

Bronchos, Parents, Families, and Community Members,

As we begin the 2026-2027 school year, I want to be very clear about who we are, what we believe, and where we are headed as a campus.

At Odessa High School, we believe every student deserves the opportunity to build the future they choose. We also believe that opportunity alone is not enough. Opportunity must be matched by effort, commitment, and a willingness to embrace high expectations.

For too long, some students have been told what they cannot do.
At Odessa High School, we focus on what our students **WILL DO!**

We are a college and career-focused campus. Whether a student chooses a university, community college, military service, technical training, apprenticeship, entrepreneurship, or direct entry into the workforce, our responsibility is to ensure they are prepared to succeed. We do not believe in one path for every student. We believe in preparing every student for the path they choose.

That is why our expectation is simple:

Every Odessa High School student will participate in a rigorous pathway that prepares them for success in life after high school, including college and/or career and achievement of their dreams.

Every student will be enrolled in and benefiting from one or more of the following:

- Advanced Placement (AP)
- AVID
- International Baccalaureate (IB)
- Career and Technical Education (CTE)
- Dual Credit

These programs are not reserved for a select few students. They are opportunities designed for all Bronchos. Our job is to create access. Our students' job is to take advantage of those opportunities and maximize them.

At Odessa High School, we move students from aspiration to expectation.

We expect students to attend school consistently because opportunity cannot be seized from home. Our expectation is **95% attendance** for EVERY student.

We expect students to master the academic standards necessary for future success. Our expectation is a **95% passing rate** on all STAAR End-of-Course assessments.

We expect every student to graduate with a clear plan and measurable readiness for life after high school. Our expectation is **100% CCMR** point attainment.

Most importantly, we expect **100% student buy-in** for their future.

We expect a **100% graduation rate**. This starts NOW... not tomorrow, not next year. NOW.

No student should walk across our graduation stage without a plan, a purpose, and a pathway forward.

As someone who comes from a family of first-generation high school and college graduates, I understand firsthand how education changes lives. Education creates choices. Education opens doors. Education breaks cycles. Education creates opportunities not only for individuals, but for entire families and future generations.

The future of Odessa will not be determined by what happens in Austin, Washington, or anywhere else. The future of Odessa will be determined by what happens in our classrooms, our homes, our workplaces, and our community every day.

We **cannot** allow low expectations to define our students.

We **cannot** accept excuses when attainable and accessible opportunities exist.

We **cannot** allow generational barriers to become generational realities.

Instead, we must choose something greater.

We must choose excellence.

We must choose growth.

We must choose opportunity.

We must choose preparation.

We must choose the future.

To our students: Dream big, but work bigger. The life you want will not be handed to you. It will be **EARNED** through effort, discipline, perseverance, and learning.

To our parents and families: Thank you for trusting us with your children. We ask for your partnership in maintaining high expectations at home and at school.

To our staff: Thank you for the life-changing work you do every day. You are creating opportunities that will impact generations.

To our community: Continue believing in our students and investing in their success. Together, we can create opportunities today that were not possible yesterday.

At The Odessa High School, we are not simply preparing students to graduate.

We are preparing them to lead.

We are preparing them to compete.

We are preparing them to contribute.

We are preparing them to succeed.

The future belongs to those who prepare for it. Those who **TAKE IT**.

Let's make 2026-2027 our most successful year yet.

FROM ASPIRATION TO EXPECTATION. GO BIG RED!

With Love and Appreciation,

Hector Limon Jr.
Principal
