Annual AHERA Notice
FOR THE SCHOOL YEAR 2026-2027

Dear Parents, Guardians, and Staff Members:

As mandated by Federal Regulation 40 CFR Part 763, known as AHERA (Asbestos Hazard Emergency Response Act, enacted in 1987), required all schools (K-12) to conduct initial inspection to determine the presence and condition of Asbestos Containing Materials (ACM). If they do, ACM must be categorized according to the type of material, its locations, current damage/condition, and its potential for future damage and a detailed Asbestos Management Plan (MP) must be developed. The Management Plan details the inspection findings and outlines the response actions the School intends to implement.

To accomplish this requirement, the School Board now has on file at each school and in the District Office a NJ State Department of Health approved Asbestos Management Plan for all school facilities. The provisions of the plan are being implemented in a timely and on-going fashion. It is a desire of the School District to provide a safe and healthy facility for all students, employees and visitors.

Saddle Brook School District completed the US EPA AHERA Six-Month Periodic Surveillance in April, 2026 and a Three-year AHERA Re-Inspection in October, 2024. All previous periodic surveillance and re-inspections are included in the School's Management Plan. Since last written notice, there have been no asbestos response activities to report.

The purpose of this notification letter is to satisfy the requirements of AHERA for written notice of the availability of the Management Plan for review. Should you desire, please contact Michael O'Donnell, Supervisor of Buildings and Grounds at 201-843-1142 ext. 2311 or email: Modonnell@sbpsnj.org.

Sincerely,

Raymond G. Karaty
Business Administrator/Board Secretary
