funds.
- Itemized invoices are required.
- Claims and supporting documentation are only accepted through the Grants Management System (GMS) on Single Sign-On.
- Copies of purchase orders are not required unless used as a contract.
- Images of checks are strongly discouraged. (Special Education High Needs Tier I require copies of checks)
- Zero-dollar claims are not required.
- Claims should account for all twelve months starting with July.
- Claims must begin on the first day of the month and end on the last day of the month.
- Date range entered in GMS must match the date range on the uploaded Summary and Detail Expenditure Reports.
- Claims must be signed by the local board of education-approved authorized official who is legally authorized to bind the local education agency.
- At least one claim should be filed by **November 15th** for each federal program.
- LEAs that have not filed a claim by **November 15th** will be contacted. **This does not apply to Special Education.**

Claim Deadlines

- There will be no budget revisions made to the Fiscal Year applications after June 30th .
- Expenditures that are claimed but are not reflected in the budget application after this date must be removed from the claim and will not be reimbursed.
- June 1st is the last day for LEAs to file a payable claim with the OSDE to guarantee LEA receives payment by June 30th.
- August 1st is the last day for LEAs to file a payable claim with the OSDE for the Fiscal Year.
- The Oklahoma Administrative Code does not contemplate or allow for late claim submissions.
- Payment of late claims submitted after August 1st is subject to the approval of the State Board of Education.
- Final Fiscal Year closeout procedures must be completed by September 1st.

Note: Deadlines that fall on a weekend or national holiday will be moved to the next business day.

Carryover

Subgrants of federal funds to LEAs are available for obligation for two state fiscal years (27 months). Allocations to LEAs for the first fiscal year (12 months) must be obligated as current year funds. Any balance of the first-year funds unobligated by June 30th will remain available as first year carryover for a second fiscal year (12 months). Any balance of the first-year carryover funds unobligated by June 30th will remain available as second year carryover until September 30th (3 months).

- Competitive Federal Subgrants, such as 21st Century, Striving Readers, and School Improvement Grant 1003(g), have program-specific guidance that allows for alternative carryover timelines.
- Title I Part A also has program-specific carryover limitations.
- It is recommended that LEAs check with the specific program for detailed carryover information.

GMS Reimbursement Request

- Information in the GMS system should match the information on the Summary Expenditure Report produced by the LEAs local cost accounting system.
- Indirect costs cannot exceed allowable maximum per claim and can only be claimed based on the direct costs for each reporting period.
- The LEA is required to attach Summary and Detail Expenditure Reports and supporting documentation.
- The Office of Title Services & Competitive Grants requires expenditure reports to include site level expenditures.
- Claims should be reviewed by LEAs for accuracy and allowability before being submitted to OSDE.

UEI – Unique Entity Identifier (DUNS/SAMS)

- LEAs are required, in accordance with 2 CFR Part 25, to use their Unique Entity Identifier as the primary means of entity identification for Federal award government wide.

- If you have an inactive registration or need to update your registration, you must ensure that your renewal or updates occur on time and as required. If you have a registration, you already have a UEI. If your registration has expired, you can access instructions addressing how to renew your entity registration at: How to Renew or Update an Entity.
- No claims can be paid with an expired UEI.

Coding

- Function/Object Code must align with the expenditure description.
- LEAs should consult the most current Oklahoma Cost Accounting System (OCAS) manual for coding.
- LEAs are encouraged to contact the program office with specific coding questions.

Uploaded Supporting Documentation

- Supporting documents must be in PDF format to upload in GMS.
- Scanned images must be clear and legible.
- Supporting documents should be uploaded in the same order as the expenditures appear in the claim.
- The Purchase Order Date (that appears on the Detailed Expenditure Report) must be before the services were rendered. [Oklahoma Administrative Code (OAC) 210.25-5-10]
- Blanket Purchase Orders should be the same purpose and same vendor.
- The Warrant Date (that appears on the Detailed Expenditure Report) must be on or after the purchase order date. [OAC 210:25-5-10]
- Do not name uploads with special characters (!@#$% & ?). GMS does not recognize these characters and the claim will be returned.
- Do not use a highlighter on documentation. When scanned, the highlighter may make the document illegible, and the claim may be returned.
- If the amount being claimed is less than the amount on the actual invoice/receipt, or if the amount is being divided between projects, please indicate this on the invoice/receipt.
- LEAs should add the word "revised" or "corrected" when attaching a revised upload to a claim.

When approving claims for reimbursement, the OSDE will consider the US General Service Administration (GSA) rate as the reasonable and necessary rate for reimbursement. Check the GSA rate for hotel and food: https://www.gsa.gov/travel/plan-book/per-diem-rates.

- Hotel
  - Hotel taxes for in-state travel may not be reimbursed with federal funds. Out-of-state hotel taxes are an allowable cost for reimbursement with federal funds.
  - An itemized, $0 balance receipt should be retained on file with the travel claim at the LEA.
- Airfare
  - Fees for insurance and travel agent bookings are not allowable with federal funds.
- Ground Transportation
  - Transportation expenses such as taxis, Lyft/Uber, subway, trolly, bus fare or shuttles related to professional development activities are allowable from the airport to the hotel/conference facility only.

- Meals
  - If the conference provides a meal, that meal should be deducted from the per diem rate.
  - If the travel policy of the LEA is to reimburse for actual meal cost, the GSA rate for that meal will be considered the reasonable and necessary rate for reimburse.

- Additional Travel Guidelines
  - A unique purchase order must be established for each vendor being paid (e.g. John Smith, Susan Johnson, McDonalds, Southwest Airlines). A credit card is the form of payment, not the vendor.
  - If necessary, airfare, one night deposit for hotel reservations (if applicable), and conference registration may be paid in advance.
  - "Real-time" expenses, such as per diem/meals & incidentals, luggage fees, taxi, airport fees, etc. cannot be paid in advance.
- Documentation Required for Reimbursement of Travel
  - When requesting reimbursement for travel expenses (airfare/hotel/per diem) in the same month as the registration fee, the individual registration invoice for the traveler will suffice as claim documentation. All other documentation must be retained by the LEA/organization for monitoring or audit and may be requested during the claim review process.
  - If the airfare/hotel/per diem/real-time expenses are paid on different claims, the registration invoice/agenda with participant names must be submitted again with the new claim and again, all other documentation must be retained by the LEA/organization.
- Other Purchased Services
  - For all purchases of services other than travel, an itemized invoice must be uploaded.
  - All travel expenses such as hotel, airfare, per diem, real-time expenses related to professional development activities must be accompanied by the registration invoice/agenda which will list the name of the activity and all the participants' names.
  - If airfare/hotel/per diem/real-time expenses are paid in the same month as the registration fee, the registration invoice will suffice as documentation.
  - If the airfare/hotel/per diem/real-time expenses are paid on a different claim, the registration invoice/agenda with participants' names must be submitted again with the new claim for the month these expenses are claimed.
  - If necessary, airfare, one night deposit for hotel reservations (if applicable), and workshop registration can be paid in advance.
  - "Real-time" expenses, such as per diem/meals and incidentals, luggage fees, taxi, airport fees, etc. cannot be paid in advance.
  - Transportation expenses, such as taxis, Lyft/Uber, subway/trolley/bus fare related to professional development activities are allowable from the airport to the hotel/conference facility only.

Note:

- ✓ Alcohol, gum, candy, snacks, souvenirs, jewelry, and personal expenses are not allowable and will not be reimbursed.
- ✓ Transportation expenses to restaurants, shopping, and entertainment areas are not allowable and will not be reimbursed.

Object Code 600 — Supplies

- All invoices and receipts for supplies must be attached.
- Itemized warranties that exceed one year are not allowable.
- Licenses and subscriptions must take place in the fiscal year funded to be allowable for reimbursement.
- It is recommended that LEAs work with their vendors to ensure that all annual licenses and subscriptions intended for reimbursement with federal funds are from July 1st to June 30th.
- Food is not generally an allowable purchase from federal funds. For food to be allowable, it must meet the program objectives of the specific grant. It is recommended that LEAs check with the specific program office for allowability.

Note: ✓ Gift cards/gift certificates expenditures are not allowable and will not be reimbursed.

Object Code 700 — Property

- All invoices for property must be attached.
- "Property" is defined as capitalized items with a value over $10,000 per single item.
- Proper coding to object code 700 will depend on the way the invoice is issued.
  - [EXAMPLE] If there is a break-down per item, and each item is under $10,000 (such as 25 computers x $500 each, total $12,500), then object code 600 will be used, regardless of the total amount of the invoice. If the invoice says for example computers for $12,500 then object code 700 will be used, as the invoice reflects a single item with a value greater than $10,000.
- Indirect Cost (IDC) is **not** calculated against property.

Object Code 800 — Other Objects

- All applicable invoices or receipts must be attached.
- Registration for a professional development activity requires an invoice with the participants' names listed.
- Tuition Reimbursement requires a copy of the college transcript, showing the name of the student, the name of course complete, and a passing grade.

LEAs should verify with each program, as some federal programs like 21st Century prohibit tuition reimbursement.
