¡Bienvenidos a la clase de Español! Welcome to Spanish Class!

The study of world languages is an essential part of education. In the 21st century language classroom, students gain an understanding of two basic aspects of human existence: the nature of communication and the complexity of culture. Students become aware of multiple perspectives and means of expression, which lead to an appreciation of difference and diversity. Further benefits of foreign language study include stronger cognitive development, increased creativity, and divergent thinking. Students who effectively communicate in more than one language, with an appropriate understanding of cultural context, are globally literate and possess the attributes of successful participants in the world community.

Course Objective:

To give students basic operational skills in speaking, reading, writing and comprehension in the target language. To build a strong foundation in the basics for further language study. To present a positive explanation of cultural differences and similarities.
