A LETTER FROM THE BOARD PRESIDENT

As we begin this school year, we're reminded of the strong partnerships that make Pal-Mac great.

Our schools are strongest when we work together. The success of our students is made possible through the partnership between our families, educators, staff, and community. Together, we create an environment where students feel supported, challenged, and encouraged to reach their full potential.

We recognize that every student is unique, with different strengths, interests, and needs. Our commitment is to ensure that each child has opportunities and resources they need to learn, grow, and contribute.

Every day, our teachers and staff are committed to creating classrooms or schools where students are engaged, encouraged to ask questions, and supported as they build the knowledge and skills they need for the future.

Learning is about more than academics. It is about developing confidence, resilience, kindness, and a sense of responsibility. These qualities help students succeed not only in school but throughout their lives.

As a Board of Education, we remain committed to supporting our students, staff, and families by providing a safe, welcoming, and engaging learning environment where every student feels valued, has a sense of belonging, and has the opportunity to reach their full potential.

We are grateful for the trust our families place in our schools and for the many ways our community continues to support Pal-Mac.

In this new school year, let us continue to build on those amazing partnerships. Together, we can ensure every student feels welcomed, supported, and inspired to learn.

Every conversation, every act of encouragement, and every opportunity to work together helps strengthen our schools and our community.

With gratitude,

Laura Arrington

Board of Education President

HEADLINES

Addy, a fifth grader, teamed up with teacher Mrs. Gagliano-Hoke to spread autism acceptance across PMI. By presenting to every classroom, they showed students how unique communication tools work and inspired everyone to make new friends, sparking a wonderful wave of inclusion on the playground and beyond.

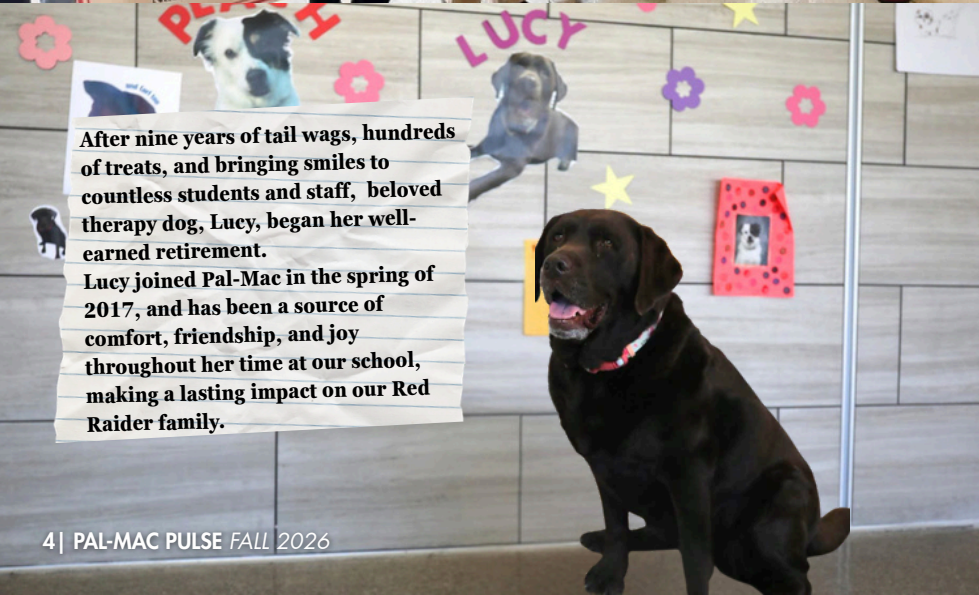

TAKE A CLOSER LOOK

Our National Junior Honor Society (NJHS) students celebrated another very special hero's welcome in May! As part of their ongoing "Student Salute" initiative, a group of students cheered on and spoke with veterans from Honor Flight Mission 95. This was the Rochester program's first all-female veteran mission! Students also provided the veterans with specially-made care kits.

After nine years of tail wags, hundreds of treats, and bringing smiles to countless students and staff, beloved therapy dog, Lucy, began her well-earned retirement. Lucy joined Pal-Mac in the spring of 2017, and has been a source of comfort, friendship, and joy throughout her time at our school, making a lasting impact on our Red Raider family.

INSPIRING A GENERATION

Two Pal-Mac educators earned the New York State Senate's "Educators Inspiring a Generation" award. PMI teacher Carrie Linder was recognized for leading a global cultures program, while High School special educator Lora Mahnke was honored for developing a sustainable mindfulness initiative. The teachers were both recognized by NYS Senator Pamela Helming.

SUMMER STAR

High School Earth Science teacher Joe Perry added another exciting experience to his resume as he took part in the annual NSF NOIRLab Summer Stars Program. Mr. Perry joined 15 other educators in Arizona in July as part of a hands-on workshop that provided research tools, observatory tours, and practical strategies to bring cutting-edge astronomy into classrooms.

ANOTHER YEAR, ANOTHER RECORD FOR DOLLARS FOR SCHOLARS

CHAPTER CROSSES \$250k MARK FOR THE FIRST TIME

MORE
PICTURES/INFO

The Palmyra - Macedon Dollars for Scholars (DFS) Chapter continues to set records as it awarded more than \$250,000 in scholarships to the Class of 2026. The Chapter held its annual awards ceremony in the Pal-Mac High School Gym on Thursday, June 4.

A total of \$250,200 was awarded across 225 scholarships to 85 seniors. This was the first time in the program's nearly 40 year history that it crossed the \$250,000 mark. This also continues a trend where the Chapter surpasses a record from the previous year.

Since it was founded in 1988, the Chapter has awarded more than \$3 million in scholarships, which makes it among the most successful in New York State.

AWARDS GALORE AT HIGH SCHOOL, MIDDLE SCHOOL

More than 210 students were honored between the annual Middle and High School Award ceremonies.

Students were recognized for their excellence in academics, leadership, service, the arts and community involvement.

Several awards included scholarships.

PMI NAMED A GOLD STAR SCHOOL

Palmyra-Macedon Intermediate School (PMI) has been named a National Gold Star School by the National Association of Elementary School Principals, placing the school in the top half of one percent in the country.

Out of more than 88,000 elementary schools across the United States, the school was one of just 47 learning communities selected for the honor this year.

To celebrate the recognition, school leaders secretly transformed the gymnasium into a star-studded gala dubbed the "PMI Schoolies." Students and staff arrived to find a formal stage, dramatic lighting, a custom balloon arch, and a red carpet where classes posed for photos alongside the school mascot.

"This is less than half of one percent and is an incredible honor," Principal Jenn Check said. "We are so, so very proud of you."

support, the school stood out for its inclusive environment and strong family engagement.

Mrs. Check secretly pursued the application alongside a dedicated team of advocates to showcase the school's culture on a national stage. Key recommendation letters written by school librarian Kristin Robinson, District Superintendent Bob Ike, and local parents helped secure the award.

"I am so super proud of every person in this school, of all the learning that happens, and how everyone works together to make this such a special place," Check said. "I wanted everyone in the whole country to know about our school."

Before dismissing classes, Check distributed gift bags containing gold star stickers, stress balls, and a formal award plaque for each classroom.

The celebration concluded with Check leading the entire student body in an echo chant of the school's core values: "We are kind. We are safe. We are problem solvers. We are learners. We are an important part of PMI. We belong."

PMP'S PRIMARY PROJECT RECOGNIZED

The Primary School's Primary Project program recently earned recognition from the Children's Institute for its exceptional social-emotional support. PMP received the Continuous Improvement Seal and a 2026 Certificate of Recognition. Launched in 2009, the program uses child-centered play to help nearly 90 K-2 students annually build confidence, self-awareness, and classroom readiness through personalized, data-informed sessions with dedicated child associates.

THE ARTS

"CHICAGO: TEEN EDITION" TAKES HOME "BEST MUSICAL" AT 2026 ELENBE AWARDS

EVERY STUDENT REPRESENTED AT PMP, MS ART SHOWS

Art is for everyone, and both the Pal-Mac Primary and Middle Schools celebrated that fact during their respective Arts Nights in June.

PMP opened the evening with artwork from every class on display throughout the hallways. Families were then treated to a musical performance from several second graders under the direction of music teacher Mr. Kane.

Across town, the middle school celebrated the arts in a big way, too. The main hall and the library were all decked in student work that ranged from paintings to sculptures, and much more. Students also shared detailed journals and notes to explain the process behind their work.

According to middle school arts teacher Ms. Dentel, the show featured more than 500 pieces of art, which included every single student in the school.

Additionally, the Middle School Counseling Department hosted an open mic event in the library. Several student performers either performed a cover song, or an original piece of music or poetry.

Pal-Mac High School's musical production of "Chicago: Teen Edition" was named Best Musical Production at the 30th annual Elenbe Awards. The cast and crew also received 10 awards and runner-up honors at the ceremony, which recognizes excellence in Wayne County high school theater. The production also received 16 awards and honors at the Rochester Broadway Theater League (RBTL) Stars of Tomorrow Awards.

Additionally, seniors Tyler Dranichak and Havana Sullivan were selected as RBTL Stars of Tomorrow NYC Bound nominees for their performance in the show. Both advanced several rounds and even auditioned live before Broadway-trained judges. They were among just 38 other students from across the region.

CONCERT RECAPS ON DEMAND

Our Pal-Mac student-musicians are SUPER talented, and we have the recaps to prove it! Head on over to our YouTube page @PalMacTV and check out our Concert Recaps playlist! We have compilations from several fall and spring shows!

SPORTS ZONE

PAL-MAC
RED RAIDERS

FALL 2026

HUDAK NAMED TO AGR FIRST TEAM, SEVERAL HONORED

Girls Varsity Lacrosse team member Teagan Hudak received a First Team All-Greater Rochester (AGR) nod by the *Democrat and Chronicle*. She was recognized after leading the Red Raiders with 56 goals and 46 ground balls. Additionally, Boys Varsity Lacrosse team members Jackson Dennie and Max Hill received 2nd Team honors.

Several other Red Raider student-athletes received Honorable Mention honors for their efforts. A full list of both AGR and All-League awards can be found by scanning the QR code below.

HUDAK

13 SIGN NATIONAL LETTERS OF INTENT

13 Pal-Mac seniors signed their commitments to compete at the collegiate level during a ceremony in June:

Brandon Dennie (Lacrosse): D'Youville (Division II)
Teagan Hudak (Lacrosse): Old Dominion (Division I)
William Kipp (Track & Field): SUNY Oswego (Division III)
Carson Lich (Lacrosse): Ohio Northern University (Division III)
Mason Miller (Wrestling): SUNY Brockport (Division III)
Noah Murray (Wrestling): SUNY Oswego (Division III)
Jacob Naugle (Lacrosse): Roberts Wesleyan (Division II)
George Newsome (Swimming): U.S. Military Academy (Division I)
Claire Nolan (Lacrosse): Mount Union (Division III)
Breana Pentycofe (Lacrosse): Lock Haven University of Pennsylvania (Division II)
Anthony Porpora III (Football): Utica University (Division III)
Annette Prebalick (Cheerleading): Niagara University (Division I)
Georgia Wirth (Basketball): Onondaga Community College (Division III)

STUDENTS SHINE AT SPECIAL OLYMPICS

Pal-Mac was proud to have several student-athletes represent the District at the annual Wayne-Finger Lakes Special Olympics in May! Competitions ranged from track and field to more fun activities for our younger students. Several student and faculty volunteers also joined in on the fun!

NYS NAMES PAL-MAC A "SCHOOL OF EXCELLENCE"

The Pal-Mac Red Raider Athletics program earned some major recognition for its commitment to academic excellence. The New York State Public High School Athletic Association (NYSPHSAA) awarded Pal-Mac "School of Excellence" status for the 2025-2026 school year. To reach this level, the program needed 75% or more of its varsity teams to achieve Scholar-Athlete status (which is a 90+ team GPA). To cap off this dedication, all seven Red Raider varsity teams were named to the Scholar Athlete list for the Spring 2026 season.

COACH OF THE YEAR

Coach EJ Burse (Girls Lacrosse) and Coach Joe Hill (Boys Lacrosse) were each named Finger Lakes League Coaches of the Year. Additionally, Assistant Coach Jake Gallina (Boys Lacrosse) was named Co-Assistant Coach of the Year.

The coaches were honored by Athletic Director Chris Corey during the annual Athletic Awards Ceremony

A full list of awards can be found on the Athletics home page.

ALL-ACADEMICS/ OUTSTANDING RED RAIDER

Two Pal-Mac student-athletes were named to the USA Lacrosse All-Academics team for their work during the Spring 2026 season. Carson Lich (Boys Lacrosse), and Teagan Hudak (Girls Lacrosse) each received a nod. To qualify, an athlete must show a combination of stellar lacrosse skills, good sportsmanship on the field, and of course, a high standard of academic achievement in the classroom. Both were also named Outstanding Red Raiders at the annual awards ceremony.

NO CELL

BELL TO BELL

New year, same policy. The Palmyra-Macedon Central School District supports a distraction-free learning environment, and is continuing a cell phone and personal electronic device (PED)- free policy.

As a reminder, the rule is in effect from the first bell to the final bell, including during lunch, passing time, bathroom breaks, field trips, and any time on school property during the day.

This policy will assist the District in its efforts to provide an environment where students learn, grow, and contribute.

More resources can be found on the District Safety page under the "Distraction-Free Learning" tab.

ON THE ROAD: NYS INSPIRES

A new plan to completely transform K-12 public education and graduation requirements in New York State is underway, and that includes here at Pal-Mac.

The plan is called "NY Inspires," and it's a multi-year comprehensive strategic plan designed by the New York State Education Department (NYSED).

The plan shifts high school graduation requirements away from standard test reliance toward a competency-based model that measures what students can actually do. The state has a target of full implementation by Fall 2029.

At the heart of the initiative is the state's "Portrait of a Graduate," which is grounded in a culturally responsive education that builds respectful relationships and values many perspectives. Six core attributes make up this portrait for students to develop from kindergarten through 12th grade:

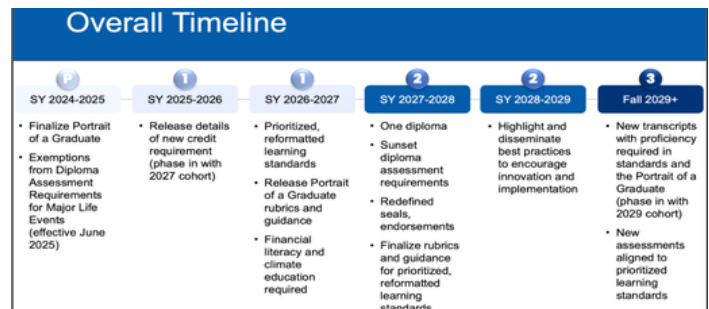

- **Academically Prepared:** Building a strong foundation in state learning standards to support success in college, careers, civic life, and service.
- **Creative Innovator:** Using imagination, curiosity, and flexible thinking to solve problems and adapt to new challenges.
- **Critical Thinker:** Analyzing information, evaluating evidence, and making thoughtful, evidence-based decisions.
- **Effective Communicator:** Clearly expressing ideas across speaking, writing, and digital media while adapting to diverse audiences.
- **Global Citizen:** Acting ethically and responsibly within local, global, and digital communities to create positive change.
- **Reflective and Future-Focused:** Engaging in self-reflection, goal-setting, and responsible decision-making to support personal growth and mental well-being.

Under the multi-year timeline, state learning standards are being prioritized and updated, with new requirements in financial literacy and climate education taking effect starting this school year. Graduation rules, course credits, and testing obligations will remain in full effect during this multi-year phase-in. Students currently in high school face no sudden changes to their graduation requirements.

To be clear, state guidance clarifies that the plan will not eliminate or outright replace Regents exams. Instead, the goal is to sunset making passing these exams a mandatory requirement to earn a diploma.

Regents exams will remain fully available as one of several valid pathways for students to demonstrate academic proficiency alongside portfolios, performance tasks, and real-world projects.

Pal-Mac is well-positioned for this state-level transition, as our mission of **"Learn, Grow, Contribute"** already aligns with the state's framework. The District embeds these core competencies directly into our classroom units, career pathway planning, and teacher development.

To reflect these evolving statewide goals, local learning opportunities continue to expand. Pal-Mac is introducing several new high-level courses and hands-on experiences designed to build career readiness and practical skills.

Upcoming course implementations include Welding, International Baccalaureate (IB) Sports, Exercise & Health Sciences, Data Analytics, Geometry & Design, IB Business Management and IB Literature & Performance, alongside expanded community programming like Junior Achievement at the intermediate school.

These courses join established offerings in agriculture, computer science, small engine repair, sports streaming, technical theater design, and career exploration programs like Xello.

The District will continue sharing regular updates, hosting community information sessions, and publishing official timelines as state guidance continues to roll out through Fall 2029 and beyond.

STUDENT BOARD MEMBERS ENTER SECOND YEAR

LILY COOLEY AND
DANE HARTWELL

Pal-Mac Student Board of Education (BOE) members Dane Hartwell and Lily Cooley are entering their second year of representing their fellow students on the Board. They previously made history last year as the first official student members.

As they begin their next chapter, we spoke to them about their first year experience, which included attending Board meetings, meeting with other student Board members across the region, and developing a student-driven survey, among other moments.

Q: If you could summarize your first year with the Board in one word, what would it be?

Lily: Exciting. This is more than one word, but a lot of learning came with that.

Dane: Learning, probably.

Q: What did you learn? Did anything stick out in particular?

Lily: I definitely learned the behind-the-scenes of a school district. There were some things I didn't know, and that was super cool. And then how impactful someone's words could be. So how impactful my voice can actually be, and how heard it is.

Dane: I learned quite a lot while on the Board. I learned a lot about school government. Learned a bit more about myself, honestly.

Q: When you both first submitted your applications, your goal was to bring more student voice to the Board. Do you believe you were able to do that?

Lily: I definitely do. And I know we are continuing into next year, which is also exciting because mine and Dane's name are definitely fully established now in our roles. So I think we were successful in doing that, and I think we will continue to be successful in doing that.

Dane: I think me and Lily were able to do so pretty well. We had a student voice project where we had a ThoughtExchange survey where anyone could give an idea within it. It actually did have some influence on the school.

Lily: After talking with other student boards, we reached out to Pal-Mac students and the student body and asked how we can make school more impactful. We asked if that meant different programs or different classes, or what we needed to prepare them for their future.

Q: What would you say was your favorite part about your first year serving on the Board?

Lily: Probably when I had my final meeting with [High School Principal] Mr. Wahl after our survey. He had already taken action with the teachers, and already changed the way that teachers were going to be teaching. It was like, "Oh my gosh." It was kind of a realization to me that what we're doing does mean something.

Dane: I honestly really liked being able to represent the students of Pal-Mac. The Board's also a really fun group of people, so that adds extra points.

Q: Why should some other students want to get involved with a Student Board?

Lily: It affects if you want to go and work in a school district. I think it shows how the government is working around schools, and federally how we get funding and things like that. And then if you want your voice to be heard, like the people around you, all the board members are so ready to hear it. It's such a welcoming way to make an impact.

Dane: A student has a different perspective than adults. They obviously had it once in their life before, but now their perspective has shifted. It's important that they speak up and do as much as they can to provide their opinion, their voice, and their solutions.

FUTURE READY >>>

At Pal-Mac, we strive for our students to be positive contributors who have the skills necessary to be citizens, participate in the economy, and make a difference in the world around them. This includes providing opportunities to pursue future-ready programs.

PROBLEM-SOLVERS

High school engineering seniors brought serious innovation to life for their Project Lead The Way capstone projects! Students spent months taking their ideas from the drawing board to functional, real-world prototypes. Their impressive creations included an all-in-one adjustable dry measuring cup to clear kitchen clutter, an AI-powered underwater lap counter to track swim training hassle-free, and a portable automatic golf tee that loads balls with a simple foot tap.

9 RECEIVE SEAL OF BILITERACY

A stellar group of nine seniors earned the New York State Seal of Biliteracy! The seal is a prestigious recognition of advanced language proficiency. This is the second year Pal-Mac has offered this amazing opportunity. Congrats to Kareem Afify, Isaiah Bransford, Ella Eakins, Aubrey Gilfus, Jonas Henley, Teagan Hudak, Addisyn Perry, Joseleen Trejo, and Addison Wood.

PMP GETS FUTURE-READY AT SCHOOL, ON THE ROAD

PMP students had several future-focused experiences in the spring, both in and out of the building! Students took trips to the Rochester Public Market, heard from beekeepers and a paleontologist, and even saw a group of students coordinate an entire talent show!

AMAZING ALUMNI

2010 Pal-Mac graduate Jake Hamilton said he didn't always know he wanted to coach wrestling until he realized he missed it. Now, he's winning awards for it.

Hamilton is the Head Women's Wrestling Coach and Student Activities Coordinator at Southeast Community College (SCC) in Beatrice, Nebraska, a position he's held since 2024.

In just his second full season, he was named the National Junior College Athletic Association's (NJCAA) National Wrestling Coaches Association Coach of the Year and NJCAA Open Mat Coach of the Year. The Bobcats also finished as runners-up in the 2026 NJCAA Women's Wrestling Invitational in just their third year of competition.

As with every spotlight, we ask an alum to share some advice with recent and soon-to-be graduates, to which Hamilton said:

"Take advantage of where you're at right now," Hamilton said. "Don't wait for later. Build habits, work hard, and stay consistent. That's what separates people. Talent only takes you so far. Have a growth mindset and be willing to outwork everyone."

Know an amazing alum who should be recognized? Fill out our form!

MONSTERS PROJECT ADDS STORYBOOK ENDING

Students at the middle and primary schools teamed up once again for a special project that turns art into a reality.

Students in the Middle School Family and Career Sciences (FACS) classes worked with kindergartners on the annual "Monsters" project.

Since 2023, the project sees kindergartners draw and design their own monster, and then middle schoolers sew, fill, and present a 3D version of the drawing.

In addition, middle school students also wrote short stories based on the monster. You can find more about this project up on our website!
