

Rumson-Fair Haven Regional High School

Course: *English III*

Staff Writers: Cassie Fallon, Rachel Hoff, and Alexis Marinov

Supervisor: Suzanne Crowley

Board Approval: August 2026

Section I: Course Description

English III integrates the study of language and literature to enhance/reinforce the literacy capacities and higher-order critical thinking skills needed for the 21st Century. Emphasis is placed on the acquisition and development of the literacy capacities needed for college and career readiness. Students enrolled in *English III* will read and respond to canonical and contemporary works of literature and complementary nonfiction texts that provide insight into the foundational texts of the English language, paired with key components of modern voices. The focus of these texts is to track developing identities through cultural experiences of the time while providing a juxtaposition of those experiences with enduring sociocultural concepts.

Section II: NJSLS: New Jersey Student Learning Standards/Learning Objectives:

1. **2023 New Jersey Student Learning Standards English Language Arts:**
 - “A New Jersey education in English Language Arts builds readers, writers, and communicators prepared to meet the demands of college and career and to engage as productive American citizens with global responsibilities. ...Students will [d]evelop the necessary skills in reading, writing, speaking, and listening that are the foundations for creative and purposeful expression in language[; r]ead rich, challenging texts that build their knowledge of the world, grow their confidence and identities as readers, and develop critical thinking skills and vocabulary necessary for long-term success[; e]ngage in regular, meaningful, writing authentic tasks, exploring valued topics, writing for impact and expression, and sharing their work with others (including authentic audiences)[; l]everage complex texts and digital media to develop comprehension, active listening, and discussion skills[; g]round daily writing and discussion in evidence, fostering an ability to read critically, build arguments, cite evidence, and communicate ideas to contribute meaningfully as productive citizens[; e]valuate the reliability, credibility, and perspective of authors and speakers across all forms of media[; e]xpress ideas and knowledge through a variety of modalities and media, and serve as effective communicators who purposefully read, write, and speak across multiple disciplines [and l]earn to persist in reading complex texts, establishing lifelong habits to read voluntarily for pleasure, for further education, for information on public policy, and for advancement in the workplace.”
2. **2020 New Jersey Student Learning Standards: Comprehensive Health and Physical Education:**
 - “Successful preparation of students for the opportunities, rigors, and advances of the 21st Century cannot be accomplished without a strong and sustained emphasis on the health and wellness of all students. Today’s students are continually bombarded with physical, mental, and social influences that affect not only learning in school, but also the lifelong health of the citizens that schools are preparing for graduation. To that end, the New Jersey Student Learning Standards - Comprehensive Health and Physical Education (NJSLS-CHPE) were revised to address the need for students to gain knowledge and skills in caring for themselves, interact effectively with others, and analyze the impact of choices and consequences.”
3. **2026 New Jersey Student Learning Standards – Science:**
 - “Scientific and technological advances have proliferated and now permeate most aspects of life in the 21st century. It is increasingly important that all members of our society develop an understanding of scientific and engineering concepts and processes. Learning how to construct scientific explanations and how to design evidence-based solutions provides students with tools to think critically about personal and societal issues and needs. Students can then contribute meaningfully to decision-making processes, such as discussions about climate change, new approaches to health care, and innovative solutions to local and global problems.”
4. **2020 New Jersey State Learning Standards-Social Studies:**
 - “...Today’s challenges are complex, have global implications, and are connected to people, places, and events of the past. The study of social studies focuses on deep understanding of concepts that enable students to think critically and systematically about local, regional, national, and global issues. Authentic learning experiences that enable students to apply content knowledge, develop social studies skills, and collaborate with students from around the world prepare New Jersey students for college, careers, and civic life. The natural integration of technology in social studies education allows students to overcome geographic borders, apply scientific and mathematical analysis to historical questions and contemporary issues, appreciate cultural diversity, and experience events through the examination of primary sources. The 2020 New Jersey Student Learning Standards – Social Studies (NJSLS-2020) are informed by national and state standards and other documents such as the College, Career, and Civic Life (C3) Framework for Social Studies State Standards, as well as those published by the National Center for History Education, National Council for Social Studies, National Council for Geographic Education, Center for Civic Education, National Council on Economic Education, National Assessment of Educational Progress, and the

Partnership for 21st Century Skills. Social studies instruction occurs throughout the K-12 spectrum, building in the sophistication of learning about history, economics, geography, and civics at all ages.”

5. [2020 New Jersey State Learning Standards- Visual and Performing Arts:](#)
 - “The New Jersey Student Learning Standards for Visual and Performing Arts (NJSLS-VPA) describe the expectations for literacy and fluency in five artistic disciplines: dance, music, theatre, visual arts, and media arts. Each artistic discipline has independent skills, knowledge, and content. However, as a field, the arts are interdependent, connected, and inclusive. The NJSLS-VPA are designed to guide the delivery of arts education in the classroom with new ways of thinking, learning, and creating. The vision of all students having equitable access to a quality arts education is only achieved when the five arts disciplines are offered continuously throughout the K–12 spectrum.”
6. [Standard 8.1 \(Computer Science\) and 8.2 \(Design Thinking\) of the 2020 NJSLS:](#)
 - “The ‘Intent and Spirit of the Computer Science and Design Thinking Standards’ is to focus on deep understanding of concepts that enable students to think critically and systematically about leveraging technology to solve local and global issues. Authentic learning experiences that enable students to apply content knowledge, integrate concepts across disciplines, develop computational thinking skills, acquire and incorporate varied perspectives, and communicate with diverse audiences about the use and effects of computing prepares New Jersey students for college and careers.”
7. [Standard 9.4 \(Life Literacies and Key Skills\) of the 2020 NJSLS:](#)
 - “This standard outlines key literacies and technical skills such as critical thinking, global and cultural awareness, and technology literacy that are critical for students to develop to live and work in an interconnected global economy.”
***Climate Change:** The state of New Jersey has mandated instruction in, “Climate Change across all content areas, leveraging the passion students have shown for this critical issue and providing them opportunities to develop a deep understanding of the science behind the changes and to explore the solutions our world desperately needs.”
8. [*Amistad Law: N.J.S.A. 18A 52:16A-88:](#)
 - The inclusion of lessons and resources/texts dealing with the African slave trade, slavery in America, the vestiges of slavery in this country and the contributions of African-Americans to our society will be implemented in English and Social Studies courses in accordance with state law: “Every board of education shall incorporate the information regarding the contributions of African-Americans to our country in an appropriate place in the curriculum of elementary and secondary school students.”
9. [*Holocaust Law: N.J.S.A. 18A 35-28:](#)
 - The inclusion of lessons and resources/texts that enable pupils to identify and analyze applicable theories concerning human nature and behavior; to understand that genocide is a consequence of prejudice and discrimination; and to understand that issues of moral dilemma and conscience have a profound impact on life will be implemented in English and Social Studies courses in accordance with state law: “Every board of education shall include instruction on the Holocaust and genocides in an appropriate place in the curriculum of all elementary and secondary school pupils. The instruction shall further emphasize the personal responsibility that each citizen bears to fight racism and hatred whenever and wherever it happens.”
10. [*LGBT and Disabilities Law: N.J.S.A. 18A:35-4.35:](#)
 - A transformative approach to the inclusion of lessons and resources/texts on the contributions and issues concerning the LGBTQ+ population and people with disabilities will be implemented across all core subjects in accordance with state law: “A board of education shall include instruction on the political, economic, and social contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people, in an appropriate place in the curriculum of middle school and high school students as part of the district’s implementation of the New Jersey Student Learning Standards (N.J.S.A.18A:35-4.36). A board of education shall have policies and procedures in place pertaining to the selection of instructional materials to implement the requirements of N.J.S.A. 18A:35-4.35.”
11. [*Asian American and Pacific Islanders Legislation: N.J.S.A 4021/A6100:](#)
 - The inclusion of lessons and resources/texts on the history and contributions of Asian Americans and Pacific Islanders, will enable New Jersey’s schools to provide a curriculum that reflects the diversity of our state. In accordance with state law: “A board of education shall include instruction on the history and contributions of Asian Americans and Pacific Islanders in an appropriate place in the curriculum of students in grades kindergarten through as part of the school district’s implementation of the New Jersey Student Learning Standards in Social Studies.”
12. Acquisition/development/refinement of the higher-order critical thinking skills aligned with the *Revised Bloom’s Taxonomy of Cognitive Objectives*

Section III: Curriculum Modifications

The *English III* curriculum is subject to case-by-case modifications to support/advance the needs of all students, including special education students, English language learners, gifted students, and those at risk of school failure. These modifications are based on Individualized Learning Programs (IEPs), recommendations made by the district's Multi Language Learners (MLL) coordinator, feedback from members of the Intervention & Referral Services Team (*I&RS*) for at-risk students, and 504 Plans.

Coursework and assessments will be modified on an individual basis for students when necessary. Modifications may include but are not limited to those outlined on the [Modifications/Accommodations for English](#) Courses chart.

Section IV: Preparation for Standardized Testing

Instruction in *English III* is aligned with the requirements of state and national standardized assessments, including the *NJGPA*, *NJSLA*, the *ACT*, the *PSAT*, and the *SAT*.

Section VII: Grading Formula and Assessment Modes

Marking period grades in *English III* are determined via a percentage weighting model. The specific grading categories and weightings of each will be determined before the start of each academic year and will be published in the posted/distributed course syllabi.

Assessments in *English III* vary greatly in format, scope/content/skills assessed, and alternative assessments; differentiation in assessments and choice will be incorporated as appropriate. Preliminary assessments of each format will be used as benchmarks, and summative assessments will be created/revised collaboratively each year and planned by members of the *English III* instructional team to inform future learning and to measure student growth.

Section VIII: Unit Templates

The following unit templates have been established for the *English III* curriculum by the *English III* instructional team:

Unit I: Representations of Cultural Values	
Unit Summary	
In this unit, students will investigate how cultural values are represented in both period and modern texts, focusing on the dominant, signifying facets that reinforce the association between the literary work and its cultural context. Through the analysis of represented cultural values, students will gain an understanding of how literature functions as a window into the historical period in which it was crafted. This unit supports the development of essential literacy capacities and higher-order critical thinking skills through its concentration on the representation of cultural values in period and modern texts, helping students understand the value of literature in cultural analysis.

Unit III: Environment and Diverse Identities	
Unit Summary	
In this unit, students will focus on both fiction and nonfiction sources to explore the role of the environment in the construction of identity. Examining literature that focuses on the conflicts in colonized societies and their effect on daily life, as well as their social, emotional, and political implications, students will have the opportunity to select a contemporary fictional choice that enables further engagement with such constructs. Through analyzing this struggle, especially how it manifests in literary and artistic expression, students will gain an understanding of the challenges associated with establishing identity while navigating cultural expectations, obstacles, and social perceptions.

Unit IV: Dystopian Worlds		
Unit Summary		
In this unit, students will gain an understanding of how writers use the dystopian model to make a political statement regarding current societal conditions. Through the analysis of character resistance to the ideological and repressive structures of a dystopian society, students will gain an understanding of how this unique genre of literature helps us become more conscious of similar structures in the modern world.

Section IX: Unit Reflection

The *English III* instructional team must confer upon the completion of each instructional unit in the *English III* curriculum and rate the degree to which the instructional units meet performance criteria established by the New Jersey Department of Education using the Unit Reflection Form. Completed unit reflection forms should be used by the instructional team for future modifications within and to *English III* curriculum.

Are challenging and require higher-order thinking and problem-solving skills;			
Allow for student choice;			
Provide scaffolding for acquiring targeted knowledge/skills;			
Integrate modern, global perspectives, especially those regarding diversity, genocide, global issues, and historical ones regarding racial relations;			
Integrate 21 st century skills;			
Provide opportunities for interdisciplinary connection and transfer of knowledge and skills;			
Are varied to address different student learning styles and preferences;			
Are differentiated based on student needs;			
Are student-centered, with the teacher acting as a facilitator and co-learner during the teaching and learning process;			
Provide means for students to demonstrate knowledge and skills and progress in meeting learning goals and objectives;			
Provide opportunities for student reflection and self-assessment;			
Provide data to inform and adjust instruction to better meet the varying needs of learners.			

Appendix ***Writing Instruction and the RFH Community***

Writing instruction should happen across the RFH Community. Writing across the curriculum is a philosophy that advances the belief that writing is a method of learning. Since all departments are committed to helping students learn, writing must be used as a methodology to advance student learning.

Each academic discipline has its own unique conventions, formats and structures. It is the responsibility of each department to agree upon domain-specific writing praxes, model them for students, and require them to utilize them on a consistent basis. Students must understand that acceptable writing in one domain may not be acceptable writing in another area. The development of domain-specific writing skills supports the overall development of the student writer because all writing is grounded in the writing situation: audience, context, purpose, subject, and writer. Representatives from the academic disciplines must share their domain-specific writing praxes with each other, identify intersections, and determine how to address perceived gaps that limit student learning.

Students must experience writing situations that help them learn how to think creatively and critically and communicate effectively in the academic disciplines. Writing instruction, regardless of the academic discipline, must always reinforce student understanding of the writing situation. When students experience writing situations, they must study examples of domain-specific writing in order to understand how writers communicate in discipline-related contexts. This does not mean information embedded in textbooks. Domain-specific writing is writing that is used to inform and influence readers as it draws them into an established circle of discourse. Students must use these non-fiction texts to develop the close reading skills that will shape their own writing. Focused engagement with domain-specific writing should not be limited to basic reading comprehension and topical understanding. It must also include the analysis of the writing situation that is represented in the text: audience, context, purpose, subject, and writer. The close reading of well-written texts—regardless of the domain—will show students the importance of writing mechanics, diction, and syntax. The development of close reading skills will also help the students grow in terms of their ability to construct and advance independent and original claims that are well-supported by evidence. Domain-specific writing is grounded in positioning of claims and the effective use of evidence.

The final written product is important; nevertheless, the learning that results in this production must not be devalued. The writing process is not limited to the basic steps of planning, drafting, revising, and editing/proofreading. It is a complex sequence of critical and creative thinking and writing that leads to the production of a text that provides evidence of learning and understanding. Students must ultimately develop the ability to self-assess the effectiveness of their writing as a representation of the writing situation. Without the use of models that evidence learning and understanding, students will not develop the ability to self-assess their own work—the true outcome of the writing process.

What types of writing situations should RFH students engage in?

RFH students should engage in writing situations across the curriculum that require them to:

- write to improve mechanical proficiency, diction usage, and syntactical sophistication
- write to narrate, describe, and reflect
- write to summarize and report
- write to classify and define
- write to explain how process leads to an outcome
- write to compare, contrast and evaluate
- write to speculate on cause and effect
- write to propose solutions and solve problems
- write to analyze

These writing situations should be positioned in a coordinated, developmental sequence that extends across the academic disciplines.

Upon Completion of Grade 12, RFH students must be ready to transition to the following writing situations:

- write to analyze
- write to persuade (argument)

The core foci of first-year college writing courses are analysis and argument. These courses orient the students to the demands and expectations of writing for the academic culture of college. At colleges/universities with carefully coordinated writing programs, students must demonstrate proficiency in analysis and argument before they transition to upper-level courses that require them to engage in the following writing situation:

- write to investigate (research)
