WORTHINGTON SCHOOLS

Important Infinite Campus Update

To provide families with better security and more control over student information, Worthington Schools is updating how parents and guardians log into the Infinite Campus Parent Portal. Starting for the 2026-2027 school year, the district will no longer create accounts or manage credentials for parents and guardians. Instead, parents will now have the power to create their own account and manage their own password securely.

What is changing?

- **Self-Service Accounts:** You will now create your own username and password.
- **Easy Password Resets:** If you forget your password in the future, you can reset it yourself instantly via email.
- **Enhanced Security:** Managing your own credentials keeps your family's data safer.

What do parents & guardians need to do?

- Starting July 13, your current Infinite Campus account will no longer work.
- On July 20, you will receive a separate email containing a unique Activation Key and a link. Simply click the link, enter your key, and follow the prompts to create your new username and password. Once logged in, it will look the same as before.
- You can complete this setup on a computer or mobile device in a couple minutes.
- If you use the Infinite Campus Mobile App, you will need to sign in again with your new account.

How to create your *Infinite Campus Parent* portal account

1

Check your personal email for a message with subject line **Worthington Schools Portal Account Activation** and click the custom link in the email

2

Choose a username and strong password then click Submit

3

Use the credentials you created to log in to the *Infinite Campus Parent* app or website

4

Set an Account Security Email

- From the app, the security email page comes up on first login. From the website, go to > Settings > Account Settings.
- A verification link will be sent your email. Open the email and click the link to confirm your email address.
- You are now ready to use *Infinite Campus Parent*. If you forget your credentials in the future, they can be retrieved from the login page.
