

Connection to Resources

As school counselors we provide brief, school-based counseling and interventions. Sometimes an issue is better addressed with more intensity in a therapeutic setting. We partner with school based therapists at RedOak and Bellefaire who provide therapy to our students during the school day. These agencies bill insurance and Medicaid.

We are happy to help you find other agencies within our community if you are interested.

We are grateful to work with many local organizations, and we are happy to make referrals for community services. Reach out to us if you are in need.

We are lucky to have two additional professionals in our district to provide support as needed.

Sara Kopacko, District Mental Health and Well-Being Coordinator

Beth Beal, District Prevention Specialist

We are here for you.
We look forward to working with you to make this a great school year!

School Counseling at Wadsworth Intermediate School

Wadsworth
City Schools

Role of a School Counselor

We work to help students maximize their potential as we focus on students' personal/social, academic, and career development.

All students receive classroom counseling lessons once per month on a variety of topics such as conflict resolution, stress management, depression awareness (6th grade), personal safety, drug prevention, etc.

Short-term, individual counseling is available to all students.

We also provide:

- small group counseling
- crisis intervention
- coordination with outside agencies and therapists
- connection to community resources
- leadership opportunities for students
- 504 Plan consultation
- and more!

Small Group Counseling

Small Group Counseling is a great way for students to learn helpful life skills with like-minded peers.

We organize groups based on the specific needs of our students. In group, we cover topics such as stress management, social skills, executive functioning, and more!

Groups meet once per week for approximately 30 minutes per session. Students must have parent/guardian permission to join group.

Roy W.I.S. Therapy Dog

A short visit with a therapy dog at school can help ...

- students practice self discipline, respect, empathy, and compassion
- decrease anxiety
- develop social skills
- increase sense of safety and security
- motivate students

Roy will be at W.I.S. two days per week. He loves to visit classrooms and counseling offices.

Questions or concerns about Roy?
