Section A: Comprehensive Opt Out: You may prohibit the District from publicly disclosing any "directory information" about your student by checking the opt-out box, signing, and returning it to the school office no later than October 10th. By completing this section, your student's name and photograph will not appear in the school yearbook or in other school-produced publications available to the public.

IMPORTANT: *If you want your student to be included in school publications, but excluded from school directories and/or District photographic productions/media interaction, you should sign one or both "Limited Directory Information Opt-Out" forms, which are described below. You may also wish to exclude your student from information provided to military recruiters.*

Section B: Limited Opt Out : Exclude student from photographic productions and other publicity, and interactions with local news media. SECTION 2: ACCEPTABLE USE OF TECHNOLOGY AGREEMENT

Parent and Student Information: Please read together, sign and return this document to the school. This document, identified in Policy 3612 "District Provided Access to Electronic Information Services and Networks," is also available online at www.mcpsmt.org.

While at school, students should use personal and school-provided electronic devices to support teaching and learning. Missoula County Public Schools believes that all students should have the ability to enrich their education through the collaboration and exchange of information accessible through technology. Successful use of technological resources occurs when users act in a responsible, efficient, courteous and legal manner, and regard the system as a shared resource. Users must cooperate to form a community of diverse interests with common purpose of advancing education. It is, therefore, imperative that all users conduct themselves in a responsible, ethical, and polite manner.

The following are our agreements about the use of technology in MCPS schools:

General Hardware Use

- I will not damage, change, tamper or interfere with school-provided hardware, software, settings or the network in any way.
- I will keep my passwords private.

General Network Use

The network is provided for students to conduct research, complete assignments, publish their work and communicate. Access to network services is given to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Access is a privilege - not a right. As such, general school rules for behavior and communications apply, and users must comply with District standards and honor the agreements they have signed. Network storage areas are similar to school lockers, and there should be no assumption of privacy. Network administrators may review and, if necessary, delete files and communications to maintain system integrity and ensure that the system is used responsibly.

- I will not save software to destabilize the filter, games, porn, media with sexual references, violence, drugs, profanity, and degrading or demeaning media in shared or individual student drives. These include executable files, text, graphic, video, and audio files.
- I will not trespass in or harm another student's folders, work or files.
- I will not waste limited resources, such as disk or server space, time, bandwidth or printing capacity.
- I will use the network in accordance with other school rules/and or district policies.

Internet/World Wide Web/E-mail Access/Personal Electronic Devices

Access to the Internet, and email for educational purposes when appropriate, will enable students to use thousands of libraries, databases and correspondence with experts in their field. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive. Our intent is to make Internet access available to further educational goals and objectives. Filtering software is in use, but no filtering system is capable of blocking 100 percent of inappropriate material available on the Internet. The district believes that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed the disadvantages.

- I will not seek, view, send or display offensive messages or media.
- I will use my personal email account or any personal electronic device during the instructional day for educational purposes and only in accordance with school rules and/or District policy.
- I will not use any District provided form of electronic communication to harass, intimidate or bully anyone at any time.
- I understand email services are available through the District for students to support teaching and learning and acceptable communication. I understand that my District provided email (and communications using the District network for transmission or storage) may be reviewed and/or accessed in accordance with this policy.

Publishing to the World Wide Web

Student work may be considered for publication on the World Wide Web (in accordance with Policy 3600 Maintenance of Student Records and MCPS Website & Social Media Guidelines) on a school or classroom website. In the event anyone requests permission for copyright use of individual student work, those requests will be forwarded to the student's parent/guardian.

- I will obey copyright laws. I will cite sources.
- I will act safely by keeping personal information out of my web projects, unless authorized by my instructor. I will not post personal photos or videos, unless authorized by my instructor.
- I will act safely by keeping personal information out of my web projects. I understand that I am not prevented from providing this information only as necessary to gain authorization for use of the web tool.
- I will treat blog and wiki spaces as I do a classroom space, and I will use appropriate and respectful language, subject matter and materials.
- I will notify a staff member immediately if I encounter materials which violate the rules of appropriate use.
- If I post a link in a blog, podcast, video-cast or wiki, I will have reviewed the linked website to be certain that it is appropriate for the school community.

Terms of Agreement

Acceptable uses of technology are devoted to activities that support teaching and learning. The following are agreements about the use of technology in MCPS schools:

- Using electronic devices correctly and responsibly is very important. Electronic devices may include, but are not limited to, a telephone, cellular phone, computer, pager, iPod, tablets, mp3 or audio-video players and cameras.
- As a student, I promise to follow the terms of this agreement and am prepared to be held accountable for my actions and for any loss of privileges if these terms are violated.

SECTION 3: EXTENDED DIGITAL CURRICULUM RESOURCES

Parent Information

The Missoula County Public Schools utilize various digital curriculum resources for students, teachers, and staff. These online software tools are used to support your child's digital skills and engage them in quality and safe learning. As with any educational endeavor, a strong partnership with families is essential to a successful experience.

In order for students to use these programs and resources, certain personally identifiable information (PII) must be provided to the website or software application operator. This is generally the student's name and District- issued email. The District will provide only the minimum information required to access the educational materials and applications. The Children's Online Privacy Protection Act (COPPA)1 requires these websites to provide parental notification and obtain parental consent before collecting personal information from children under the age of

13. The law permits schools to consent to the collection of personal information for non- commercial purposes on behalf of all of its students, which eliminates the need for individual parental consent given directly to the website or software application operator. The District will not consent on your behalf to websites or applications collecting personal information regarding your child for commercial purposes. COPPA requires that a website or application seeking to collect personal information for a child under 13 years of age must obtain consent directly from the parent or guardian.

In addition, there is the Montana Pupil Online Personal Information Protection Act, MCA §§ 20-7-1323 – 20-7-1326. This law applies to students in grades K – 12 and requires the District to enter into agreements with each vendor/operator that collects personally identifiable information (PII). Vendors/operators are prohibited from: (a) (i) engaging in targeted advertising on the operator's K-12 online application; or (ii) targeting advertising on any other site, service, or application when the targeting of the advertising is based on any information, including protected information and persistent unique identifiers, that the operator has acquired because of the use of the operator's K-12 online application; (b) using information, including persistent unique identifiers, created or gathered by the operator's K-12 online application to amass a profile about a pupil, except in furtherance of K-12 school purposes; (c) selling a pupil's information, including protected information.

Teachers in the District may only use software/apps in the classroom that have been approved by the District. Approved software/apps all have agreements with the District that meet Montana law. A complete list of the programs can be found on the District's website: www.mcpsmt.org/studentdataprivacy

SECTION 4: NOTIFICATION OF ELECTRONIC PHOTOGRAPH REPOSITORY

Parent Information

The 2019 Montana Legislature passed Senate Bill 40 requiring the Montana Office of Public Instruction (OPI) to create and maintain an electronic directory photograph repository of all Montana students for the exclusive purpose of locating missing school-age children. It will use students' current school photos that most schools take annually for school directories, ID cards, year books, etc.

Parents have the right to have their child's photograph included in this repository by "opting-in." If a parent chooses to have his/her child's photograph included in the repository, the District will notify OPI.

Your child's photograph will only be used by law enforcement for the express purpose of locating your child should he/she be reported to law enforcement as missing. No other use by OPI or law enforcement is permitted. Access by OPI staff will be strictly limited and controlled to staff or contractors creating and maintaining the repository.

Photos will be updated annually; you will be given an opportunity each year to opt-in to the repository. If you fail to opt-in in any year after previously permitting your child's photograph to be included in the repository, the photo will be purged after two years.

Even if you have opted-in to the inclusion of your child's photograph in the repository, you may opt-out at any time and your child's photograph will be removed from the repository.

If you would like your child's photograph included in the electronic photograph repository please check the box below, sign and date it and return it to the District.

SECTION 5: ANNUAL FIELD TRIP CONSENT

Parent Information

This Field Trip Consent Form gives Missoula County Public Schools and its staff permission to take the below named student off campus for school approved field trips for the 2026-2027 school year. This permission applies to all local field trips occurring within Missoula during the school year. This permission is valid for one school year. Parents will be notified at least one week in advance of local field trips. At this time, parents will have the option to withdraw permission for any individual field trip by completing the Field Trip Opt-Out Notice. If a parent or guardian signs the Opt Out Notice for a specific field trip, the Annual Field Trip Consent remains valid for all other local field trips. Separate permission will be sought for any field trips occurring outside of Missoula, including field trips within and outside the state of Montana.
If you choose not to sign this annual permission form, you will be asked to give permission for your child to participate in each field trip occurring within Missoula throughout the school year.

Our mass notification system allows us to send messages to you and your student through different mediums - phone calls, texts, emails - regarding important school information. SECTION 7: DEVICE AGREEMENT

Parent Information

Technology and devices have become an essential part of our daily lives. Student success requires that they move from school to home and back with devices containing educational content and a degree of connectivity. To do so, MCPS may either provide a device for your student – or your student can use a compatible personal device to ensure their access to educational content and connectivity to their classroom. Devices will be distributed in the Fall during the first part of school. Parents/Guardians and students must sign and return this Device Agreement as soon as possible. Students using a device or accessing the network at school must comply with the District Provided Access to Electronic Information, Services and Networks Policy and the Electronic Device Policy. Personal devices used to access educational content and connectivity to classrooms are subject to the same level of monitoring and use restrictions as any district-owned technology device. This form must be completed and returned for each student. The attached pages are for your information, and do not need to be returned with the form.

All students are required to take their device home each night throughout the school year for charging. CHROMEBOOKS MUST BE BROUGHT TO SCHOOL EACH DAY IN A FULLY CHARGED CONDITION. Students should not carry the AC adapter power cord (charger) to school. The battery will last throughout the day. Generally speaking, charging will not be available at school, and in the event that a device's battery is fully discharged at school, the student will be responsible for completing work with paper and pencil and transferring this work to a digital format outside of the school day.

Student devices and chargers may be collected at the end of the school year. Any student who transfers out of MCPS will be required to return their device and charger. If a device and/or charger are not returned, the parent/guardian will be held responsible for payment in full. If payment is not received the parent/guardian may be turned over to a collection agency. District Chromebooks can be identified in the following ways:

- Service Tag and serial Number
- Individual's account username or device name

Under no circumstances are students to modify, remove, or destroy service tag labels. Parents/Guardians and Students will be charged for full replacement cost of a device if the service tag is modified, removed, or destroyed.

Accidental Damager or Loss Protection Details: Under this accidental device protection plan, the Chromebook is protected against accidental damage or loss due to an act of nature. MCPS will require that a police report be submitted when theft is alleged. Fraudulent reporting of theft will be turned over to the police for prosecution.

This protection plan does not cover loss of the Chromebook and/or its accessories, cosmetic damage, or damages caused by intentional misuse and abuse. MCPS will assess the Chromebook damage and repair or replace the device if the damage is determined to be accidental and within the protection guidelines. MCPS may bill for any repair outside of the protection guidelines in order to return the Chromebook to its original working condition.

Devices should not be disassembled or attempted to be repaired by anyone other than a school authorized vendor. MCPS has the right to decide when a Chromebook should be repaired in house versus filing a claim with the manufacturer.
Students and parents/guardians will be charged for Chromebook damage, including parts required to repair the device, as a result of misuse or abusive handling. Parents/Guardians and Students will be charged for full replacement cost of a device that has been damaged beyond repair due to intentional misuse or abuse.

A loaner Chromebook may be issued to students when their Chromebook is sent out for repair from the tech department. If repair is needed due to malicious damage, the school may refuse to provide a loaner Chromebook.
