

ISAAGNY Form Instruction Sheet

We greatly appreciate your taking the time to complete this form, as it provides an additional way of getting to know the student. We will review your input with the understanding that students are constantly changing and developing.

As you complete the form, please consider:

- We're looking for a candid assessment of the student's ongoing development, strengths, and areas with room for improvement.
- Your assessment should be based on who they are in your class this year. If you cannot speak to the student's current performance or are not currently teaching the student, you are likely not the appropriate person to be completing the form (the exception is those filling out the General Recommendation form for Middle/Upper School applicants).
- Please keep in mind the student's relative age within their class cohort.
- If you are unsure of the answer to a question, please indicate that and add more notes at the end of the section.
- The comment boxes are very helpful to admission offices. We would appreciate 3-4 sentences in each comment box, including specific examples.

CONFIDENTIALITY:

Preparers and recipients are expected to maintain the information in strict confidence. Preparers and recipients are prohibited from sharing this information with parents/guardians/students, and ISAAGNY does not provide this information to parents/guardians/students unless required by subpoena or court order.

HOW AND WHEN TO SUBMIT:

- All completed forms should be sent directly to the school(s) to which each student is applying. We suggest you do not submit prior to November 1, so that you have time to get to know the student before completing this form.
- You may receive multiple requests to complete this form, as each ISAAGNY school has its own application process and software.
- Do not send completed forms to ISAAGNY, as we do not process or forward paperwork.
- We recommend saving a copy of the completed forms, just in case of technological glitches.

Please note: Text fields have limited character space, and your text responses should fit within the space provided. Copied and pasted text extending beyond the text box will require editing to fit within the text field provided.
