

Framework Overview

The observation framework establishes a structured cycle of professional practice to ensure consistency, clarity, and alignment across roles. The number of observations identified represents the **minimum expectation** based on role and employment status.

For classroom teachers, the two or three round model reflects the instructional cycle of planning, implementation, and impact. For Teacher Specialists (Type I and Type II), the one or three round model reflects a systems-based cycle of planning, service delivery, monitoring, and evaluation of impact.

Additional observations may occur to support professional growth, provide targeted feedback, or gather further evidence of practice. These may be **requested by the educator or determined by the observer** based on identified needs or areas of focus. All observations remain aligned to the established framework, goals, and professional responsibilities.

Observers will ensure clear communication of timelines, focus areas, expectations, and the purpose of any additional observations, including their connection to professional growth.

This approach ensures the observation process remains consistent, flexible, transparent, and focused on continuous improvement and measurable outcomes, reflecting an ongoing, evidence-based understanding of professional practice over time.

Observations consist of at least 30 minutes

October 1st will be used as a cutoff date to determine Year 1-4 guidelines of observation status

October 31st: Corrective Action Plan, Improvement Plan; Professional Development Plan, Student/Program Growth Objectives/Administrator/Cabinet Goals

February 15th will be used as a cutoff date for making final adjustments to Student/Program Growth Objectives/Administrator/Cabinet Goals

Observer Quick-Reference

- Before: Review roster, schedule, job description, goals, and required documents (guidebook, training resources, etc.)
- During: Collect objective evidence aligned to the rubric and required forms.
- After: Verify post-conference, documentation, signatures, and dashboard status.
- Always: Communicate timelines, focus areas, expectations, and follow-up clearly.

Evaluation Preparation

Ensure observers are assigned, track completion of the observation schedule, and communicate timelines to staff.
