

LNMH Drop-Off and Dismissal Traffic Plan

2026-2027

Families,

Please review the attached maps and the new guidelines below before arriving on campus.

Drop-Off: 7:40 / Pick-Up: 3:25

Visual Representation of Drop-Off/Pick-Up:

Where?

Students are dropped off at the **front Drop-Off/Pick-Up zone designated on the map above.**

Parking

- **Where to Park:** If you are parking to walk your student to campus, you may **ONLY** park in the designated visitor parking spots at the front of the building.
- **Where NOT to Park:** You absolutely cannot park in any of the other areas on the map. These are either private property or designated staff parking, and you will be at risk of being towed.
- **Walk-Up Parent Waiting Area during dismissal:** We ask that parents wait on the sidewalk away from the front doors so that the doors are not crowded.

Dismissal

Parents and guardians picking up Middle-High students by vehicle must use the designated **Middle-High pick-up line**. Please pull forward as directed by staff and remain in the traffic line until your student is picked up.

Do not stop along the stairs or sidewalk to pick up students. Stopping in these areas causes traffic to back up and delays dismissal for other families.

Students must leave campus promptly after dismissal unless they are participating in a school-sponsored activity or have been directed otherwise by staff.

Elementary and Middle-High School Sibling Pick-Up

Families with students at both the Elementary and Middle-High campuses should follow each campus's designated dismissal procedures.

Parents may pick up their elementary student through the **Elementary pick-up line** and then proceed to the **Middle-High pick-up line** to pick up their Middle-High student.

Middle-High students are also permitted to pick up an elementary sibling; however, **a pass issued by the Elementary campus is required** before the elementary student will be released to the Middle-High student.

Please do not park, stop, or pick up students in unauthorized areas while traveling between campuses.

A Community Effort

Making this plan work requires a true community effort. Our staff will be out there doing everything we can, but we are completely reliant on your partnership.

When drivers stop in unauthorized areas, cut in line, or step out of their vehicles in the drop-off lane, it causes immediate gridlock and significantly delays every other family trying to get to work. We need everyone to prioritize the flow of the line so we can get all students into the building safely and quickly.

To keep the line moving, we ask that you please:

- Pull all the way forward (down to the end of the building) so cars behind you can also unload. This allows us to maximize the number of cars unloading at a time.
- Remain inside your vehicle at all times while in the drop-off line.
- For the safety of all students over the noise of traffic, our staff will be using loud, firm voices to direct cars and pedestrians. Please follow their directives immediately

Please expect delays for the first few weeks, plan to arrive earlier than normal, and bring your patience as we get everyone used to the pattern and flow. Thank you for your cooperation and for helping us keep our students safe.
