

Technology Update

August 2026

Katie Paulson: Director of Innovation & Technology

Brad Katz: Assistant Director of Technology Infrastructure

AGENDA

This presentation will cover:

- Lightspeed Content Filter
- Raptor
- YouTube Access
- Student Device Management

LIGHTSPEED CONTENT FILTER

A digital guardrail system for school-issued devices

- Improved categories
- Usage collecting

Transitioning to iPads from Windows laptops

- Old system was slow
- Scanner and printer would fail often

iPads allows visitors to check-in without needing to handover ID

Can speed up entry for larger events

Allows new features to be introduced in the future

YOUTUBE ACCESS

Change: Students will only view YouTube videos via teacher-provided link or embedded media.

STUDENT DEVICE MANAGEMENT

Recent Decisions

- Overnight access limits

Under Consideration

- Grade 3–5 devices remain at school

Next Steps & Stakeholder Input

- Gathering feedback on home device usage and daily screen time limits
- Evaluating instructional technology use, curriculum alignment, and student engagement
