2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2025-26 School Description and Mission Statement

TEEL school's Vision and Mission Statements

TEEL recognizes that each student is an individual, that all students are creative, and that all students have a right to succeed. We focus on the development of academic, social, and character skills to optimize each student's potential. We are committed to providing a quality education that will prepare students for a college and career-ready environment.

School Profile

TEEL School provides an innovative, student-centered educational model designed to meet the diverse academic and social-emotional needs of its students and families. The school offers two distinct programs; the Community School Program and the Military-Themed Program. Each providing targeted instructional and support services for at-risk youth and students requiring alternative educational settings.

The Community School Program serves middle school (grades 6–8) and high school (grades 9–12) students in an alternative education setting. The program provides standards-aligned academic instruction while offering flexible, individualized supports designed to re-engage students and address their unique academic, social, and emotional needs. Smaller class sizes promote personalized instruction, strong teacher-student relationships, and a supportive learning environment that fosters student success.

The Military-Themed Program integrates leadership, character development, and structured learning environments, and includes two components: Stanislaus Military Academy (SMA): Serves students in grades 9–12 and Tactical Character Academy (TCA): Serves students in grades 6–8. Both SMA and TCA provide daily classroom instruction combined with leadership training, character education, and community service opportunities. Students are guided by five core values; Commitment, Courage, Discipline, Honor, and Respect, which are applied throughout the school day and reinforced in extracurricular activities.

Students who need or desire Independent Study have that opportunity at various sites throughout the county. Our program offers independent study at TEEL, Turlock, Patterson, as well as the Stanislaus Culinary Arts Institute (Oakdale Site). Those

2025-26 School Description and Mission Statement

students can choose traditional IS or a modified IS option. In the traditional IS option, students attend at least one hour per week but may come as often as needed. In a modified option students come in daily, if desired, and participate in a variety of hands-on activities offered by instructors at the site.

Class sizes at TEEL are generally smaller, allowing for more teacher and student interaction. In our SMA and TCA classes we have both a credentialed teacher as well as a Drill Instructor in each classroom. It is common to have a resource specialist in the classroom providing support to special needs students as well. In addition to academic supports, TEEL has an instructional coach on campus to support teachers in their instruction. TEEL students are provided additional resources to help them achieve success in a variety of ways. Students have virtually unlimited access to an academic counselor, career navigator, mental health clinician and a student support advocate.

The site itself is a closed campus that has but one entrance and exit located at the front of the school. All other access points remain locked throughout the school day. Student safety and security is paramount. Student success is the focus of the staff at TEEL school. With the wide array of educational services that we provide, students and their families are likely to find a program designed to meet their unique needs. Our teachers and staff are always dedicated to serving our students and their families. Our goal is to provide a quality educational program for all students.

TEEL School is a school-wide Title I program. As a result, we receive additional funding, and students at this site receive free breakfasts and lunches. The additional funding allows us to provide experiences outside the school that might not be available otherwise.

During the 23-24 school year, TEEL school completed a Western Association of School and College (WASC) accreditation review and was awarded a 6 year accreditation, with a mid-cycle visit. Accreditation is the process used to ensure that schools and colleges meet and maintain minimum standards of quality and integrity regarding academics, administration, and related services. Both federal and state governments recognize accreditation as the mechanism by which institutional and programmatic legitimacy are ensured

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

SMA is a Blended Learning Community (BLCs) that provides engaging, online curriculum to our students. It offers innovative learning solutions to our school, including the ability to introduce new courses, fix scheduling conflicts, and provide opportunities for students to make up credits. Direct instruction is provided in addition to the virtual course. Students receive regular instruction from their teacher and the drill instructors assist with classroom management. Chrome books are ordered initially based on enrollment counts of students and extras are ordered throughout the life of the adoptions due to enrollment surges and/or Chrome book loss especially through our Independent Study program option. Every student has access to a Chrome book and materials of their own.

School Facility Conditions and Planned Improvements

TEEL school has 10 classrooms to serve approximately 180 students. We have adequate space for teaching, and have facilities such as a gym and cafeteria. The perimeter is fenced to provide additional security for students. The appearance and cleanliness of the school has been enhanced by students taking responsibility for their school environment. TEEL school received an overall rating of 97.92% on the last FIT report.

B. Pupil Outcomes	State Priority: Pupil Achievement
	The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4): Statewide Assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities). The CAASPP System encompasses the following assessments and student participation requirements: 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven. 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven. 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve). College and Career Ready The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 Career Technical Education Programs

The Stanislaus County Office of Education provides a comprehensive Career Technical Education (CTE) program that integrates rigorous academic instruction with technical and occupational training to improve student achievement, graduation rates, and postsecondary readiness. The program is designed to help students develop the academic, career, and technical skills necessary to succeed in a modern, skill-based economy.

CTE pathways offer strong academic foundations alongside hands-on industry experience, preparing students for high-skill, high-wage, and high-demand careers. Opportunities are offered through a variety of formats, including Linked Learning pathways, apprenticeship and pre-apprenticeship programs, Regional Occupational Centers and Programs (ROCP), partnership academies, and other initiatives that support career exploration and workforce preparation.

The state's CTE Model Curriculum Standards integrate academic content with industry-specific knowledge across 15 career sectors and 58 pathways, providing clear guidance for curriculum, instruction, and assessment.

Programs Offered:

- Culinary Arts I & II
- Greenhouse Management
- Construction Trades I & II
- Welding I & II

2024-25 Career Technical Education Programs

- Robotics I & II
- Small Engine Repair

While not all programs are available at every site, Teel School provides transportation to ensure all interested students have equitable access to CTE opportunities.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 9	37	100	100	88.9	100

C. Engagement	State Priority: Parental Involvement The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.
-----------------------------	--

2025-26 Opportunities for Parental Involvement
A vital component of supporting student success is cultivating strong parent involvement. When new students enroll, we meet with both the student and their parent or guardian to identify individual needs and determine the most appropriate supports. All prospective students and their families participate in an informational orientation, during which expectations, resources, and program structures are reviewed. From the outset, a collaborative team is established between the school, the student, and the parent to ensure that each student receives consistent guidance and encouragement. Parents are encouraged to engage in a variety of school activities, including our monthly Perfect Attendance Luncheon. During this event, students are recognized for achieving perfect attendance and for demonstrating our core values of Commitment, Discipline, Honor, Respect, and Courage. Honorees and their parents are invited to a special lunch with the Principal in celebration of their achievements. Families are also invited to serve on the School Site Council, which is composed of parents, teachers, and staff members and plays a key role in setting school goals and determining how they will be met. Our school maintains an open-door policy and communicates regularly with families regarding attendance concerns, academic progress, and any issues requiring attention. We recognize that students thrive when their parents are actively engaged in their education, and we encourage participation in all school activities, including new-student orientation, Back-to-School Night, and graduation ceremonies. TEEL further supports families through a full-time Student Support Advocate from the district office who welcomes students and parents and assists with community outreach, including engaging families who may be hesitant to participate. In addition, TEEL employs a full-time mental health counselor and a full-time academic guidance counselor who are available to support both students and their families. A dedicated Sheriff's Deputy is also assigned to the school to provide assistance, answer questions, and help connect families with additional community resources.

2025-26 School Safety Plan

The vision at TEEL School is to be a peaceful campus and place where diverse groups of people are able to work and learn together in cooperation and unity. The school will be a safe place where meaningful instruction and student learning flourishes. This school will be a source of pride for the students who attend, their parents who visit, and teachers and other staff who work here, and the surrounding community in which the school exists. This Comprehensive School Safety Plan was developed collaboratively with all SCOE schools and adopted by the Stanislaus County Board of Education on March 12, 2024.

Professional Development

Professional development opportunities are coordinated and conducted twice monthly and focused on instruction to improve student achievement. Topics include but are not limited to new laws and procedures, educational platform training, EL strategies, artificial intelligence, and Ethnic Studies. Principals and other division leadership staff offer faculty opportunities to attend conferences on subject related areas. It is a division goal for all staff members to feel confident about the curriculum they are teaching as well as to provide opportunities for the staff to learn ways to more effectively serve our alternative education population academically, emotionally, and physically.

An Instructional Coach is utilized as a cornerstone of this strategy, performing a vital, non-evaluative role focused exclusively on elevating the quality of teaching and learning at the school site. This position functions as a job-embedded professional development resource, ensuring the consistent implementation of best practices and the maximization of student outcomes.

The scope of the Instructional Coach's impact is defined by core responsibilities, including:

- *Targeted Coaching and Mentoring
- *Curriculum and Standards Implementation
- *Modeling of Best Practices
- *Data Analysis and Action Planning
- * Facilitation of Resources and Training

Through the deployment of this comprehensive support structure, the Instructional Coach is instrumental in fostering a robust culture of continuous instructional improvement, thereby ensuring that every student benefits from highly effective and engaging
