Welcome to Blocks*i*

Teacher Dashboard

Blocks*i* is a powerful classroom management system that allows teachers to monitor and control student activity on school devices in real-time. It helps to keep students focused and safe online, while also providing teachers with valuable insights into classroom behavior and productivity. With Blocks*i*, teachers can easily manage and personalize learning, ensuring that their students get the most out of their education.

Help Guide

Logging Into Your Teacher Dashboard

To get started, first you will need to log into the Blocks i Teacher Dashboard by accessing our homepage <https://blocks i.net> or the Teacher Dashboard login page <https://teacher.blocks i.net>

Sign In To Your Teacher Dashboard

- Select your login method, depending on how your school is rostering your classes within Blocks!.
- For Example, if rostering with Google Classroom, select Sign in with Google and use your Google Credentials to login to your Blocks! Teacher Dashboard.

Rostering Classes w/ Blocksi Sync

- Import students from Google Classroom, Clever, and ClassLink
- Click the import classes button for the desired classroom. The Import Classes window opens.
- Select the checkboxes to the left of the classes that you want to import.
- Click OK. The classes are imported to the Teacher Dashboard.

Creating Classes

Create a Class

Class Name
e.g. Biology, Chemistry

Class Color
[Color Picker]

Duration in minutes

Policy
None

Devices class: ☐

These settings can be modified later

Create Class

- To Create a Class, Click CREATE NEW CLASS. The Create a Class window opens.
- Fill in the **Class Name** (e.g., "Math - Period 1").
- **Duration** in minutes
- **Class Color** if you'd like
- Select a Class **Policy**
- Only check **Devices class** if you are creating a class for a windows lab environment.

Class Tiles & Options

- Class Name
- Class Duration
- Class Code
- Class Schedule
- Class History
- Delete Class
- Conference Recordings - (Option only available to customers who purchase Conferencing Licenses)

Creating A Class Schedule

- Decide if you would like to schedule sessions automatically; Scheduling is available by clicking the **SHOW/HIDE SCHEDULE**.
- Click the **Class Scheduler** button. The **Class Scheduler** window opens.

The screenshot displays the Classroom interface. At the top, a navigation bar includes buttons for 'SHOW / HIDE SCHEDULE' (highlighted with an orange box and arrow), 'CREATE CLASS', 'classroom' (with a logo), 'DELETE CLASSES', 'CONFERENCE RECORDINGS', and 'SUBSTITUTE TEACHERS'. Below the navigation bar, a 'Welcome back, Teacher!' message is followed by a calendar widget showing 'MARCH 11 MONDAY' with an 'ON' toggle and a 'Class Scheduler' button (highlighted with an orange box and arrow). Below the calendar, the 'Class Scheduler' section is titled 'Create your own personalized schedules' and includes instructions: 'Toggle the on/off button to pause or resume the scheduler'. To the right, the 'Your Created Classes' section shows three class cards: 'Biology' (30:00, Code: jds84b), 'Math' (45:00, Code: fd35sv), and 'Chemistry' (45:00, Code: kdg6lv). Below this, the 'Your Assigned Classes' section shows four class cards: 'Geography' (45:00, Code: md53sf), 'IT Basics' (40:00, Code: bk4hd3), 'Psychology' (55:00, Code: ks94nb), and 'Business' (105:00, Code: gk20gs). Each class card includes a 'Recordings' button and a trash icon.

Creating A Class Schedule

The screenshot shows a window titled "Class Scheduler" with a close button (X) in the top right corner. Below the title bar, there are four tabs: "Weekly Scheduler" (selected), "Week A", "Week B", and "Custom Week". The main content area is titled "Weekly Scheduler Time Span" and contains the instruction "Set up the time range for the Weekly Scheduler to start classes automatically". Below this, it says "Set Up Weekly School Year View". There are two labels: "First School Week:" and "Last School Week:". To the right of "First School Week:" is a date picker with "Start date" selected. To the right of "Last School Week:" is a date picker with "End date" selected. A yellow arrow points from the "Set School Year" button to the "Start date" date picker. At the bottom right of the window is a "Close" button.

Close

- **Set up the weekly school year.**
- Select the school year start date from the **First School Week** drop-down list.
- Select the school year end date from the **Last School Week** drop-down list.
- Click **Set School Year**. The window expands to include the weekly schedule templates.

Creating A Class Schedule

The screenshot shows the 'Class Scheduler' window. At the top, there's a blue header bar with the title 'Class Scheduler' and a close button. Below the header, there are three tabs: 'Weekly Scheduler' (highlighted with a yellow box and an arrow), 'Week A', 'Week B', and 'Custom Week'. The 'Weekly Scheduler' tab contains the following sections:

- Weekly Scheduler Time Span**: A section with the instruction 'Set up the time range for the Weekly Scheduler to start classes automatically'.
- Set Up Weekly School Year View**: A section with two date input fields: 'First School Week:' (03/11/2024) and 'Last School Week:' (09/01/2024). Below these is a 'Set School Year' button.
- Set Up Your Weekly Schedule**: A section with the instruction 'Assign a week by choosing a week template and clicking on week squares' and 'Confirm changes by clicking "Save"'. It includes a 'Select Week Template' dropdown menu with a 'Choose te...' placeholder, and 'Clear', 'Save', and 'Cancel' buttons.
- Select Week Template**: A section with a row of eight orange squares numbered 1 through 8. The first square (1) is highlighted with a blue border. Below this row is a legend: 'Week A' (purple square), 'Week B' (green square), 'Custom Week' (orange square), 'Current Week' (blue square), and 'Expired Week' (light orange square).

A 'Close' button is located at the bottom right of the window.

- Once you click **Set School Year**, the School Weeks will populate at the bottom of the screen in Orange.
- Select one of the tabs marked **Week A**, **Week B**, or **Custom Week** to set your weekly template.
- Once the template has been selected, you can add classes to your template - modifying hours and dates to fit your schedule.

Class Settings

- **Enabling Student Options**

Enable Student Options

Enabled options will be displayed on students' screens once they join the class and use the Google Chrome browser.

Additionally, these options can be enabled or disabled while the class is in progress.

☒ Enable Raise Hand Feature

☒ Enable Quick Chat Feature

☒ Enable Blurring Feature

Close

Confirm

Enable Raise Hand Feature – If enabled students will be able to virtually raise their hand, teacher will see hand wave on student tile.

Enable Quick Chat Feature – If enabled allows for students to be able to chat the teacher.

Enable Blurring Feature – If enabled the NSFW filter automatically blurs any images and videos considered inappropriate on the students devices.

Class Settings

- **Advanced Settings (Tab Limit)**

Advanced Settings

×

Maximum Open Tabs:

Please note: At the start of the class session, excessive tabs will be closed automatically. This may result in some students losing their work. Please ensure students save their work before the session begins.

Cancel

Confirm

Set a tab limit of the maximum amount of tabs you want to allow students to have open on their device during your class session.

Once adjusted click confirm to save this limit, as it can always be changed.

Close

To create an alias before you start the a class session:

- Click the **Students** button. The **Classroom Students** window opens.
- Click the **Manage Student Aliases** button. The **Student Aliases** window opens.
- Locate the student for whom you want to create an alias and click the **Edit Icon** icon to the right of student's name. **Type** the alias for this student and click the green check mark. Student aliases are limited to 40 characters, and may include only letters, numbers, and spaces; special characters are not allowed. The student tile displays the student's alias when you start the class.

Managing Aliases

To create an alias after you have started the class session:

- Click the tile for the student for whom you want to create an alias. The student tile opens and the student's name appears at the top of the tile.
- Click the **Pencil Edit Icon** to the right of the student's name.
- Replace the long student name with a shorter alias. Student aliases are limited to 40 characters, and may include only letters, numbers, and spaces; special characters are not allowed.
- Click the **Green Check Mark** to change the name.
- **Close** the success prompt and **close** the student tile. Note that the student tile now displays the student alias.

Creating a Student Group

The screenshot shows the 'Student Groups' interface. At the top is a blue header bar with the text 'Student Groups' and a close button (X). Below the header, a message reads: 'To create a new Student Group, please select option "Create new" and enter a group name.' Below this message are two input fields: a dropdown menu labeled 'Create new' and a text input field labeled 'New Group name...'. Below these fields is a horizontal line. Below the line, there is a student selection area with a dropdown menu showing 'Alex Sands (asands.stu@blc)' and an 'Add +' button. To the right of this is a 'Policy:' label and a dropdown menu showing 'Class Policy'. Below the student selection area is another horizontal line. Below this line are two buttons: 'Delete group' (red) and 'Start all breakout rooms' (green). At the bottom of the interface are two buttons: 'Cancel' (grey) and 'Save Changes' (blue). Yellow arrows point to the 'Create new' dropdown, the 'New Group name...' input, the 'Add +' button, and the 'Save Changes' button.

- To create a new Student Group, select **“Create New”** and enter a group name in the **“New Group name...”** box.
- In the bottom left corner, select the dropdown menu with your **Student Roster** and add students one at a time by selecting their name - then click the **Add +** button.
- Once all students have been added, please select the **Save Changes** button.

*Note: Students can only be assigned to one group at a time!

Adding Co-Teachers

The screenshot shows a dialog box titled "Add Additional Teachers" with a close button (X) in the top right corner. Below the title bar, there is a section labeled "Teacher Email" with an "Add" button to its right, indicated by a yellow arrow. Below this is a search bar with the placeholder text "Search teacher....." and a magnifying glass icon to its right, indicated by a yellow arrow. Below the search bar is a section labeled "Selected teacher (0/3):". At the bottom of the dialog box, there are two buttons: "Cancel" and "Save" with a floppy disk icon, indicated by a yellow arrow.

- Click the **Teachers** button. The **Add co-teachers** window opens
- Type the first part of the email address of the teacher you want to add as a co-teacher in the Search teacher... text box and click the Magnifying glass Icon.
- Click the **Add Plus Sign Icon** icon in the Add column to the right of the teacher you want to add.
- Click the **Save Icon**

Start Class

- Select a Class, and open the class session.
- Click the blue **START** button.
- When a class session starts and students are connected, live screen data of enrolled students will populate.
- You will also see the class duration counting down, letting you know how many minutes are left in your class session.

Student Tile

- Know everything you need to know about your student screens on the Blocks Teacher Dashboard.
- From student connectivity to individual teacher commands.

Student Tile

Hijack Students who are assigned to another teachers Blocks i class.

Students with grey wifi and blue screens - mean student is not logged into their device or not on the school wifi.

When student is marked out of school, their device is marked out of range by geofencing.

Student tiles marked with the no license, means that their student email is not licensed with a blocks i student license. Please contact your Blocks i Super Admin.

Sorting Students

You can sort students in your class in alphabetical order or by online status.

To sort students alphabetically

- Click the **A-Z** button. A confirmation prompt appears.
- Click **Re-order**. The students now appear in your class in alphabetical order.

To sort students by online status

- Click the **Online First** button. A confirmation prompt appears.
- Click **Reorder**. All online students now appear, followed by offline students. Students are sorted alphabetically within each grouping.

Currently opened tabs on student's device

- If you hover over the students open tabs icon, you have 4 options as a teacher to: **Close**, **GO**, **To block list**, **To allow list**.
- **Close**: will close the students tab
- **GO**: will open the URL on your teacher machine
- **To block list**: will add the URL to your teacher block list and block the URL from ALL students.
- **To allow list**: will add the URL to your teacher allow list and allow the URL for ALL students to browse.

Viewing Student Screenshot History

- Blocksie keeps a record of all screens your students view during classes that were in session within the previous 14 days.
- To view student screenshot history, first select the **Student Tile** you would like to view.
- Click on the **Double Rectangles** to the upper left side of the student screen.
- Select the drop down menu and choose the date of the class you would like to view, "**Select session**".
- Click on the **Replay Session** button.
- Then, click on the **Play Button** to begin session replay.

Sharing A Page – To A Group

To share content with a group of students:

- While a class is in session, click the **SHARE/ENFORCE** button. The **Share/Enforce Pages** window opens.
- Type the URL in the **Input URL...** text box.
- Select a student group from the **Select a Group** drop-down list and click **Share to Group** to push out a single URL to a group of students. To push out multiple URLs simultaneously, click **ADD FIELD +** and type as many URLs as desired.

The screenshot shows a window titled "Share/Enforce pages" with a close button (X) in the top right corner. The window is divided into two main sections: "SHARE PAGE" and "ENFORCE PAGE".

SHARE PAGE:

- At the top, there is a text input field labeled "Input URL...". A yellow arrow points to this field.
- Below the input field is a button labeled "ADD FIELD +".
- Below these is a section titled "Share to Group:". It contains a dropdown menu labeled "Select a Group" with a downward arrow. A yellow arrow points to this dropdown.
- Below the dropdown is a button labeled "Share to Group". A yellow arrow points to this button.

ENFORCE PAGE:

- At the top, there is a text input field labeled "Input URL...".
- Below the input field is a button labeled "ADD FIELD +".
- Below these is a section titled "Enforce to Group:". It contains a dropdown menu labeled "Select a Group" with a downward arrow.
- Below the dropdown is a button labeled "Enforce to Group".

Sharing A Page – To An Individual Student

The screenshot shows a window titled "Share/Enforce pages" with a close button (X) in the top right corner. The window is divided into two main sections. The top section contains an "Input URL..." text box with a yellow arrow pointing to it, and a button labeled "ADD FIELD +" below it. The bottom section is split into two columns. The left column features a large blue button labeled "SHARE PAGE" with a yellow arrow pointing to it. Below this button is a "Share to Group:" label, a dropdown menu showing "Select a Group", and a "Share to Group" button. The right column features a large dark blue button labeled "ENFORCE PAGE". Below this button is an "Enforce to Group:" label, a dropdown menu showing "Select a Group", and an "Enforce to Group" button.

To share content with an individual student:

- While a class is in session, click the lightning bolt icon beneath the student's tile. The **Share/Enforce Pages** window opens.
- Type the URL in the **Input URL...** text box and click **SHARE PAGE** to push out a single URL to the selected student. To push out multiple URLs simultaneously, click **ADD FIELD +** and type as many URLs as desired.

Enforcing A Page – To The Entire Class

Enforcing a page restricts the students to a specific URL or multiple URLs.

To enforce content to an entire class:

- While a class is in session, click the **SHARE/ENFORCE** button. The **Share/Enforce Pages** window opens.
- Type the URL in the **Input URL...** text box and click **ENFORCE PAGE**. You are prompted to enter a duration of time, in minutes, for the students to be locked down to only the enforced URL. Type this duration and click **Confirm**. This action closes current tabs open for that duration of time or until you cancel the enforcement. To enforce multiple URLs simultaneously, click **ADD FIELD +** and type as many URLs as desired.

After Enforce Mode is confirmed, students cannot search or access any other sites except for the URL(s) that have been enforced. When the time entered elapses, or you click the STOP Enforce button, all of the previous tabs the students had opened on their devices are restored and students can search and access other sites and content as before.

Enforcing A Page – To A Group

The screenshot shows a window titled "Share/Enforce pages" with a close button (X) in the top right corner. The window is divided into two main sections: "SHARE PAGE" on the left and "ENFORCE PAGE" on the right. In the "ENFORCE PAGE" section, there is a text input field labeled "Input URL..." with a yellow arrow pointing to it. Below this field is a button labeled "ADD FIELD +". At the bottom of the "ENFORCE PAGE" section, there is a "Share to Group:" label with a dropdown menu showing "Select a Group" and a "Share to Group" button. To the right of this, there is an "Enforce to Group:" label with a dropdown menu showing "Select a Group" and an "Enforce to Group" button. Two yellow arrows point to the "Enforce to Group" button and its dropdown menu.

To enforce content to a group of students

- while a class is in session, click the **SHARE/ENFORCE** button. The **Share/Enforce Pages** window opens.
- Type the URL in the **Input URL...** text box. Select a student group from the **Select a Group** drop-down list and click **Enforce to Group** to restrict a group of students to a single page. You are prompted to enter a duration of time, in minutes, for the students to be locked down to only the enforced URL. Type this duration and click **Confirm**. This action closes current tabs open for that duration of time or until you cancel the enforcement. To restrict the group to multiple URLs simultaneously, click **Add Field +** and type as many URLs as desired.

Enforcing A Page – To An Individual Student

The screenshot shows a window titled "Share/Enforce pages" with a close button (X) in the top right corner. The window is divided into two main sections. The top section contains a text input field labeled "Input URL..." with a yellow arrow pointing to it, and a button labeled "ADD FIELD +" below it. The bottom section is split into two columns. The left column has a light blue button labeled "SHARE PAGE" and a dropdown menu labeled "Share to Group:" with "Select a Group" as the selected option, and a "Share to Group" button below it. The right column has a dark blue button labeled "ENFORCE PAGE" with a yellow arrow pointing to it, and a dropdown menu labeled "Enforce to Group:" with "Select a Group" as the selected option, and an "Enforce to Group" button below it.

To enforce content to an individual student

- While a class is in session, click the lightning bolt icon beneath the student's tile. The
- **Share/Enforce Pages** window opens.
- Type the URL in the **Input URL...** text box and click **Enforce Page** to restrict the selected student to a single URL. You are prompted to enter a duration of time, in minutes, for the student to be locked down to only the enforced URL. Type this duration and click **Confirm**. This action closes current tabs open for that duration of time or until you cancel the enforcement. To restrict the student to multiple URLs simultaneously, click **Add Field +** and type as many URLs as desired.

Messaging

The screenshot shows a dialog box titled "Send message to class" with a close button (X) in the top right corner. Inside the dialog, there is a large text input field with the placeholder text "Enter a message...". Below this field is a "Send to:" label followed by a drop-down menu currently set to "Entire class". At the bottom right of the dialog are two buttons: "Send" (highlighted in blue) and "Cancel". A yellow arrow points to the "Enter a message..." text box, and another yellow arrow points to the "Send" button.

- Start a class.
- Click the **MESSAGE ALL** button. The **Send message to class** window opens.
- Type the message in the **Enter a message...** text box.
- Select whether to send the message to the Entire Class or a Group of Students from the **Send to:** drop-down list.
- Click **Send**.

The message is sent to the selected students and appears in the lower right corner of the screen, as shown below.

Cancel Confirm

During **Assessment** mode, you can enforce certain sites and all web traffic is blocked, except for the sites you **Allow** and push out. You can push out just one, or multiple sites at a time. The main difference between the **Share/Enforce** page mode and **Assessment** mode is that with **Share/Enforce** mode, you are pushing out a single URL, which means that other links within that page may not be accessible.

Pushing Out an Assessment

The screenshot shows a web interface titled "Assessment" with a close button (X) in the top right corner. Below the title bar, a message states: "During assessment mode all web traffic will be blocked, except for the sites you enforce (ENFORCED URLs) or sites you list as safe (ALLOWED URLs)." Below this message, there is a "LOAD PRESET:" section with two dropdown menus: "Admin presets" and "edgenuity", followed by a trash icon and a "SAVE CURRENT PRESET" button. The main area is divided into two columns: "Enforced URLs" and "Allowed URLs". The "Enforced URLs" column contains three text boxes with the following URLs: "www.edgenuity.com", "classroom.google.com", and "www.mathxl.com". Each URL has a minus sign button to its right. Below these is an "ADD FIELD +" button. The "Allowed URLs" column contains four text boxes with the following URLs: "www.edgenuity.com*", "www.authedgenuity.com*", "*edgenuity.com*", "*mathxl*", and "*classroom*". Each URL has a minus sign button to its right. Below these is an "ADD FIELD +" button. At the bottom of the window, there are four buttons: "Assessment", "Web Apps", "Cancel", and "Confirm".

- *classroom*

ADD FIELD +

Assessment Web Apps Cancel Confirm

Using **Assessment** mode, you can push out an entire domain which allows the student to access a sign-in page (if redirected and required), click on all links, tabs, content, videos, etc., within that designated site only.

- For the example shown here, Google Classroom, Edgenuity, and MathXL are being pushed out. The students are locked to those three sites only, but they can access everything within those three environments.

Using Assessment Web Apps Library

Blocks!’s Web Apps Library is a prebuilt library of web applications that are commonly used by our customers. These applications presets act differently in Assessment mode. For example, if a teacher pushes out an assessment on Canvas, students cannot go anywhere except that quiz URL - If they try to access any other page on Canvas, it will be blocked.

Modifying an Assessment – For The Entire Class

The screenshot shows the 'Assessment' configuration window for the user 'sam.student@blocksi-sandbox.com'. It features two main sections: 'Enforced URLs' and 'Allowed URLs'. The 'Enforced URLs' section contains a list of URLs: 'www.edgenuity.com', 'classroom.google.com', 'www.mathxl.com', and an 'Input URL...' field, each with a minus icon to its right. Below this list is an 'Add Field +' button. The 'Allowed URLs' section contains a list of URLs: 'www.edgenuity.com*', 'www.auth.edgenuity.com*', '*edgenuity.com*', '*mathxl.com', '*classroom.com', and an 'Input URL...' field, each with a minus icon to its right. Below this list is an 'Add Field +' button. A green arrow points from the 'Add Field +' button in the 'Allowed URLs' section to the 'Update' button at the bottom right. At the top, there is a 'LOAD PRESET' dropdown menu with 'Shared presets' selected, a 'Choose preset' dropdown, and a 'SAVE CURRENT PRESET' button. At the bottom, there are buttons for 'Assessment', 'Web Apps', 'Stop Assessment', 'Cancel', and 'Update'.

Assessment (sam.student@blocksi-sandbox.com)

During assessment mode all web traffic will be blocked, except for the sites you enforce (ENFORCED URLs) or sites you list as safe (ALLOWED URLs).

Assessment Web Apps Stop Assessment Cancel Update

You can edit/modify an Assessment after you have pushed it out to your class. You can modify an assessment for the entire class or for an individual student, or for a small group of students.

To modify an assessment for an entire class:

- Click the **Assessment Button** at the top of the Teacher Dash Screen. The Assessment window opens.
- Make the necessary changes to Your Assessment, by clicking the - **Remove URL from Assessment Icon** to the right of any URL you wish to remove.
- Click the **Update** button.

Creating an Assessment Preset

The screenshot shows the 'Assessment' window with an orange header. Below the header, a note states: 'During assessment mode all web traffic will be blocked, except for the sites you enforce (ENFORCED URLs) or sites you list as safe (ALLOWED URLs)'. The 'LOAD PRESET:' dropdown is set to 'Shared preset', with an arrow pointing to a 'Custom presets' menu that lists various options like 'Google Quiz', 'Quizlet', 'Kahoot', etc. To the right, the 'SAVE CURRENT PRESET' button is highlighted with an arrow. Below these are two sections: 'Enforced URLs' and 'Allowed URLs'. The 'Enforced URLs' section has an 'Add Field +' button. The 'Allowed URLs' section contains a list of URLs with minus buttons to remove them. A 'Save assessment' dialog box is open in the foreground, with an arrow pointing to the 'Assessment name:' text input field. Below this is a dropdown menu labeled 'Or save to an existing list:' with 'Choose preset' selected. An 'OK' button is at the bottom right of the dialog, also highlighted with an arrow.

To create your own assessment presets:

- Access the class that is in session.
- Click the **ASSESSMENT** button. The **Assessment** window opens.
- Select an assessment preset from the LOAD PRESET drop-down lists.
- Click the Add Field + button in the Enforced URLs section, and type the URL in the text box that appears. You can click the Add Field + button again to add more URLs.
- Click the **Add Field +** button in the **Allowed URLs** section, and type the URL in the text box that appears. You can click the **Add Field +** button again to add more URLs.
- When you have finished adding all the URLs, click **SAVE CURRENT PRESET** to the right of the preset name.

Sharing Your Screen

- Click the **SHARE SCREEN** button. The “Would you like to enable microphone when screen sharing?” prompt appears - Click **Yes** to enable microphone or **Cancel** if not.
- Then, the **Choose what to share** window opens, and defaults to **Entire Screen** - You can choose to share your entire screen, a window, or a tab.
- Click **Entire Screen**, **Window**, or **Chrome Tab**, and click **Share**. The message “Blocks share screen initialized” will appear on your screen when enabled.

Sharing Your Screen

- The message “Blocksie share screen initialized” will appear on your screen when enabled.
- Click **Close** to remove the message.
- To stop sharing your screen, click the **Stop Sharing** button at the bottom of your screen.

Help

The NFL season's Week 11 -- the week that kicking died. Philadelphia's Jake Elliott missed (twice), Cincinnati's Evan McPherson missed (twice) and Baltimore's Justin Tucker missed (twice). Even Dallas' Brandon Aubrey missed (just once, he's still the GOAT). That's how this week will always be remembered -- not for the Steelers beating the Ravens again, nor for the Lions handing the Jaguars their worst loss in franchise history, nor for the undefeated Chiefs finally falling. But for the day that kicking died.

- Our tool contains two tabs: **Analyze Text** and **Analyze File**. Using these tabs you can enter text or select a file that was submitted by a student and check it for plagiarism of published content or AI-generated text
- In seconds, the checker displays the results in percentages. When detecting plagiarism of published content, the sources plagiarized appear with links to the websites from which the content may have been copied. When detecting plagiarism of AI-generated text, the plagiarized text is highlighted in yellow.

Quiz Generator

- Generate a quiz in 20 seconds by following the instructions provided in the personal assistant chat.
- Wait until the form opens to check the questions are to your liking.
- Open the quiz in Google Forms and edit the form if necessary.
- Share the quiz, or push out the quiz with Assessment Mode.
- See student results from your teacher dashboard - get average score, best score, students scores, and stats on each question.

- Once the quiz has been generated by the personal assistant, double check the quiz questions and answer choices.
- Next, click the **Create Quiz in Google Forms** button.
- To edit the quiz, click the **Open in Google Forms** button.
- To make a copy of the quiz to embed in an assignment or shared document click the **Copy Google Form Link** button.
- To Share/Enforce the quiz with students click the **Share Page** button.
- To enforce the students in Assessment Mode click the **Create Assessment** button.

Replay Class Session

Click on the "See Student Screenshots" button to get to this screen

Select from the session you want to watch, then click "Replay Session" to watch

Press play to watch session, speed up, or skip through

Adding Substitute Teachers

- Click **SUBSTITUTE TEACHERS**. The **Substitute Teachers** window opens.
- Type the substitute teacher's email address in the text box.
- Type a date on which the substitute's access to the Teacher Dashboard will end. This is an optional field. If you leave it empty, the substitute will have access for an unlimited time frame.
- Type a password that the substitute will use to sign in to the dashboard and repeat it in the text box to the right.
- Click **Send Invite**. Blocks! sends an invite to the email address you entered in step 3.

The screenshot shows a window titled "Substitute Teachers" with a close button (X) in the top right corner. The window contains the following fields and elements:

- Substitute teachers email:** A text box with the placeholder "Enter valid e-mail address". An orange arrow points to this field.
- Substitute expiration date(Not required):** An empty text box.
- Create substitute teachers password:** Two text boxes labeled "Enter password" and "Repeat password", each with a toggle icon. An orange arrow points to the "Enter password" field.
- Password requirements:** A list of requirements: "Minimum length 8 characters", "One upercase letter", "One number", and "One special character".
- Send invite:** A blue button with white text. An orange arrow points to this button.
- List of subteachers:** A section header.
- Validation status:** A label.
- Valid until:** A label.
- Number of subteachers: 0/3:** A label.
- Close:** A button in the bottom right corner. An orange arrow points to this button.

Viewing Class History

The screenshot shows a Teacher Dashboard with a 'Class history' button highlighted by an orange arrow. A modal window titled 'History of Chemistry' is open, displaying a table of class sessions. The table has columns for Date, Start, End, and Students. Each row includes a 'View Analytics' link, which is also highlighted by an orange arrow.

YouTube Analytics

In the top left corner, click the waffle to open the options bar, you will get the option to view:

- YouTube Analytics
- Class Activity Timeline
- Logs
- Download a PDF

Filtering Analytics

The following filters are available:

User - Search for a specific user's browsing activity	Class - Search for a specific class
Organizational Unit - Search for a specific organizational unit	Teacher - Search for a specific teacher
Action - Values supported are Allow , Block , and Warning	Location - Search for a specific location
Category - Search for a specific web category	Policy - Search for a specific policy
Hostname - Search for a specific hostname	WAN IP - Search for a specific WAN IP address
Path - Search for a specific path	LAN IP - Search for a specific LAN IP address

Search Engine Queries - Search for specific keywords

Filter: User	Operator: is
Name1 Enter User Example: user1@school.com	
☐ Wildcard	ADD FILTER

- Select the filter to search on from the **Filter** drop-down list. When you select an option, the **Name** field and the **Wildcard** checkbox appear beneath the **Filter** list, as shown below.
- Select the operator from the **Operator** drop-down list. The operator is used to restrict the search to a particular value. For instance: if you select **User** in the **Filter** list, **is not** in the **Operator** list, and type **student002** in the **Name** field, the filter will restrict the search results to all students other than **student002**.
- Type the item you want to search for in the **Name** field.
- Select the **wildcard** checkbox if you include wildcards in your search. Selecting the checkbox is required if you use wildcards in your search.
