

NORTH POLK

COMMUNITY SCHOOL DISTRICT

FIVE YEAR FACILITIES OUTLINE

As we embark on the next five years (*Fiscal Years (FY) 2027-2031*) as a school district, our commitment to providing an engaging, safe, healthy, and innovative environment for learning remains steadfast. Our Facilities Committee is continually working on gathering a comprehensive outline of potential projects ranging from \$1,000 to \$1,000,000, ensuring that our schools continue to be places of caring, collaboration, and innovation.

Vision for the Future:

Our vision is to create learning spaces that not only meet the growing and evolving needs of our students and educators but also serve as safe and vibrant centers for community engagement. Through strategic planning, collaboration, and a focus on flexibility, we aim to enhance the overall educational experience for all stakeholders.

Key Objectives:

- **Focus on Learning Spaces:** Addressing barriers to learning for all while creating spaces that are engaging and foster collaboration. We strongly believe that learning is a collaborative process and having space to wrestle with ideas is what we are striving for.
- **Equity and Accessibility:** Addressing disparities among our schools by strategically allocating resources to improve facilities in areas that have not been addressed in the longest periods of time and ensuring that all students have access to high-quality learning environments.
- **Community Engagement:** Fostering a sense of community by creating multipurpose spaces that encourage collaboration and serve as centers for extracurricular activities.
- **Preventative Maintenance and Scheduled Updates:** Regular maintenance and timely updates help identify and address potential issues before they escalate into major problems. This proactive approach reduces unexpected failures, ensuring continuous operation and minimizing disruptions to productivity.

Community Involvement:

We recognize the importance of community input in shaping the future of our schools. As such, we are committed to engaging with parents, teachers, students, and local residents throughout the planning and implementation processes. If you would have interest in serving as a liaison to the Board Facilities Committee, please reach out to Superintendent Michael Kline at michael.kline@northpolk.org.

Procedures:

Annually in approximately January or February, the Board Facilities Committee will meet jointly with the Finance Committee to identify the dollars available for the upcoming fiscal year projects and collaborative determine priorities for what projects to start planning for implementation.

Current List:**FY 2027-2031**
