

Eagle Works Commitment

Welcome to East Lake High School's magnet program, Eagle Works: Engineering Academy. Eagle Works is designed to elevate the high school experience and offer the supports students need to achieve excellence in their educational endeavors. Our goal is for students to explore, learn, grow, and thrive through the program.

To help students reach their highest potential in engineering, students are held accountable in maintaining specific academic, attendance, and behavioral requirements:

- **Academics:** Students must maintain a specified **unweighted GPA** according to their year to remain in Eagle Works:

Freshmen: 2.0	Sophomores: 2.3	Juniors and Seniors: 2.5
----------------------	------------------------	---------------------------------

 - A student whose cumulative, unweighted GPA goes below this level at the end of the semester will be on academic probation the following semester.
 - A student that receives a D or F on a Quarter 1 or Quarter 3 report card, will be placed on academic probation for the duration of the semester.
 - **Academic Probation** is considered a means of intervention and support to help students improve their academic standing. As part of Academic Probation,
 - Students must schedule and attend a minimum of 1 tutoring session per week, with **EACH** specific subject during lunch and/or afternoon sessions in our after-school tutoring program. Sessions are at a minimum of 30 minutes or longer based on subject teacher recommendation.
 - Complete a student tracker once per week to monitor academic progress (signed by all teachers and a parent, returned to their engineering teacher).
 - *If students do not comply with the probation requirements and/or do not raise their GPA by the end of the semester, they will be dismissed from Eagle Works magnet.*
 - **Coursework:**
 - 9th – minimum of 1 honors or higher course
 - 10th – minimum of 2 honors or higher courses
 - 11th – minimum of 1 college level course (AP/AICE/Dual Enrollment) & 1 honors course
 - 12th – minimum of 2 college level courses (AP/AICE/Dual Enrollment) & Engineering Capstone
- **Graduation Requirements**
 - In addition for the standard East Lake High School graduation requirements, in order to graduate from the Eagle Works Academy, students need to earn 3 credits of Applied Engineering and pass their Applied Technology Capstone class.
 - The Applied Technology Capstone requirement may be replaced with an internship in a related field.
- **Semester Exam Exemptions**
 - Industry certifications may be used in place of a semester exam. In this case, semester exams cannot be exempted if the industry certification was not earned
- **Attendance:** students should have **no more than 5 unexcused absences** per semester (align with Exam Exemption policy).
 - Notify the front office for all absences and provide the necessary documentation
 - **Attendance Probation** will be issued on a case-by-case basis; we will collaborate with students and families to support consistent school attendance.
 - *If students' attendance issues persist, they may be dismissed from the Eagle Works magnet.*
- **Behavior:** The Eagle Works magnet focuses on college, career, and leadership components. Student behaviors are to reflect those environments, always exhibiting professionalism and integrity on campus.
 - **One SESIR (School Environment Safety Issue Reporting) incident will result in immediate probation.** SESIR incidents include bullying, alcohol or drug use, tobacco/vaping, fighting, and battery (complete list at <https://www.fldoe.org/safe-schools/sesir-discipline-data/>).
 - **Academic Honesty incidents (cheating, plagiarism):** after the first incident, students will be required to complete an academic honesty course. Additional infractions will be handled on a case-by-case basis.
 - **For lower-level behavior issues, three incidents will result in probation.** These incidents can include skipping class, excessive tardies, disrespectful or disruptive classroom behavior, dress code violations, or other activities which compromise the learning or safety of other students.
 - **Behavioral Probation** is considered an intervention and will be addressed on case-by-case basis; a plan will be put in place to track student behavior and assist the student in recognizing and avoiding problem behaviors.
 - *If students' behavior issues persist, they may be dismissed from the Eagle Works magnet.*

Eagle Works Commitment

By signing below, we the parent(s)/Guardian(s) of _____ Grade _____ acknowledge we have received and reviewed the Eagle Works Academy Commitment letter on the previous page. We agree our student will commit to and uphold criteria for maintaining good standing within the East Lake HS Eagle Works Academy of Engineering.

Parent/Guardian Name: _____

Parent/Guardian Signature: _____ Date: _____

By signing below as a student of the East Lake HS Eagle Works Academy of Engineering I acknowledge I have received and reviewed the Eagle Works Academy Commitment letter on the previous page. I agree to commit to and uphold criteria for good standing within the East Lake HS Eagle Works Academy of Engineering.
