This place is like a dream come true for my daughter. She had been coming for only a few months, and her math grade has improved. Their tutors are respectful and professional.

My son was very pleased with the pre-calculus tutoring. They were very quick to respond and flexible. It was an incredible supplement to my son's classes!

The investment is well worth it! They know the RCS curriculum and its surrounding districts. They are truly able to be a support and extension of the classroom!

It's been a great experience for my son who has a high-functioning autism with ADHD. My only regret is that I wish I had known and started the Zara Tutoring service earlier.
