

WILL THESE CREDITS TRANSFER?

Transferability versus Applicability

THINK ABOUT YOUR CAREER PATH BEFORE CHOOSING YOUR CONCURRENT ENROLLMENT COURSE

The Concurrent Enrollment course you register for should go towards the degree, certification, or training you are planning to complete after you graduate high school.
This is how you are going to save money and time in college!

CHOOSE COURSES THAT TRANSFER

Introductory courses or Guaranteed Transfer (GT) Pathway courses are good examples of the types of Concurrent Enrollment courses to consider.

Classes that appear on the Colorado State **Guaranteed Transfer (GT) List** will transfer to all public colleges and universities in Colorado.

LIMITS?

There may be limits on what an institution will accept towards the program of study. Institutions may require a minimum number of credits to be awarded a degree.

Concurrent Enrollment classes in high school should count for college credit. However, the transferability of credits earned through Concurrent Enrollment takes a little work on your part, before and after you take your course.

A good resource is the website [Transferology.com](https://www.transferology.com), which helps students determine how college-level classes might transfer to over 400 colleges and universities throughout the country.

PLAN AHEAD. MAKE SMART CHOICES. INVEST IN YOUR FUTURE.
