STUDENT TRANSPORTATION AND STUDENT DRIVING POLICY

The State Highway Patrol will be informed of any unlicensed student who drives to or from school. A student must be properly licensed to receive permission to drive to and from Athens High School. A student is expected to follow good driving practices. These practices, outlined below, apply to motorcycles as well as automobiles.

1. All vehicles must be registered on the form provided in the main office. These forms require parent signature and include a waiver of transportation liability for the school. Parking tags will be given to the students which must be displayed on the vehicle rear view mirror.
2. All student parking is limited to the student parking lot.
3. All vehicles are to be operated in a reasonable and lawful manner. The speed limit on all school property is 15 mph.
4. Students engaging in educational options such as CC Plus, Senior Release, or Work Release programs MUST have their own transportation and sign out when scheduled to do so. Students who remain in the building when they are scheduled to be elsewhere will be removed from their educational option and assigned to a study hall.
5. No student and his/her vehicle may leave the school grounds prior to his/her dismissal without permission from the principal or assistant principal.
6. Student cars that are not parked appropriately are subject to towing at the students expense.
7. No 9th or 10th Grade student will be permitted to park on school property without permission from the high school principal.
8. Parents are reminded that student driving privileges may be revoked.
9. Parking on school grounds is a privilege and not a right and the school's vehicle search and seizure policy is in effect.
    a. The following are examples of driving related behavior which are considered unacceptable:
        i. Driving an unregistered vehicle to school
        ii. Parking in an unauthorized area
        iii. Operation of vehicles in unauthorized areas (driving on grass or in delivery areas)
        iv. Operation of a vehicle in a manner which endangers the safety or health of the driver, other students, and/or others in general.
        v. Unauthorized use of vehicle, particularly during the lunch periods.
        vi. Excessive tardiness (driving privileges revoked)

Please keep in mind that the above list is not all-inclusive. Other unacceptable driving practices do exist and may be dealt with along with the above items by loss of driving privileges. Any student who drives to school or parks at school during the period of time that his or her driving privileges have been removed may be suspended from school. A record of each action taken against a student will be kept in the student's file in the Assistant Principal's office.

Please come to the main office to pay the $10.00 fee and pick up your parking permit.
