Lansdale, PA 19446

Joyce Amici, Principal

Methacton High School

Grades 9-12: The High School campus houses students in grades 9 through 12. Individualized schedules are provided to all students that reflect a strong core curriculum with the flexibility to explore various academic and personal interests. Vocational-technical training is available through the North MontCo Technical Career Center to develop occupational and career skills and to prepare students for further education in related fields. The counseling staff offers a full range of services for college and career readiness standards for every student. Extensive technology applications include one-to-one Chromebooks for all students in grades 9 through 12 and full range of STEM based curricular offerings. Methacton High School offers a robust Advanced Placement program, with 23 courses currently offered. A complete telecommunications studio provides daily student broadcasts integrated with courses designed to prepare students for the twenty-first century. Students also participate in a wide variety of co-curricular programs including interscholastic sports in the Pioneer Athletic Conference, and a nationally recognized Community Service Program all focused on preparing students to be lifelong learners.

Arcola Intermediate School

Grades 7-8: The intermediate school program is organized by teams in both seventh and eighth grades. Teachers of social studies, science, math and ELA (English Language Arts) comprise each team in both grades. In addition to daily classes in these subjects, each Arcola student will participate in a rotation of expressive arts, physical education and health classes throughout each year. Two full-time counselors provide school guidance and support services. Numerous clubs and opportunities for remediation and enrichment are offered to students each day during advisory period. Additionally, a comprehensive music program and opportunities to try out for seasonal PIAA sports teams are available to all students.

Skyview Upper Elementary School

Grades 5-6: At Skyview, students are organized into teams, with five teams in each grade level. A typical fifth and sixth grade student day includes instruction in English Language Arts, Math and Social Studies or Science. Special area classes include art, music, technology education, computer literacy, library, health and physical education. Each team has dedicated "flex" time throughout the six-day cycle as well as a daily "Hawk Huddle" to provide the opportunity for extension and supports. Each grade level eats lunch together in the Arcola cafeteria and all students have 10 minutes daily recess with their team.

Elementary Schools: Arrowhead / Eagleville / Woodland / Worcester

Grades K-4: The curriculum at the elementary school level includes: English Language Arts (reading, writing, listening, and speaking), mathematics, science, and social studies. The keystone to our elementary program is a balanced literacy approach that emphasizes the acquisition of a scope and sequence of skills and strategies within the context of reading and writing to ensure that our students become lifelong learners and problem solvers. A developmental guidance curriculum is taught by counselors at all grade levels.

Beyond the regular day, the elementary schools have a co-curricular program that includes special area teachers in art, vocal music, instrumental music, specialized curricular areas, and health and physical education. Instructional assistants support teaching efforts in many ways. Methacton elementary schools are equipped with laptops, iPads, and Smart boards in addition to networked desktops as part of an integrated approach to technology instruction.

Methacton Schools and Administrative Building Map

Our Board of School Directors

The Methacton School District Board of School Directors determines the policies that guide the spirit of public education in our District. As elected officials, school board members must answer to the electorate and to the Pennsylvania Department of Education. Residents of the District elect nine school directors at-large to serve four-year terms. Board members receive no compensation.

The Methacton School District's Board of School Directors meets each month. Committee meetings of the Board are typically held within the first two weeks of the month, followed by the work session board meeting on the third Tuesday of the month, and regular board meetings are held on the fourth Tuesday (except during the month of December). Regular Board meetings take place in the MHS LGI, and all residents are invited and encouraged to attend. Committee meetings may take place in the Board Room at the Farina Center, or the MHS LGI. Meeting agendas are posted to Agenda Manager, and start times and locations are posted on the District's website. Please confirm meeting time and location before attending.

Our History

The Methacton School District has long enjoyed a tradition of excellence in education and community involvement in our schools. The District, formed in 1969, was created by a 10-year merging the school districts that had previously served the Townships of Lower Providence and Worcester. Methacton School District is located approximately 25 miles northwest of Philadelphia and seven miles east of Valley Forge. Its residents are largely middle to upper middle income. The 32-square mile District includes a population of 38,000. "Methacton" is an American Indian word referring to the "hill" area extending from Eagleville in Lower Providence Township through the Fairview Village area of Worcester Township, one of the highest elevations in Montgomery County. The name was chosen by a majority vote of District residents.
