EWLE will provide a rich, multi-sensory, second language environment that takes advantage of your child's energy, curiosity, and natural ability to acquire language. In a relaxed atmosphere, students will begin to develop listening and speaking or signing skills. This program is instructed by our high school world language students. Given that the classes are tied to their availability, we are committed to offering as many sessions as our high school instructor enrollment allows. Elementary supervisors are present during the program to oversee the high school instructors and students.

EWLE will be organized around the following objectives:

- To recognize and be able to reproduce the sound of the languages
- To respond to and offer greetings
- To recognize and be able to say numbers
- To carry out directive statements from teacher
- To learn to orally/visually identify vocabulary words from the following topics: colors, animals, and family
- To understand and give answers to simple questions
- To sing songs and play games in the language

EWLE classes take place in your student's elementary school.
