

Dear Third Grader,

Hello! My name is Mrs. Clausen and I will be your third grade teacher! I am really looking forward to getting to know you and working with you this year.

I hope you had a wonderful and restful summer. I had an amazing summer! I spent my summer with my husband Jeff and our 2.5 year old son, Robby. We spent a lot of time swimming, playing at the park, going on hikes, reading plenty of books, and going to the beach! I can't wait to hear all about your summer!

This year, we will have a blast together doing a great amount of reading, writing, and math. In social studies, we will study: cultures of the world, geography, and the United States. In science, we will investigate weather, life cycles, eco-systems and forces. We will learn all about multiplication and division too! You will be so excited about the activities that are planned for the upcoming school year.

I look forward to meeting you on Wednesday, September 2nd. Our classroom is located on the first floor, room #16 at the end of the hall.

Enjoy the rest of your summer. Stay well, have fun, keep cool, and get ready for an awesome year!

Love, Mrs. Clausen

P.S. If you can, please bring a pair of headphones to leave in the classroom.
