Spanish for the Elementary Years

Get a head start on the language by joining us for an educationally oriented curriculum that is specifically designed for the K-6 student to learn the Spanish language. This unique and exciting program features foundation vocabulary introduced through games, singing and fun activities. Students are able to compound words and begin forming simple sentences. Early introduction increases the students ability to absorb rather than translate the language. If you have taken a Spanish class previously, new vocabulary is introduced with each session - never a repeat. Class is open to new and returning students! Join the fun! Program is offered at dismissal at each of the schools below. Class fee is $99.00

TRUE STORY: My mother was diagnosed with Covid-19 and it hit her so bad that her oxygen dipped to 58%! She was taken by ambulance to the hospital where she spent almost 3 weeks in the ICU and another couple weeks there to recover. While she was there, we had to take in her mail, water her plants, keep an eye on her pool levels, utilities and bills. Basically handle all of her affairs. Before her hospital release my siblings and I knew she was in need of at home care. But finding a nurse at that time was near impossible.

With our own households, jobs and children to juggle we knew we needed to do something. As we were all self-employed we had no family leave, vacation days or sick pay. If we were not on the job, the business did not run.

WHAT DID WE DO? As if by some miracle - we found out that my mother had a Benefit Plan that covered all of this. Because of that we were able to hire a Private Nurse and take turns cooking her meals and spending time with her. It was because of this incident and her policy that I decided to get my license so that I could advocate for these products. Having the right protection plan in place for the unexpected can make all the difference.

TOPICS TO BE DISCUSSED:
Accident/Sickness/Disability/Critical Illness/Cancer and Life Insurance Policies.
