When Every Moment Matters

Long waits in emergency rooms, involuntary holds for days, transfers out of the area to psychiatric facilities—current practices fail to properly support young people experiencing suicidal thoughts. The Lotus Center offers a safe, calming, and comfortable space where specially trained counselors and coaches deliver intensive outpatient support to young people struggling with suicidal thoughts or behaviors.

Program Goals

PREVENT CRISIS

Help prevent situations from becoming emergencies.

CREATE SAFETY

Develop personalized safety AND wellness plans.

BUILD RESILIENCE

Support youth and families with skills for long-term well-being.
