ANNUAL INTEGRATED PEST MANAGEMENT NOTICE FOR THE SCHOOL YEAR 2026-2027

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act **Saddle Brook Board of Education** has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the schools IPM Policy that can be found on the district Web-site.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for the Saddle Brook Public Schools is:

Name of IPM Coordinator: Michael O'Donnell
Business Phone number: 201-843-1142 ext. 2311
Business Address: 355 Mayhill Street, Saddle Brook, NJ 07663

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan the Saddle Brook Public Schools may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following pesticides have been used in all district buildings in the past 12 months:

Trade Name	Common Name	EPA Registration #
Advion Roach Bait	Indoxacarb	352-652
Advion Ant Bait	Indoxacarb	352-746
Essentria IC3	Rosemary Oil	NONE
Contrac Bait	Bromadiolone	12455-79
EzBlock	Bromadiolone	87235-2-88689
Resolv Soft Bait	Bromadiolone	7173-297

Sincerely,

Raymon G. Karaty
