Mr. Baccus Oliver and Elijah Arterburn made introductions. Mr. Oliver shared about working extensively with Lyon County on previous projects, and if hired, this would be his 16th project with our school system. He also talked about his help with developing our School Facilities Plan. He answered questions and facilitated discussion with the Board using a slide presentation to show the 9 different projected line items for Lyon County Elementary School.

072602. Board Discussion Regarding Recommended Projects

The Board asked about the fire alarm system renovation and safety if that line were to be cut from the projected project. Mr. Oliver assured the Board that the current system is sufficient and that this proposal would be simply to upgrade. He agreed that replacing the fire panel would be a cheaper option at this time and in the future to possibly complete the full fire alarm renovation if the Board wanted to cut that line item to save funds for now. The Board discussed that line items 1-7 per the Opinion of MPE Cost that was given for review, appeared to be the top priorities with the assurance that the fire alarm system is safe. The Board took no action at this meeting and asked Mr. Oliver to put together a more refined document to share at the regular scheduled Board meeting on July 27, 2026.

Any remaining devices are then offered to all other staff members on a first-come, first-served basis. Our Chief Information Officer is recommending a buyback price of \$150 per device. Staff members who wish to purchase a device will be required to sign a transfer of ownership form.
