

Welcome to Rehabilitative Careers with Mrs. Dunavant!

Meet the teacher

My name is Amber Dunavant. This is my 3rd year teaching. I have been an imaging technologist (CT,MRI, x-ray) since 2010. I love patient care and Rehab is one of my favorite classes to teach. My husband and I have 3 children, Adiyah, Caydence and Phenix. They keep me very busy! I cannot wait to see what all this class can accomplish. I can be reached at adunavant@gcboces.org if there is ever a question or concern. I am very responsive to emails.

Course Description

Rehabilitation Careers is an applied course designed to prepare students to pursue careers in rehabilitation services. Upon completion of this course, a proficient student will be able to identify careers in rehabilitation services, recognize diseases, disorders or injuries related to rehabilitation services and correlate the related anatomy and physiology then develop a plan of treatment with appropriate modalities.

Course Objective

Through this class, students will explore physical therapy, occupational therapy, speech therapy, athletic training, and other rehabilitation careers. Students will be able to use this knowledge in future healthcare studies or simply in their everyday life. Students will experience an abundance of hands-on activities in order to master skills.

You must turn in your phone to the office every morning the remainder of the semester. 4th offense- 1 day of OSS. 5th offense- 2 days of OSS. 6th offense- Alternative School.

This policy will be enforced in this classroom.

Supplies

Three Ring Binder or folder
Paper
Pencil
Chromebook
Kleenex

Attendance / Make up

It is the student's responsibility to make-up work when they are absent. Most assignments will be posted in Google Classroom or in the make-up folder beside my desk. Students have 2 days per excused absence to make-up assignments. I do not accept late work. It is not fair to those that complete assignments on time.

Test Retakes

Students may retake one test per nine weeks. They must notify the instructor the same day of the test if they would like to retake it.

Grading

All grading in this course is on a points system. Each assignment is given a point value. Grades will be posted on Synergy.
