

Science Mash-Up: Get ready for a thrilling mix of science, creativity, and mind-blowing discoveries! Each week, we'll dive into a new world of fun—stretch and squish buttery soft slime, explore the forces of physics (can we defy gravity?), discover the weird world of mysterious microbes, and design a mechanical oscilloscope to project mesmerizing light patterns with your voice. Whether you love to create, experiment, or just be amazed, there's something exciting waiting for you every week!

Sept 16, 23, 30 | Oct 7

Oct 14, 21, 28 | Nov 4

Art with a Twist: Join us for an exciting blend of creativity and discovery! In this club, we'll combine the world of art with the wonders of science. From brushes to circuits to nature, you'll explore innovative ways to create art. Build your very own spin art machine, experiment with fizzing paint, craft vibrant masterpieces using natural pigments, and trick your brain with unbelievable optical illusions. Whether you're a budding artist or a future scientist, this club has something for everyone!

Freaky Physics: Get ready to freak out with physics as you examine forces, see how physics and engineering are related as you compete in a tower building challenge, create a circuit to power a cool motorized “bristle-bot”, and explore the marvels of magnetism

Nov 11, 18 | Dec 2, 9

- Class meets Wednesdays (3:05 - 4:05 pm) in Art Room 147
- Tuition: \$99 for each 4-week theme
